Poor General Mah
Small Dog, Big Bite
Prepare to Pay More
A Sing Sing Game

By Arthur Brisbane

JAPANESE troops have "dug in" at Tahsing. Tokio reports a severe attack on the Japanese by the Chinese Gen. Mah Chan Shan. While the League of Nations protests, wondering if there "will be war in the Orient," the war is going on at a fairly good pace.

Gen. Mah says he knows he cannot win, being out-numbered, and expecting any minute heavy airplane bombardment by Japan, which would scatter his forces. He relies on the League of Nations.

Poor Gen. Mah will learn that nobody in the League will send men or money to share that unpleasant bombardment from the air.

A small dog, smuggled aboard a United States destroyer in the harbor of Manila by sailors that desired a playmate, bit 10 of the seamen. What happened will interest those that say talk of rabies is all nonsense; also those that think disease is not real.

The 10 bitten concealed the fact. One died of rabies, the other nine are in the hospital, undergoing treatment.

Senator Watson says an increase in taxes is "inescapable." Senator Smoot, head of the finance committee, agrees. Therefore, prepare to increase your contributions to Uncle Sam.

Senators Watson and Smoot favor a sales tax, but they do not believe Congress would approve it.

More money must come from some source. The government faces a deficit of two thousand million dollars.

Under the circumstances, forgiving our European debtors sounds pious, and silly.

Senator Brookhart, of Iowa, says Senator Hiram Johnson, of California, should get the presidential nomination and election next year. Senator Johnson has not yet spoken.

Whoever gets the nomination on the Republican ticket must, between now and election day, present some kind of plan in which the people have confidence, or he must be able to point to vastly improved conditions.

"Genius is the infinite capacity for taking pains," according to one. *Democracy is the infinite capacity for making mistakes, and for starting internal fights at the last minute,* according to others. But if this depression remains, it will be hard for even the Democrats to offset the advantage of hard times, zillions idle, no definite plan in sight.

Convicts of Sing Sing, fighting hard against 11 naval militiamen, beat the latter by a score of 33 to zero, in a football game. The Sing Sing captain, "Red" Hope, who still has 59 years to serve, yelled persistently, "No slugging in the scrimmages," advice not taken too seriously. Two naval militiamen were carried from the field on stretchers.

The warden, Mr. Lawes, promotes football as a "character builder."

Cries from the 2000 convicts looking on, of "Slug him," and "Gang him," indicated an inclination to build character on a firm foundation.

For nine days Ira A. King, of Mansfield, O., has suffered an attack of hiccoughs. An effort to stop the hiccoughs by using musk from the musk deer failed. This reminds us to be grateful that a structure as "fearfully and wonderfully made" as the human body functions, as a rule, so well.

Consider your kidneys, your capillary blood vessels, the thousands of millions of cells that make up your body, each one eating, digesting, breathing, as you do.

Each kidney has one million small tubes that eliminate poisons from the blood. Your capillaries, supplying tissues with oxygen, iron, liquids and food that they need, would, stretched end to end, go around the world two and a half times.

Your nerves of sight, touch, smell, taste, hearing, carry impressions from the outside world to your brain. The brain, through the nerves, sends orders to the muscles, and you run, fight, dodge, or otherwise protect yourself.

We are only beginning to understand our marvelous gland system, more extraordinarily complicated than all the rest put together.

In the words of the Bible, we may indeed "Praise the Lord."

The Prince of Wales, via the radio yesterday, urged all Britishers to "Buy British goods." Britons think everything "British" a little better than anything else. But British manufacturers are undersold, as in automobiles by our producers.

Temptation to buy cheap instead of "Buying British" is great. But you find no British merchant advertising foreign goods as better than British, or any British citizen paying more for something made abroad, because it is NOT British. Americans take notice.

Details of Cobb Death Tragedy Told Jury by Discharged Maid

'EMILY SHOT ME' NOTE IS PRESENTED

School Teacher Is Among Witnesses; a Full Probe of the Fatal Shooting Planned

By Boston Evening American Staff Correspondent

New Bedford, Nov. 17—Secret details of a domestic tragedy spawned in prohibition gin were laid before a grand jury convened in special session here today to consider the shotgun killing of Justin L. Cobb, Jr., son of a Mansfield bank president.

Bristol County, through a succession of witnesses, sought the indictment, for murder, of Emily Roberts Cobb, 26, pretty widow of the victim, mother of his two children.

Recalled from their homes after dismissal, 20 members of the grand jury received, under direction of Dist. Atty. William C. Crossley, unpublished details of what the state claims was the revolting murder of her husband by the former dancer and dramatic reader as the climax to a series of gay parties and domestic strife resulting from them.

WOMEN WITNESSES

Two women were among those called as witnesses. One was Miss Margaret Davis, 18-year-old West Mansfield girl, who tells of her discharge from position of maid in the

AUTO CRASH KILLS 'JOE' CAVAGNARO

Noted Boston Police Inspector Dies in New York State Seeking Murder Witness

Inspector Joseph Cavagnaro, widely known homicide squad officer of the Boston police department, was killed today in an automobile accident in Middletown, N. Y.

He was in that section, it was learned, seeking [illegible] Cano, North End [illegible] the key to the mystery surrounding the killing of Joseph Fantasia, for which two men have been sentenced to death and later saved.

A telegram to Dist. Atty. William J. Foley stated that Cavagnaro was driving his own car when forced off the road by a machine coming in the opposite direction at high speed. He died in Middletown Hospital.

ODD COINCIDENT

Inspector Cavagnaro figured in the investigation and solution of many murder cases, notably those involving persons living in the North End Italian district, where he had a wide acquaintance and access to information denied other officers.

He is survived by his wife and three daughters. His home was in Kenrick rd., Brighton.

It is a curious circumstance that Cavagnaro has met his death before final solution of the Fantasia case, in which two men, Samuel Gallo and Gangi Cero, have been within the shadow o fthe electric chair, only to be saved.

SEEKING ROMANO GIRL

Cero is freed of the charge and Gallo is to get a new trial. It was for this coming trial that Cavagnaro was seeking the North End girl, who once convicted Cero by her testimony, then retracted and caused Gallo's conviction.

She subsequently disappeared. Once before she had vanished, but was found after long search.

RUNAWAY HEIRESS FOUND, IS 'SORRY'

Rosemary Pamela Gilding, Who Vanished From Wellesley, Located in Springfield

Rosemary Pamela Gilding, 17-year-old English heiress, who left Wellesley [illegible] mysterious flight Saturday, was found today at 38½ Harrison ave., Springfield, through clues furnished by the Boston Evening American.

Sought in three states by police and detectives and with boat New England being watched, the shy girl eluded all searchers until reporters of the Evening American ascertained that she had not left Springfield.

They traced her to a section of that city, to where she had gone after employing a taxicab yesterday to take her to the Springfield railroad station from the Hotel Clinton just before a New York train was scheduled.

ADMITS IDENTITY

In a rooming house, Policewomen Mary F. Lathrop and H. Elizabeth O'Connell of the Springfield police found Pamela today, and the girl evidently relieved that the chase was over, readily admitted her identity.

She consented to go to police headquarters with the policewomen, requesting only that they stop on the way that she might send a telegram to her Wellesley school. Prof. Hamilton C. Macdougall.

WEATHER TEST 18,000 FT. IN AIR

In defiance of the low-hanging grey clouds, Prof. Daniel B. Sayre of Technology soared aloft 18,000 feet today in a monoplane from the Boston Airport and took weather readings at that altitude.

He was alone, accompanied only by the instruments which record pressure, humidity and temperature.

"I got satisfactory readings," was his laconic report to airmen who grouped about him as he stepped from his plane.

A full report will be issued later by M. I. T.

Prof. Sayre was dressed warmly against the cold of the heights to which he drove his Warner-Cessna ship.

This was the first of daily flights which he will make at 8 a. m., to take these observations in connection with research work at Technology, and in co-operation with the United States weather bureau.

JAPANESE WAR PLANES BOMB CHINESE HEALTH CAMP

TROOPS AT R. R. CENTER UNDER HEAVY FIRE

Many Air Raiders Are Active Over Tsitsihar and Angangki Areas

Peiping, Nov. 17 (INS)—Bombing of the Fularki health resort near Tsitsihar by Japanese airplanes was reported in dispatches received here today.

Twenty bombs also fell in the town of Elimu, in the same area.

A message from Tsitsihar said two Japanese planes dropped 20 bombs on Chinese troops south of the Angangki railroad junction, but did little damage.

The Japanese military authorities at Mukden were believed to be planning a general advance to occupy Angangki and Tsitsihar, but waiting the Nonni River Railroad bridge repairs to be completed so that the northward movement of troops and supplies could be expedited.

Dawes, Briand and Simon Take Up League Problem

By ARNO DOSCH-FLEUROT
International News Correspondent.

Quai D'Orsay, Paris, Nov. 17 (INS)—With the League of Nations Council resuming a secret session, United States Ambassador Charles G. Dawes today plunged into his task of attempting to affect a compromise between Japan and China.

The Council met for 1 hour and 25 minutes and Dawes conferred at length with the Chinese and Japanese delegates, who did not attend the League meeting.

A communique issued after the secret session declared the Council had adjourned "to obtain further information" and would meet secretly again at 11 a. m. tomorrow.

LEFT TO "BIG THREE"

During its session, it was understood, the council decided to leave the negotiations for the present in the hands of the "big three"—Gen. Dawes, Foreign Minister Aristide Briand of France and Sir John Simon, British foreign secretary.

This afternoon and this evening the American, French and British statesmen were to put their heads together, digest the information obtained by Gen. Dawes in his conversations with the Chinese and Japanese delegates, and turn in a report to the council tomorrow morning.

Gen. Mah Holds His Ground; Offers Counter Proposals

Tokio, Nov. 17 (AP)—Gen. Mah Chan-Shan, Chinese commander in Manchuria, has submitted a set of counter proposals to the Japanese general, Shigeru Honjo, dispatches from Mukden said today, but is standing his ground south of Angangki, with no indication that he intends to withdraw.

Dispatches from Harbin earlier in the day indicated Mah had accepted the Japanese demand that he withdraw, but the Mukden report of the counter proposals said he would fall back only if the Japanese evacuate the Nonni River sector and give guarantees that Gen. Chang Hai-Peng shall not be permitted to use the Taonan-Angangki railway.

Meanwhile, it was said military authorities here had decided to ask the cabinet that reinforcements be sent to Manchuria quickly because of the increasingly threatening situation there.

CANADIANS LAUD U. S. SALES TAX DELEGATION

Speakers at Montreal Dinner See Great Benefit in Mission of Hearst Party

Picture on Page 5

By ARTHUR HAMILTEN.

Montreal, Que., Nov. 17 (US)—Continuing its tour of larger cities in Canada to study the sales tax system in operation, the delegation of about 60 Senators and Representatives in the United States Congress today will move to Ottawa.

In Ottawa the visitors will make their most intensive study of the sales tax. Officials in Canada's tax-collecting agency will address them and consult informally with them.

URGES CO-OPERATION

Addressing the delegation at a dinner at the Windsor Hotel in their honor last night, Sir Henry Thornton urged closer co-operation between Canada and the United States. He said that in these harassed times "no two nations are given so noble an opportunity to lead the world to better ways."

William Randolph Hearst is sponsoring the trip of the Solons as an educational mission in view of the likelihood that the question of meeting a deficit in the American treasury will be a dominant one at the forthcoming session of Congress.

HEARST LAUDED

Sir Henry, who is president of the Canadian National Railways, was born in the United States and educated at the University of Pennsylvania, gave the dinner. Mayor Cammillian Houde of Montreal was among those present.

Beside Sir Henry the speakers were Senator William H. King (D) of Utah; Col. J. Hanford MacNider, United States minister to Canada; R. J. Manion, minister of railways and canals; Fred Duranteau, minister of marine and fisheries, and Reps. Royal C. Johnson (R), of South Dakota, and Wilbur M. White (R), Ohio.

Sir Henry said in part:

"On behalf of us who are Canadians, I should like to express our gratitude to that eminent publicist whose name is known wherever the printed word is read—Mr. William Randolph Hearst—for the fruition and public spirit which have permitted your visit to Canada and accorded to us of this dominion the pleasure of exchanging views with you.

LEAD THE WORLD

"I venture the prediction that you will return to your own country with a better, more accurate and more comprehensive appreciation of Canada, and what is likely to be the destiny and achievements of not only your best customer but likewise your most important immediate neighbor.

"In these harassed times, when the magnitude of problems develop with a rapidity which challenges the mind of man in a search for solution, no two nations are given so noble an opportunity to lead the world to better days."

Senator King, responding to Sir Henry's good-will gesture toward the United States, said:

"I need not say what you already know—that the statesmanship certains for this commonwealth a feeling of comradeship; it recognizes that both are standard-bearers of liberty and justice and democratic ideal and that each is destined to play an important part in the promotion of world peace and maintenance of moral principles."

Mr. Hearst was praised by Senator King for giving the senators and representatives this opportunity of coming to Canda. The references to the publisher evoked applause.

DISARMAMENT CHIEF ISSUE, SAYS GRANDI

Hoover Changes Plan So as to Confer Today With the Italian Visitor

Washington, Nov. 17 (AP)—Dino Grandi approached his conference with President Hoover this afternoon with a statement that it was "high time the world sought a practical solution of the disarmament problem.

President Hoover and Grandi arranged plans today so they could begin conferring late this afternoon on how the United States and Italy can help the world situation.

The original plan was for the conference to follow the President's dinner to the Signor and Signora Grandi tomorrow night.

In a conference with newspapermen in Secretary Stimson's office Grandi called disarmament the most important question "existing in the relations between countries."

PACT WITH FRANCE.

Asked about the possibility of a Franco-Italian naval settlement, the minister expressed his "hope" that such an agreement could be reached.

"Italy feels such an agreement would be good and it would be welcomed by everybody in Italy," he said.

He spoke in English, freely and fluently.

Asked if he would discuss with President Hoover Italy's stand for Versailles Treaty revision, he responded smiling:

"Don't put that difficult question to me."

He spoke of America's ready agreement to the one year's armament holiday which he put forward at Geneva as Italy's representative.

"ITALIAN-AMERICAN IDEA."

His reason for proposing the truce, which has become effective through its acceptance by the principal nations, he said, was as a "demonstration of good will.

"The practical result of the truce has been achieved," he added, "through America's ready acceptance the truce can be called an Italian-American idea."

He said the purpose of his visit to President Hoover was to bring peaceful co-operation of all nations and to contribute to their economic recovery.

ROUND OF VISITS

His conference with newspapermen came after a morning that took him to the tomb of the Unknown Soldier, to the office of Chief Justice Hughes and finally to the office of Secretary Stimson.

After luncheon Grandi addressed a group of overseas wirless at the Carlin Hotel. A dinner in honor of the minister and Signora Grandi will be given tonight at the Pan American Union by Secretary and Mrs. Stimson. The Grandis are guests at the Stimson home until tomorrow when they will occupy an apartment at the Mayflower Hotel.

They will leave Washington for New York late tomorrow night following the White House dinner.

DISTRICT ATTORNEY CHAIR IS ASKED FOR SORTINI

Describing how a dying man, "taken for a ride" in a bootleg feud, rose on his hospital bed to accuse Frank Sortini, 36, of Saratoga st., East Boston, as his "murderer and a double-crosser," Dist. Atty. Warren L. Bishop today asked a jury in Middlesex criminal court for a first degree verdict against Sortini.

"This murder not only was premeditated, but it was atrocious and cruel," Bishop declared in his opening address at Sortini's trial for killing Severino Mercurio, alias Sam Russo, 33, of Parkway, Everett, in the woods near Lexington, last September.

"We will show how Sortini and a man we know only as Big Joe enticed Russo to Lexington to get alcohol," said Bishop.

"We will prove that they drove into the woods, got Russo out of his automobile and then hit him on the head with an iron pipe, after which Sortini and Big Joe slashed him many times with knives."

TWO SLAIN IN GANG WAR

New York, Nov. 17—Four assailants invaded a Brooklyn restaurant last night and killed two men. The slayings were a reprisal for a recent gang murder, police say.

Guglielmo Guici, 23, believed by police to have been engaged in the Brooklyn beer racket, and Benedetto Ruggiero, 27, were the victims.

Guici was out on bail on extortion charges and recently was acquitted of murder charges in connection with the slaying of Joseph Marino, alleged bootlegger.

Ruggiero was an innocent victim, detectives believe. They were shot down by four men who drove up to the restaurant in a sedan, raked the place with bullets and fled.

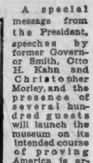
Borglum and Big Buffalo Disagree

Pierre, S. D., Nov. 17 (AP)—Efforts of Gutzon Borglum, sculptor, to provide meat for needy reservation Indians suffered a slight setback because a buffalo marked for that purpose objected to being shot.



Gutzon Borglum

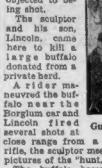
The sculptor and his son, Lincoln, came here to kill a large buffalo donated from a private herd.

A rider maneuvred the buffalo near the Borglum car and Lincoln fired several shots at close range from a high-powered rifle, the sculptor meanwhile taking pictures of the "hunt."

The buffalo became disutrbed and disappeared down a ravine. Motorists, horsemen, pedestrians and even an airplane searched the 30,000-acre ranch, but the intended victim was not seen again.

Prince Johann Rather Be an American Than a Prince

New York, Nov. 17 (AP)—The New York American says that being an American is proving more attractive to Prince Johann of Lichtenstein than being a prince.



Prince Johann

With his American wife, the former Miss Aileen Stanfland of Weatherford, Tex., Prince Johann came to America after their marriage abroad several months ago. The prince, impressed with this country, is considering remaining to enter business.

The name of Prince Johann was mentioned recently in connection with the suicide here of Miss Elizabeth Voick, granddaughter of Mme. Dominick La Gama. Miss Voick was once reported engaged to him.

Lionel Barrymore Soars Among Stars

Hollywood, Cal., Nov. 17 (AP)—Lionel Barrymore is the latest of the stage family to reach the heights. His arrival has come with an almost unexpected suddenness.

Lionel had been known as a motion picture director. Then the Academy of Motion Picture Arts and Sciences announced a award for the best performance by an actor in 1931. It was given to Lionel and in competition with his brother, John Barrymore.

Lionel Barrymore

The situation was reversed in the early years of their climb to fame. Lionel was plodding along in comparative obscurity, and John, as he relates in his autobiography, was trying to borrow money from Ethel.

Lionel was playing minor film parts when John was the idol of the stage.

Fog Balks Return of Lindbergh to Miami

Hicksville, N. Y., Nov. 17 (AP)—For the second successive day fog balked Col. Charles A. Lindbergh today. Yesterday he was ready to fly Foreign Minister Dino Grandi of Italy and party to Washington, but fog prevented.

Today he had planned to return to Miami, Fla., to pilot the 50-passenger American Clipper on its first flight across the Caribbean.

JAILERS MUST PAY CONVICT

New York, Nov. 17 (AP)—Benny Sabbatino, an ex-convict was awarded a $7500 verdict today against two former members of the State Parole Board whom he charged with having kept him in prison three years after a writ for his release had been signed.

While the jury upheld the ex-convict's action against George W. Benham and James L. Long it exonerated a third defendant in the suit—Alexander Konig, also on the parole board when Sabbatino sought release.

Sabbatino was convicted in 1915 and sentenced to 16 years. With time off for good behavior, he was to have completed his term in 1924.

When he was not released at that time, he obtained a writ of habeas corpus. He claimed that, despite the writ, Benham and Long persuaded the warden not to release him.

He testified that he finally secured his freedom in 1925 only to be rearrested and kept in prison until November, 1927, when the Court of Appeals finally upheld the writ.

NEW HAVERHILL THEFT ARREST

Haverhill, Nov. 17—Anthony Bevalaqua of South Groveland, former partner in an insurance agency with Clarence L. Blanchard, was arraigned in district court today, charged with larceny of $2000 from four insurance companies.

He pleaded not guilty and was released in $2500 for hearing on Friday, when similar charges against Blanchard, who was arraigned yesterday, will also be heard. The case involves alleged failure to turn collected premiums over to the complaining companies, Eagle Fire Insurance Co., Home Indemnity Co., Amsterdam Casualty Co. and Lincoln Fire Insurance Co.

R. I. May Lend to Cities, Towns

Providence, Nov. 17 (AP)—Gov. Norman S. Case today issued a call for the Rhode Island Legislature to meeting in extraordinary next Tuesday to consider legislation for the relief of unemployment.

No affort will be made to adopt special tax legislation to raise funds for relief, but authority will be sought in the Legislature to take money now in the general treasury and lend it to towns and cities to provide work for the unemployed on state and municipal projects.

Mrs. Grandi Tells Babies 'Good Night' by Ocean Phone

Washington, Nov. 17 (AP)—Tonight Signora Dino Grandi will concentrate on her part as a statesman's wife, but this morning she thought most of youngsters' voices calling across the Atlantic.

At 12 a. m. (Eastern standard time) she arranged to telephone her son and daughter, Franco, 6, and Simonetta, 4. Because she did not want to wake them with the call for which she was so eager, the signora deferred it on arrival until this morning.

As it is, with time differences considered, the children of Italy's youthful foreign minister were to hear their mother's voice at just about their supper time.

PARKING DRIVE IN CAMBRIDGE

A drive against all-day parkers around Harvard, Central and Kendall sq., the three stations of the Cambridge subway, will open today.

This was determined after a meeting in which representatives of the Cambridge Safety Committee, Board of License Commissioners, Cambridge police department, traffic department, Harvard Square Business Men's Association, the Cambridge Industrial Association and the Boston Elevated Railway held at City Hall.

It was pointed out that much of the traffic congestion in the leading Cambridge centers was caused by out of town motorists who drive in either as far as Harvard, Central or Kendall sqrs. and park their cars there while they went to business or shopping in order to avoid traffic in the streets of Boston.

A plan was presented which is being considered to cut out all loops around the Harvard sq. "pill box," particularly bus loops, and remove the bus terminal and starting points from in front of the congested area to a point further down the square.

Study of the streets in and around Harvard sq. will be made for the purpose of finding out which is the best to make one way.

Mosier R. Goldberg, president of the Cambridge Safety Committee, presided.

Hiram Johnson Boom Is Spiked by Him

San Francisco, Nov. 17 (INS)—"Ridiculous! I know nothing about it."

Senator Hiram Johnson of California so disposed today of reports he might be asked to run for the Republican nomination for President against President Hoover. His brief comment was expressed with Johnsonian emphasis, as he boarded the overland limited en route back to Washington.

SHIP ASHORE ON CAPE; 21 ABOARD

Edgartown, Nov. 17 (INS)—The steamship Nantucket, with one passenger and a crew of twenty aboard, went aground today on Sturgeon Flat, Cape Pogue.

Many passengers at Oak Bluffs, Martha's Vineyard Island, were delayed due to the grounding.

The steamship awaited the arrival of coast guard boats from Wood's Hole before making an effort to clear the flat. The Nantucket was enroute to Oak Bluffs when she grounded. She was captained by Oscar Sandsburg of Nantucket.

Shortly after the Nantucket left this port she ran into a dense fog and, going off her course, ran onto the mud flat. It was almost high tide at the time.

Capt. Sandsburg called for volunteers to go ashore. One member of the crew left in a dory for Chappaquiddick Island and then ferried to Edgartown, where he notified officials of the steamboat company at New Bedford.

Two coast guard boats were sent to the assistance of the grounded vessel.

SIMMONS DIES; FAMED ARTIST

Baltimore, Nov. 17 (AP)—Edward Simmons, 79, one of the better known of American painters, died here today in the home of his son with whom he had been living for four years.

Mr. Simmons was born in Concord, Mass., in 1852. He received his Bachelor of Arts degree from Harvard in 1874, and then studied painting under Lefebvre and Boulanger in Paris.

He was granted the prize of the Municipal Art Society of New York for his mural decorations in the New York criminal court building. He followed with decorations for the Massachusetts, South Dakota and Minnesota State capitol buildings, and those for the Library of Congress in Washington and the appellate court building in New York.

Funeral services will be held here. The remains will be cremated and the ashes interred in the family lot in Cambridge, Mass.

Mr. Simmons is survived by two other sons, William, by his first wife, and Peter, by his second, whom he married in 1903.

Schoolboy Killed by Truck in Maine

Belfast, Me., Nov. 17—Lloyd Smith, Jr., 8, of North Belfast, was killed while returning from school when he was struck by a truck.

Body of Suicide Fished From River

Chicopee, Nov. 17 (AP)—The body of a man, about 40 years old, who leaped from the Connecticut River bridge yesterday and drowned in sight of several motorists, was recovered by police today but efforts to identify him failed.

The victim was not the man arrested yesterday by a railroad police officer for theft of coal, who escaped his captor.

Banker and Cashier Are Wed in Newton

A marriage return filed in Newton today revealed the wedding there last night of David Moseley, 28, a banker of Farmington, Ct., and Miss Mary L. Porter, also 28, employed as a cashier in the same city.

The couple were married by Mrs. Grace L. Bostnick, a justice of the peace, after obtaining a waiver of the five-day law from Judge William F. Bacon.

George, Abdicated King of Greece, to Sue for Divorce

STATE TO SAVE AT EXPENSE OF ITS INSANE

Legislators Fatten Selves to Tune of $400 Each; Turkey Is Denied 25,000 Ill

Having wasted $112,800 in extra pay to the legislators for their recent futile session, the Commonwealth of Massachusetts is about to save $4000 to $6000 at the expense of the insane patients at State institutions.

Turkey was stricken from the menus of all 16 State hospitals today for both Thanksgiving and Christmas.

Not only turkeys, but ducks, geese, chicken and fowl are also barred.

The 25,000 patients will find "less expensive items of meats" substituted for the usual holiday fare, by order of Dr. George M. Kline, State commissioner of mental diseases.

The order also includes the 4919 employes at these institutions, many of whom were reported making vigorous protest today. Part of their pay is in meals.

What the patients think about it will probably remain a mystery.

The saving is estimated as $4000 to $6000 by Warren A. Merrill, business agent of the State department.

To those legislators who were so reticent about what they were going to do with the $400 each one collected for doing nothing about automobile insurance, it was suggested by a State official that a donation of $15 each would give the usual Thanksgiving and Christmas fare to these unfortunates.

The letter to the heads of state hospitals, embodying the order banning the Turkey from the holiday dinner tables, referred to Gov. Ely's desire to curtail expenses, but comment at the State House showed that many believed the Governor intended no such economy measure as this.

The letter, signed by Merrill but sent by order of Dr. Kline, is as follows:

"I am writing to all institutions under this department that in view of the condition brought about by the financial depression, and the wish of His Excellency the Governor, to curtail as far as possible in expense, that for this year the question of purchasing turkeys, ducks and geese for Thanksgiving and Christmas, for both patients and employes, be forever done and the expensive items of meats be substituted.

(Signed)

"WARREN A. MERRILL,

"Business Agent of the Departments."

"P. S.—This also includes chicken and fowl—unless home-produced."

ROYAL LOVE VANISHES

FORMER PRINCESS ELIZABETH

EX-KING GEORGE

Former Princess Elizabeth, sister of King Carol of Rumania, who, it is reported from Vienna, is to be sued by ex-King George V of Greece for divorce. He is known as the "royal tripper" because he's always traveling. She is in Bucharest with her mother, the Dowager Queen Marie. (I. N. R. photos.)

INDIAN HEIRESS 'MARRIED FOR HER MONEY'

Now She Seeks to Divorce Her Former Chauffeur in Two Suits

Los Angeles, Nov. 17 (AP)—Two suits filed here revealed the termination of the romance of Elizabeth M Chalette, Osage Indian heiress, after a brief marriage to her former chauffeur, Charles Chalette.

One suit seeks a divorce and says that before their separation Nov. 3 58 days after their wedding in Reno she learned that he married her only for money.

The other suit presents claims against Chalette and several banks in an effort to recover $200,000 of her fortune she asserts he took from her.

Her income from Oklahoma oil lands was reputed to be $240,000 a year.

Chalette was a taxicab driver and not long after their marriage he drank to excess and grew angry with her when she refused to drink with him, she charged.

She purchased a $92,000 home in Beverly Hills, the complaint continues and he made her a virtual prisoner in it, allowing her no telephone calls, mail or newspapers.

CAROL'S SISTER UNLUCKY AS HE IN HER LOVE

Another Hohenzollern Family Link to Snap in the Newest European Marital Crash

Copyright, 1931, by International News Service.

Vienna, Nov. 17 (INS)—Former King George of Greece is planning to obtain a divorce from the former Princess Elizabeth of Rumania, sister of King Carol II., it was reported here today.

Information in Rumanian court circles hint the ex-king already has taken the first legal steps toward a divorce, his decision coming as a result of strife that has split the Hohenzollern family.

Reliable reports declared Princess Helen, divorced wife of King Carol, was largely instrumental in bringing George V to his decision.

ILEANA PEACE MAKER

She is reported openly antagonistic toward the Hohenzollerns as a result of ceaseless attacks upon her by members of the family because of her refusal to consent to a reconciliation with Carol.

The family split widened when former Princess Ileana left Bucharest to take up residence in Munich with her husband, the Archduke Anton of Hapsburg. For many years Ileana has been the "peacemaker" in the royal Rumanian household, smoothing over the periodic dispute between King Carol and Helen, the King's mother, the Dowager Queen Marie.

An "S.O.S." was reported to have been sent to Ilena in Munich shortly after Prince Nicholas eloped with Mme. Jana Lucia Deletj, divorcee, thus incurring the displeasure of King Carol, his brother.

Queen Marie, according to reports, sent an urgent message to Princess Ileana, asking her to return to Bucharest to forestall an open breach between the brothers there.

HE'S "TRAMPING KING"

Ex-King George, according to information here, is in London. Princess Elizabeth and Princess Helen are in Bucharest.

The Grecian monarch was married to King Carol's sister at Bucharest on February 27, 1921. A revolution took place the following year, and George abdicated on September 28, 1922.

Since that time he has divided his days between London and the Riviera, never stopping for more than a few weeks in one place and thus earning himself the sobriquet of Europe's "Royal Tripper."

BANKERS FACE TAX FRAUDS

Washington, Nov. 17 (INS)—Charges of income tax frauds by prominent New York financiers and corporations amounting to hundreds of millions of dollars are being investigated yb the Bureau of Internal Revenue, it was learned today.

The investigation is being made on the basis of information given the bureau by a former employe of one of the most important accounting firms in New York, which has made income tax returns for many of Uncle Sam's heaviest taxpayers.

Rep. Pat Boland (D.) of Texas disclosed the employe, having severed himself from the firm, came here to turn the information over to the government. He was sent to the Internal Revenue Bureau, but the officials there declined to comment on the report.

The alleged evasion, it is declared, was carried on chiefly through the creation of dummy corporations.

DYNAMITE IN SUBWAY; 5 HELD

New York, Nov. 17 (AP)—Enough dynamite "to blow up half the town"—dynamite cached for a time in a coin-in-the-slot locker of a busy downtown subway station—has been found by police in time to thwart what they charge was a plot to blow up barges on the Manhattan waterfront.

Five men are under arrest today. Police said the dynamite had been stolen, carted through the busy city streets and cached against the hour when it was to have been used to destroy barges in a warfare between rival factions among harbor workers.

The five under arrest are William O'Hoyle, 31; Jack Soderberg, 25; Thomas Bunker, 39; James O'Reilly, 33, and William Trajer, 20. All are members of the Independent Tidewater Boatmen's Union, which harbor police said is a Communist organization.

2400 OUT AS MILLS CLOSE

Lawrence, Nov. 17—Hope for immediate re-employment of the last of the textile strikers was dimmed today with word that the Pacific Mills, normal employers of 5400 persons, are to remain closed indefinitely.

The news followed a meeting of the Civic League last night, at which a committee of 18 Lawrence business men, who had waited on Alfred E. Colby, treasurer of the Pacific Mills, with a plea for their early reopening, reported they had received "no assurance" that operations would be resumed.

About 15,000 ex-strikers now are back at work in other mills and only approximately the number ordinarily employed in the three Pacific plants remain to be placed.

8 SAVED AFTER 2 DAYS ADRIFT

Cape May, N. J., Nov. 17 (INS)—Three teachers and five boy pupils lost since Sunday in a small motorboat, were found by a coast guard boat, 14 miles offshore, today in Delaware bay.

Lieut. Comdr. G. W. McLane received a radio report from the C. G. 107, reporting that the party had been found.

The missing group, teachers and pupils of the Millville, N. J., High School, were on a pleasure trip when fog caught them Sunday afternoon.

The rescued were Isabella McCaughey of Philadelphia, Alma Meyer of Kaubmont, Pa., and Hannah Ewan of Bridgeton, N. J., all teachers, and Harper Chance, Irwin Ewan and Marshall, Kearth and Harwood Rue, brothers.

Mary, Nellie and the Judge in Tragedy of Real Life

New York, Nov. 17 (AP)—They made a deal, these three.

Said Mary Bracken, 65 years old, homeless and friendless:

"Judge, I am old. I have nothing. Please send me to jail. There at least I will be sure of food and shelter—and it will be warm there."

Said Nellie Kennedy, 50 years old, in court for the 63d time on a charge of intoxication:

"Judge, I know you're going to send me to jail. While I'm away, let this poor old lady stay in my home."

Said Magistrate Sabbatino:

"Mary Bracken, take charge of Nellie Kennedy's home. And take care, too, of Nellie Kennedy."

The two women, flung together in a magistrate's courtroom.—one poor, one weak,—walked out side by side, headed home.

Rep. Bigelow Sends Back His $400 "Pay"

The Legislature's special session salary grab was reduced by $400 today when State Treasurer Hurley received by return mail the check he had mailed to Rep. Albert P. Bigelow of Brookline, chairman of the House ways and means committee.

Rep. Bigelow had notified the treasurer he did not want the money but the check had been mailed. It is the only one that has been returned. It goes back into the general fund from which was drawn the $112,000 to pay the Legislators.

'TORTURERS' IN COURT FRIDAY

Washington, Nov. 17 (INS)—Justice has bared its sword on behalf of a little child.

Harry N. and Mrs. Elsie Riley, father and stepmother of little Edith Riley, 12 victim of cruelty, are to be arraigned before the District of Columbia Supreme Court Friday charged with "feloniously torturing, cruelly beating, abusing and otherwise wilfully maltreating" the "cupboard child," so named because of her solitary confinement in a closet.

Date of the trial will be fixed after the arraignment on indictments.

Meanwhile, solemn-faced little Edith, whose case has stirred the nation, is slowly recovering strength and mentality under the devoted care of nurses at Gallinger Hospital.

She still wears the sober mask which hospital attendants believe was molded on her pitiful countenance through months in the dungeon-like closet. She still suffers periods of abstraction, when she seems completely unaware of those around her and stares vacantly into space.

STOLE TO GET 10-YEAR TERM

New York, Nov. 17 (AP)—Arrested in a department store accused of stealing a handbag containing $118.50, police said today, Mrs. Lillian Roberts, 35 years old, of New Haven, told detectives she hoped she would be sent to prison for ten years.

Her parents and husband died recently, she said, and she was so dejected she decided to come to New York, get arrested and go to prison for a long time.

Headquarters detectives said the woman was fined $20 for larceny after making restitution in Springfield, Mass., in 1930 and was sentenced to 30 days and put on three years probation in Philadelphia earlier this year for shoplifting.

TORNADO, FLOOD IN OKLAHOMA

Oklahoma City, Nov. 17 (AP)—Winds reaching tornado proportions struck in eastern Oklahoma early today as an accompaniment of a drouth-breaking deluge over the state.

At Okemah several residences and other buildings were partly unroofed. Trees and telephone lines fell throughout Okfuskee County but no one was reported injured.

At Lake McAlester small buildings were razed and trees uprooted in a path a mile long and 500 yards wide.

At Oklahoma City the rainfall totaled approximately four inches.

GOLD IS COMING BACK TO U. S.

Washington, Nov. 17—The heavy withdrawals of gold from America in October were described today as the Commerce Department as having virtually ceased and again imports of the metal are tending to exceed imports.

The sudden shift that took $300,604,000 from this country in October was explained by a department official, who said:

"Panic seized Europe's financial centers due to a misconception concerning operation of the proposed National Credit Corp.

"As soon as it became evident that Federal Reserve Banks were readily meeting all needs without any diminution in the amount of 'free gold' held, earmarking of gold for foreign account virtually ceased."

31 GET WATER AS BILL IS PAID

After nearly 24 hours of drouths, 31 persons, including 18 small children and three infants, welcomed flowing water again today as their landlord's payment of his water tax bill permitted resumption of water service in their homes at 41 Intervale st., Roxbury.

The water was shut off yesterday afternoon, according to department officials, after failure of Maurice B. Lynch of 73 Tremont st., owner of the 3-story, double brick building, occupied by five families, to pay his bill.

A night and a day of hardship for tenants followed, leaving them this noon with the hot-water heat shut off, all faucets dry, unwashed dishes piled high in every sink, babies crying for baths and, clean clothes and the generosity of neighbors in the matter of water about exhausted.

About noon the water department reported Lynch had paid the bill, after his tenants had appealed to the health department for relief, and inspectors were despatched to the house to turn the water on again.

BEERY 36 HRS. STORMBOUND

San Francisco, Nov. 17 (AP)—A storm which trapped dozens of persons in the snow covered mountains of California, among them Noah Beery, screen actor, held much of the American Northwest and the Pacific slops in its grip today.

Mountain roads leading over the Sierra Nevada were closed by heavy snowfall. Dozens of motorists were rescued after having been forced to abandon their automobiles.

With but six exceptions, all those marooned were reported safe, including Beery and two companions, who struck out Sunday morning into the San Gabriel mountains near Palmdale, Cal., to search for Robert Elliott of Llano, Cal.

Elliott was found by an Indian, but Beery, O. G. Norris, his ranch foreman, and A. L. Hendricks, a real estate man, were caught in a terrific windstorm which followed a heavy snowfall. They braved the elements for 36 hours.

They found shelter in a deserted cabin Sunday night and early yesterday started the trek back. They returned to Hollywood near exhaustion late last night.

BREWERY WINS BACK PROPERTY

New York, Nov. 17 (AP)—Federal Judge Frank J. Coleman today granted a motion of Harry Ryan, owner of an unlicensed brewery in Yonkers for the return of all property including seven vats and machinery, as well as 55,000 gallons of beer, which was seized Oct. 13, in a raid by prohibition agents.

The motion was presented by Samuel H. Cohen, former assistant U. S. attorney, who said that the agents had acted without evidence of a crime and without a search warrant.

Judge Coleman agreed with him as to lack of sufficient evidence, expressing disbelief of allegations that the agents had peeked through a crevice in the brewery wall and observed the vats and beer containers.

In order to reach the brewery the agents climbed over a board fence 10 feet high and smashed in a door.

A slight improvement in the condition of Thomas J. Hurley, Boston street commissioner, was announced early today at Winthrop Community Hospital.

'POOR RICH GIRL'S' DREAM COMES TRUE

Mrs. Harry Payne Whitney Opens Her Long-Cherished Museum in N. Y.

New York, Nov. 17 (AP)—A quarter-century-old dream of a poor little rich girl becomes true today as the madcever doors at 10 Eighth st., Greenwich Village, swing open on the Whitney Museum of American Art.

There, in three ancient buildings done over outside and inside in the modern manner, will repose more than 600 native works, with not so much as a flicker of European influence.

FAMOUS WORKS SHOWN

In the background, as several thousand invited guests view the contemporary state of American art and inaugural speakers tell a nation-wide radio audience how the museum will encourage native talent, will be Mrs. Harry Payne Whitney, the founder.

She dreamed her dreams when she was yet Gertrude Vanderbilt, and though she was born in the top ranks of society, she chose a career of hard labor in clay. She is herself an artist of considerable reputation and her studio is in Mrs. Dougal's alley, not far from the new museum.

MRS. HARRY PAYNE WHITNEY

"AL" SMITH SPEAKS.

The works on exhibition have been collected by her during the past 25 years—always with her now-realized museum in mind. Four of her own statues, including 'Chinoise," which is noted, are in the permanent collection.

A message from President Hoover, to be read by Congressman Robert Low Bacon, and speeches by former Governor Alfred E. Smith, Otto H. Kahn and Christopher Morley headed the list of features.

The painting collection numbers 331 and is representative of the work of American artists during the last 30 years,

$40,000 WAGE PACT CITED

Providence, Nov. 17—Asserting that she agreed to work for John Carter Brown Woods, aged millionaire, for the remainder of his life on the agreement that he would make a bequest of $40,000 to her in his will, Mrs. Lillian L. Conn Glenn, former stenographer, testified in a suit brought against the Woods estate that she used to be called to take dictation at midnight, and read into the records a purported love letter.

When she was married, in 1928, Mrs. Glenn told Judge A. A. Capotosto and a jury in Superior Court, she received a letter from Woods, in which he stated that she was "the thing nearest his heart," and that he was going to look after her.

Man Arrested After Raid on Drugstore

Federal agents arrested Samuel A. Epstein, said to be the proprietor of the drug store in Beacon st., Brookline, following a raid at his store yesterday.

The agents claim that many complaints have been received that liquor was being sold there, and that their visit resulted in securing between 18 and 20 bottles of assorted liquor.

Students to Stage Lincoln-Douglas Tilt

The famous Lincoln-Douglass debate at Ottawa, Illinois, in 1858, will be re-enacted by members of the Marquette Debating Society of Boston College at an assembly of the sophomore class in the Library auditorium.

Rev. Henry E. Bean, S. J., intends to give the students a practical display of politics 75 years ago.

THREE GUILTY IN DRACUT ROW

Lowell, Nov. 17—Three local youths were fined $25 each when arraigned in district court on charges of disturbing the peace in Dracut. The complaint was made by Chief John T. Carville of the Dracut police, who received a discolored eye and a split chin while arresting one youth on a drunkenness charge.

The three are Leo E. Morse, Harold Heafey and Joseph Pendergast. All appealed and were ordered held in bail of $200 each for the superior court.

The fracas occurred early Sunday when Chief Carville was summoned to Upton st on a complaint that windows were being broken. He placed one man under arrest and as he attempted to place him in his machine, about 20 youths milled about him and several swung at him, some of the blows connecting.

If Driver Is Right in Tilt With Police He'll Be in Wrong

If Walter J. Burke of Boyd st., Watertown, proves to be right, he will be in wrong.

Burke was arrested after he admitted to Sergt. Thomas Devaney that his auto license had expired and he had failed to renew it.

However, inquiry by the police at the Registry of Motor Vehicles brought the information that Burke's license is still in effect.

In the Waltham court yesterday, Judge Connolly continued the case until Nov. 19 to give the police an opportunity to find out whether Burke or the registry is right.

MISSING HEIRESS FOUND

Continued From First Page

mediately over the road to bring the heiress back to Wellesley.

IN PROFESSOR'S CHARGE

To Capt. McCarthy of the police, Prof. Macdougall said that he had received today a cablegram from Pamela's father, placing the girl under the professor's charge when she should be found.

The telegram was sent, and in it Pamela said she was sorry for the trouble she had caused and asked Prof. Macdougall if he would go to Springfield and bring her back to his home.

HOMESICK FOR ENGLAND

To the policewomen, Pamela confided that she was homesick for England and that she had intended finding work somewhere, to earn money sufficient for her steamship passage back to London, where her father, Herbert Gilding, is a bank official.

At Springfield police headquarters the heiress was immediately into the office of Capt. King, who questioned her for his official report and then she was turned over again to the policewomen, who made her comfortable until the arrival of Prof. Macdougall.

Earner in the day, Prof. Macdougall had asked the Boston Evening American to publish a message to the girl, stating that:

"Your Wellesley home is anxious to welcome you."

WAITRESS GIVES CLUE

The first hint that Pamela probably had not left Springfield when she took a taxicab to the railroad station yesterday, was gleaned by the Evening American through Miss Ruth Higney, a waitress in the Hotel Clinton dining room.

Sunday noon in the dining room, the heiress asked Miss Higney directions to Connecticut ave., on the outskirts of Springfield, near the Chicopee line.

HIT THE RIGHT IDEA

Knowing there was small likelihood of Pamela's knowing anyone in Springfield except a chance acquaintance, the Evening American investigator hit upon the idea that she might have intended looking for work in the city and had found a likely-appearing job.

In the columns of a Springfield Sunday newspaper, the reporter found an advertisement for a maid at a Connecticut ave. home. Then he was certain that she did not intend to leave Springfield.

A check of the homes in that section, and home that had other advertisements, was started, and the reporter eventually came upon other clues.

TELLS HER STORY

Miss Gilding, in an exclusive interview with a Boston Evening American reporter, said:

"Five minutes before I left Prof. Macdougall's home I decided to go away to earn enough money to get my passage back home.

"I took a train to Springfield and took a taxicab to the Hotel Clifton, where I registered. I got a room for $1.50. When I left I had between $10 and $15.

"I knew that I could not live very long in a room which cost me $1.50 a night, so I checked out of the hotel yesterday and went to the Union Station in a taxicab. There I checked my suitcase.

"Then I walked around the city looking for a lodging house to fit my pocketbook. I went to the rooming house at 38½ Harrison ave., where I paid for a week in advance.

"That was $3. Since bought some newspapers and searched through the want adds column.

LOOKED FOR A JOB

"This morning I went to the State free employment office, where I applied for a position as a stenographer, typist or bookkeeper.

"When I returned shortly after noon to my room I found two policewomen waiting for me.

"I was homesick and longed to be back with my parents in London. The Macdougalls are very lovely people."

Asked why she did not cable home for money, she started to weep. Hesitatingly, she replied:

"My family haven't as much money as people think and I didn't want to embarrass them."

She said one of the ads she found in the paper called for a housemaid at 50 Connecticut ave. It was in asking directions to that address that she was recognized.

Pearl Grows in Woman's Mouth

Miami, Fla., Nov. 17 (US)—Dr. Carleton Deederer, former surgeon at the Mayo clinic, today revealed he had discovered a pearl growing at the root of a woman patient's tooth. The pearl was about the size of two pin heads.

Dr. Deederer said:

"Humans, it appears, are starting to compete with oysters in developing substances creating pearls."

Sell-Out Houses for 66 Benefit Shows

Present indications are that the drive of the National Motion Picture Industries for funds for the unemployed will go over the top with unprecedented success. Sell-out houses are expected at all 66 Boston theaters and at neighborhood theaters on Friday at midnight, when the entire proceeds of the benefit performances are to be turned over to local unemployment relief funds.

EASIEST WAY TO BREAK UP A COLD

Millions Say of This Proved Way

Works Fast—Makes You Feel Like a New Person Before You Know It

If you want quick relief from a cold, go back to first principles and use something you *know* does the business—don't start "trying" a lot of fancy ideas or remedies. Even a "little" cold is too dangerous to take chances on.

Get Hill's Cascara Quinine. A scientific formula made to do ONE THING WELL: *to knock a cold in a jiffy*, not to cure a hundred different things.

Take two tablets every three hours. Drink lots of water between times—that's all. Soon those mean, aching pains in head and body begin to go; the cold breaks up; poisons leave your system. Almost before you know it, you feel like a new person.

If it doesn't do that, your money back. Get a box now. You'll be surprised at the speed with which it works. Costs only a few cents.

GAS PRICE WAR AT LOWELL

Lowell, Nov. 17—Another gasoline war has broken out in this city with the advent of what is known to the trade as "third-rate" gasoline.

Regular gas now is selling at 14.5 instead of 15.3 cents a gallon, with practically all of the companies lining up at this price.

However, the stations carrying third-grade gasoline have posted a price of 12.5 cents and there is a possibility that the prices may be reduced again, although officials of the companies are extremely reticent.

VOLUNTEERS TO GIVE BASKETS

The distribution of between 1000 and 1200 Thanksgiving baskets in Greater Boston is being planned by the Volunteers of America, Col. Walter Duncan announced. The 1000 baskets will contain approximately 6000 meals.

The distributing center this year will be what was Marston's Restaurant in Hanover st. It has been loaned to the Volunteers without charge by Max Shoolman. Distribution will be made the day before Thanksgiving.

Appeals for baskets made at headquarters average more than 50 daily. Unemployment is driving many to apply this year who have never been helped before. Families are registering to make sure they are not overlooked.

Col. Nellie M. Duncan, in charge of the women's committee, will have 25 assistants to help pack the baskets.

Gov. Joseph B. Ely, Mayor James M. Curley, Miss Mary Curley, Judge Emma Fall Schofield, Ex-Gov. Alvan T. Fuller, Ex-Gov. Frank G. Allen, Ex-Mayor Andrew J. Peters, Asst. Atty.-Gen. Louis H. Sawyer, members of the city council and others have been invited to take part in the distribution.

Mothers... Watch Children's COLDS

COMMON head colds often "settle" in throat and chest where they may become dangerous. *Don't take a chance*—at the first sniffle rub on Children's Musterole *once every hour for five hours.*

Children's Musterole is just good old Musterole, you have known so long, in milder form.

This famous blend of oil of mustard, camphor, menthol and other ingredients brings relief naturally. Musterole gets action because it is a scientific "*counter-irritant*"—not just a salve—it penetrates and stimulates blood circulation, helps to draw out infection and pain.

Keep full strength Musterole on hand, for adults and the milder—Children's Musterole for little tots. All druggists.

Socony De-waxed Motor Oil is "Winter-Proof"

It Flows Freely in freezing weather because it is DE-WAXED

ON these brisk mornings when most engines balk a little—remember this:

It's important to have a motor oil that flows freely at low temperatures and gives instant lubrication. Otherwise you'll not only put a heavy drain on your battery, but you may damage your engine with slow-starting lubricant. The New Socony Motor Oil is WINTER-PROOF. It is completely de-waxed. It flows more freely at sub-zero temperatures than any other oil. Made from a selected Paraffin Base crude, it gives *instant lubrication*—saves your engine and your battery.

An oil can be merely thin enough to assure quick starting, without having body enough for safe lubrication when the engine's well warmed up. Socony De-waxed Motor Oil is heat-proof. *No* engine heat or pressure can break it down or destroy its lubricating value. As a result, you get perfect piston seal, maximum power and minimum fuel consumption.

All harmful elements which cause carbon, gum and sludge have been removed. This extraordinary de-waxed oil *insures* a clean motor *always*.

For winter-proof engine performance, drain and flush your crankcase TODAY. Refill with Socony De-waxed Motor Oil. It is even BETTER for your car than Socony "Aircraft"—good as that was!

What the NEW Socony 7-Point Service is and how it winter-proofs your car

1. Socony Auto Radiator Cleaner—To get full protection from anti-freeze, first you need a proved radiator cleaner; such as Socony, to remove rust and scale from the cooling system. It's WINTER-PROOF.

2. Socony Upperlub Oil—Four ounces of prevention against WEAR — NOISE — CARBON and STICKY VALVES. Added to gasoline, it aids quick starting—lubricates parts difficult to reach by motor oil. It's WINTER-PROOF.

3. Socony Winter Gear Lubricants—For easy gear shifting in cold weather you *must* have a lighter-grade gear lubricant. Socony has a complete new line of lubricants for winter use. They're WINTER-PROOF.]

4. Socony Quick-starting Gasolines—For quickest starting, choose either of Socony's two great gasolines: Special plus Ethyl, best premium gasoline; or Banner, best popular-priced gasoline. Both are WINTER-PROOF.

5. Socony De-waxed Motor Oil—A completely de-waxed motor oil! Lubricates instantly—in sub-zero weather! It's WINTER-PROOF.

6. Socony Lubrication—To withstand the brunt of winter, your car must be lubricated *correctly* at every point. The Socony man doesn't miss—doesn't guess! He covers every point with the right lubricant!

7. Anti-Freeze Protection—And don't forget, the winter preparation of your car is not complete without anti-freeze. Your Socony man supplies this "winter-proof" protection.

CARON TO SEEK A VARIETY OF INDUSTRIES

By JOHN T. LAMBERT

Manchester, N. H., Nov. 17—Dr. Damase Caron, elected mayor of this Queen City by the most overwhelming revolt since the progressive domestic policies of Woodrow Wilson captured the entire State in 1916, today unfolded plans to revive the city industrially and to relieve unemployment.

His plan was stated, with an accompanying IP in capital letters, in the first comprehensive Interview authorized by him since his election surpised the Granite State.

It is this, as said by him to me:

1—I will favor the exemption from taxation for two years of any industrial plant that will establish itself in Manchester.

2—I will favor exemption from taxation of any new building erected in this city in the next two years.

3—I will favor exemption from taxation of ANY ALTERATIONS OR REPAIRS THAT MAY BE MADE TO PROPERTY, INCLUDING HOMES AND DWELLINGS AS WELL AS FACTORIES, in that period.

4—I will propose a complete overhauling and a complete revaluation of our taxable property in order that justice shall supplant favoritism and in order that the humblest citizen as well as the most powerful corporation shall obtain equity.

The city's taxable property is valuated at about $100,000,000. Its taxable income for current expenses is about $3,000,000. Which indicates the vast and widespread effect of Dr. Caron's plan, involving the annual tax bill of every taxable resident.

NEW BLOOD IS BENEFIT

Manchester, northern metropolis, with a population of 75,000, has gone good and not so good, as the mayor-elect views it.

The Amoskeag, one of the great cotton mills of the world, has employed, at times, some 20,000. As textiles go, the country over, its business is fair. There is even some night work in progress. But the 20,000 permanent employes has dwindled through the years to half that number and some sections of the plant have been leased to new, independent industries.

"A good thing," says Dr. Caron, "because we have found we can't rely entirely on textiles. New blood and diverse products are good for us."

Also, the shoe industry has seen a westward march.

RATES ARE HIGH

"Rates are extraordinarily high," says Dr. Caron as he visualizes the problems he soon will take on as mayor. "High taxes, when you can't afford to pay them, contributes to stagnant business.

"But unemployment is high, also. The first duty of a city is to the comfort and happiness of its citizens. They want work, not a dole.

"And they will have it, so far as it lies in the power of myself and the new Democratic city government.

JURY HEARS COBB CASE

Continued From First Page

Cobb household by Mrs. Cobb less than two hours before the shooting.

The other was Miss Susan Greenstein, middle-aged Mansfield school teacher and occupant of the apartment above the Cobbs, who heard the roar of a shotgun in the Cobb cellar, and, investigating, happened upon the tragedy.

Other witnesses included Dr. Frederick W. Griffin, who sent the fatally wounded man to the hospital; Dr. William D. Ducey, who conducts the Brockton hospital where Mrs. Cobb is convalescing, under police guard, from shock and the effects of a beating allegedly administered by her husband; Dr. George B. Magrath of Boston, who performed the autopsy; Justin L. Cobb, father of the victim; Capt. Charles A. Van Amburgh, firearms expert, and a fingerprint expert, both of the state police; State Detective Francis W. Clemmey and Police Chief Newell Vickery of Mansfield.

NOTE AS EVIDENCE.

These told their stories to the jury.

Mute witness in support of the State's claim was the blood-stained note, "Emily shot me with the shotgun," scrawled by Cobb before he died.

It was mute, even as Cobb, with his jaw shot away, was unable to speak; yet upon it rested the State's principal hope of confuting Mrs. Cobb's claim that her husband shot himself.

Unusual features of the case presaged a lengthy consideration of the evidence by the jurors.

Just before he entered the grand jury room at the Bristol County courthouse, Dist. Atty. Crossley announced his intention of presenting "every shred of evidence."

"I will give the jury the picture we have of the killing," he said. "The jury will take as long as it desires to consider every angle—whether a day or a week—before reaching its decision."

SYMPATHY FOR WIDOW

Evidence in two other cases was placed before the jury which originally numbered 23 men but which has been reduced by one death and two sanctioned withdrawals.

Even as the Cobb case went before the jurors, Atty. John B. Mahar, retained as Mrs. Cobb's counsel by persons whose names he declined to reveal, said he had received many offers of testimony in behalf of the widow. Considerable public sympathy for the accused young woman is evident in Mansfield where details of her home life were known.

Mrs. Cobb's defense will include assertions that the injuries are a living example of the abuse and beatings that she has suffered at the hands of her husband while both were under the maddening influence of prohibition gin.

SOBS HER DENIAL

Again an anguis she has denied that she fired the shot that blasted the Mansfield banker's son into eternity. Repeatedly she has sobbed that he himself turned the weapon to his face and pulled the trigger as he stood in the cellar of his home.

The once happy couple, sought after by prominent members of the young set in this town in the early days of their union, were shunned by most of the so-called elite in the last few months.

Bickerings that began with the first few drinks at "parties" in the Cobb home and in roadhouses grew more violent with each nightfall and ended inevitably in Cobb striking his wife, the police have learned.

Their party friends — and there were many until six months ago—began to avoid the Cobbs, for their sensed, deadened though they were by gin that Cobb always supplied, could not withstand the bitter battles between the couple.

Cobb's aged father—he is over 70—among the witnesses at today's session of the grand jury, was a devoted father, cherishing plans for his only son to succeed him in a prospering jewelry business which the Cobb's have conducted here for many years.

For months he had been aware of the unhappiness in his son's home. Often he had pleaded with the boy to give up drinking and devote more time to business, but his pleadings fell on deaf ears.

SCHOOL FREE LIST IS GONE

The free list for the Boston schoolboy football games on Thanksgiving has been definitely suspended.

If Governor Ely, Mayor Curley, members of the city government, or even members of the Boston school committee wish to see the games they will have to pay $1 per ticket, just like the ordinary fan. This was decided by the school committee last night.

Barred from purchasing athletic equipment for student athletes by a ruling of the Massachusetts Supreme Court, the school committee hopes to realize about $7000 from the annual games with which to pay off officials who have worked in games this season, and also to buy needed athletic equipment.

Richard J. Lane was reappointed commissioner of school buildings by unanimous vote of the committee last night. Lane was elected to the office Nov. 21, 1928, to serve until Dec. 1, 1931.

Mrs. Elizabeth W. Pigeon scored a victory when $172,000 was appropriated for a school in the Emerson district, East Boston. The department of school buildings approved use of the money for the school.

Fog Holds Up Ships in New York Harbor

New York, Nov. 17 (AP)—The New York harbor was today again blanketed by a fog so dense that three liners halted for better visibility before attempting to enter.

Similar fog impeded Maritime traffic yesterday.

Cold facts on a key principle

"High quality in a restaurant's food is one thing—*sustained* high quality is what really does it," Frank H. White, of New York's celebrated Whyte's Restaurants, told us, explaining how Whyte's holds a special clientele of important business men from all the big cities of the East. And since Whyte's has long been customers of ours, he added, "insistence on purity—purity in everything that goes onto the table—is one of the key principles of a policy of *sustained* high quality. The four-times filtered ice you make is right in line with that principle."

GANDHI IN FIGHT TO 'ETERNITY' FOR CONTROL

London, Nov. 17 (AP)—Mahatma Gandhi's Indian Nationalists will fight "until eternity" for full control of the army in India, he told the Federal Structures Committee of the round table conference today.

"We will go through fire and storm and distress," he said, "and if it be God's will, through a shower of bullets to obtain our independence.

"The nation which has no control over its defense forces is not a responsible nation, and if the British people think it will be a century before we can be trusted with control of the army, then for that century the Nationalist Congress will wander in the wilderness.

"If India cannot have complete control over the army then the army should be disbanded. I will wait until eternity if I cannot get control over the national defenses."

Fletcher Quits U. S. Tariff Commission

2 HURT IN RUSH OF JOBLESS

Springfield, Nov. 17 (AP)—Disorder that developed when about 200 work-seekers rushed the entrance of the city welfare department office today resulted in injury to a woman and to one of the jobless.

Police scattered the crowd.

Men have been in the habit of gathering as early as 3 or 4 o'clock near the welfare office to obtain work tickets. In order to prevent congestion of the area around the office police have ordered the waiters to stand across the street. Today some incident gave the impression that the office was about to open and there was a rush across the street. A woman passing by was knocked down and trampled.

One of the work-seekers was pushed against the corner of the building and suffered a severe face injury.

Blazing Meteor Is Seen Over Richmond

Richmond, Va., Nov. 17 (AP)—A flash of light in the sky, believed to have been caused by a large meteor, was reported seen here early today.

Observers said they saw a gigantic trail of light, extending from the East around in a sharp angle to the north. This light was said to have appeared brighter than Halley's comet.

Chicago Nun May Be Made a Saint

Vatican City, Nov. 17 (AP)—The congregation of rites today began an examination of cause for the beatification of Sister Francesco Saverio Cabrini, founder of the Missionary Sisters of the Sacred Heart, who died in Chicago in 1917.

Cardinal Mundelin of Chicago recently brought proof of the nun's holiness to Rome. Cardinal Verde recommended her beatification.

Snowden, Boosted to Peerage, Must Take a Cut in Pay

London, Nov. 17 (AP)—Philip Snowden, former chancellor of the exchequer, whose elevation to the peerage was announced yesterday, will take a cut in pay as Lord Privy Seal, Prime Minister MacDonald told the House of Commons today.

The reduction is in line with the general economy program, he said, and although the office which normally pays $10,000 is usually a sinecure, Mr. Snowden will have plenty of work of a special character.

Mrs. Snowden has been able to pad out the family income by $2500 a year as a member of the British Broadcasting Corporation.

PARIS, BERLIN IN DEBT PACT

Paris, Nov. 17 (AP)—The French and German governments have reached a virtual agreement on the text of a letter the German government will send to the World Bank for International Settlements at Basel asking the convocation of a Young plan advisory committee, it was learned on good authority today.

The French position was understood to be that the unconditional reparations payments must be maintained, but that France would consent to a second committee to consider questions which the Young plan committee would not be permitted to touch.

It is expected the Young plan committee will not be called until after Premier Laval has received the approval of parliament toward the end of the week.

Difficult Coughs and Colds Need These Seven Helps

Creomulsion is a better help than some coughs need. It combines seven major helps in one, to do the best that men know for any cough or cold.

There is creosote—the world's supreme help—blended, emulsified and palatable. There are white pine tar, wild cherry bark, menthol, ipecac, etc. Each is best for a certain type of cough. But even doctors might disagree on what is best for yours.

So experts have combined in Creomulsion all major helps in one. This to deal with all conditions in a most effective way. No narcotic in it.

Creomulsion is for people who wish to do the utmost. In coughs and colds that hang on it is essential. One dare not trust such coughs to any lesser help. But don't you think that any cough calls for the best help known?

Creomulsion costs a little more than some helps. But your druggist guarantees it. So it costs you nothing if you think it fails to render help that is quick and complete. Careful people, more and more, demand this maximum protection. Use it promptly.

Now two sizes 60c—$1.25.

A New Way

To Relieve Sour Stomach, Colds, Headache, Gas on Stomach, Neuralgia, Rheumatism and that Tired, "Run-Down" Feeling

Ninety per cent of the people who suffer with these everyday aches and pains are victims of EXCESS ACIDITY. Scientists tell us that to keep healthy, vigorous and energetic, we must keep our bodies slightly more alkaline than acid.

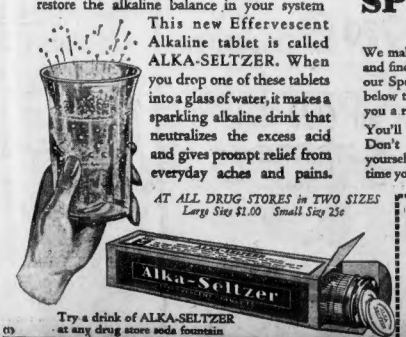
Two serious mistakes are made by most of us in our daily diet which reduce the healthy alkaline balance and cause too much acid in our systems. Right here is where most of our troubles start.

FIRST—we eat too much of the rich, acid-producing food such as meat, fish, bread, eggs, cereals and pastry — and not enough of the alkaline type of foods which are composed mostly of the fruits and vegetables.

SECOND—we often over-eat, over-work, or over-indulge without sufficient exercise. This invariably decreases the alkaline content and increases the acidity of the body. Your resistance goes down—vitality is lowered—and you become a victim to stomach disorders, and the many other aches and pains, so common to us all.

Then you suffer with Indigestion, Sour Stomach, Gas on the Stomach, Headaches, Colds, Neuralgia and Rheumatic pains—you become tired-out, run down, dull and depressed. That's a pretty sure sign you have too much acid in your system. As the alkaline content of the body decreases, these ailments become more distressing. Unless the condition is corrected, unless the excess acid is neutralized—unless the normal alkaline balance is restored, serious and dangerous illness is likely to follow.

Now science has developed a remarkable Effervescent Alkaline Tablet that quickly corrects this excess acid condition. It is a new and better way . . . a safe, harmless way . . . to restore the alkaline balance in your system



This new Effervescent Alkaline tablet is called ALKA-SELTZER. When you drop one of these tablets into a glass of water, it makes a sparkling alkaline drink that neutralizes the excess acid and gives prompt relief from everyday aches and pains.

AT ALL DRUG STORES in TWO SIZES
Large Size $1.00 Small Size 25c

Try a drink of ALKA-SELTZER at any drug store soda fountain

Don't confuse this new Effervescent Alkaline tablet with the ordinary type of remedies. ALKA-SELTZER is a scientific product—a corrective alkaline drink that first relieves the pain and discomfort of everyday ailments and then removes the cause. There is nothing on the market like it—there is nothing equal to it. Each tablet contains the vital alkaline mineral salts your body needs to correct excess acidity. An ALKA-SELTZER tablet in a glass of water gives you a perfect anti-acid drink.

When troubled, with Sour Stomach, Acid Indigestion, Gas on the Stomach, Heartburn, or Flatulency, don't fail to try ALKA-SELTZER and see what amazing relief it gives.

If you are subject to Colds, Headaches, Neuralgia, Neuritis, or Rheumatic Pains, try ALKA-SELTZER and experience the most welcome relief you ever had.

When tired out and run-down from overwork or too strenuous exercise—take ALKA-SELTZER and see how wonderful it is to renew your vigor and banish that "tired feeling." After any over-indulgence in eating or drinking, late hours, rich food, or too much smoking, there is nothing equal to ALKA-SELTZER to overcome that "morning-after" feeling.

Every mother or father who wants to keep the family healthy should keep a package of ALKA-SELTZER in the home. Let every member of the family use it frequently. Remember, it is harmless—and it will keep down excess acid—keep up the alkaline balance so necessary to good health and build up strong resistance to everyday ills and infectious diseases.

NO LAYOFFS FOR WORKERS ON LOREE ROADS

The success of American railroads in keeping pace with science and invention, and in meeting severe competition, is darkened by their failure, in the whole past decade, to solve their "human problem" of employment.

While other industries have been turning to the six-hour working day or the shorter work week, to prevent wholesale lay-offs, only one railroad has developed a satisfactory plan for protecting its working force.

This is the twelfth of a series of studies of the six-hour working day, advocated by William Randolph Hearst, and similar methods of spreading work in industry.

By LAURA VITRAY

While more than half a million jobless railroads add to this country's burden of unemployed, at least one railroad president is able to say:

"During the present decline in business no man on our road has lost his job."

He is L. F. Loree, president of the Delaware and Hudson Co., with 15,000 employes. The plan his company has followed in achieving its results is cited by President Hoover's emergency committee on unemployment as among those which are likely to become permanent policies for spreading work, long after any purely emergency relief measures have had their day.

NO HIRING, NO FIRING

Stabilization of labor on this particular railroad began years before the business slump and was practically a perfected system by 1929. Against 2600 lay-offs in 1920, the road showed a turnover of 418 jobs in 1926. Since then hiring and firing has ceased altogether.

Probably the record is only approximated by that of the Baltimore and Ohio, whose President Daniel Willard, has also exerted a powerful influence on the side of protection of the wage earner, and whose company has developed plans by which many classes of employes are guaranteed a minimum of work throughout the year.

The secret of the security of jobs that exists on the Delaware and Hudson is to be found in what its president calls the "elastic work day" . . . which may rise to eight or even 10 hours in times of greatest pressure, or sink to six hours when work declines, as at present.

The elastic day accomplishes for the railroad the complete distribution of the work to be done at all times, eliminating all possibility of lay-offs and therefore of constant anxiety. For every man knows that, whatever the business outlook may become, he will continue as a wage earner.

LIMITS TO DEPRESSION

The greatest cause of disturbance in the railroad industry, President Loree found, was the falling off of business after the panics which, he discovered, occurred in an acute form, about every 20 years . . . in a milder form, about every five years. But even these, experience told him, seldom caused a decline in traffic of less than 20 per cent.

The conditions of the "elastic day" as determined by the Delaware & Hudson management, were that no lay-offs should occur unless the hours of the force had to be reduced below the level where they should be making a living wage . . . nor should any new workers be taken on until the hours worked per week exceeded 60.

NO LAYOFFS NEEDED

At no time during the present depression have such lay-offs been necessary, although diferent groups in the employ of the road have at times had different working hours, according to local conditions.

Such is the outstanding example of an American railroad coping with the problem of unemployment which has thrown hundreds of thousands of railroad men on the mercy of public charity . . . and solving it satisfactorily.

Not only is the idea of shortened hours practicable from a railroading standpoint, but it is practicable from the standpoint of all industry, President Loree believes.

Do all industrial workers deserve to be protected from unemployment . . . and what would be the cost to an industry to so protect them? Tomorrow we will tell the story of a tool company that sought answers to these questions, and found them.

Stolen Masterpieces Unearthed in Moscow

Moscow, Nov. 17 (AP)—Priceless art treasures were restored to the world today following the discovery of five noted paintings buried in tin cans here.

The pictures, stolen from the Moscow art gallery in 1927, are the pictures of Christ by Rembrandt, the "Ecce Homo" by Titian, the "Holy Family" by Correggio, "St. John, the Evangelist," by Carlo Dolci and "The Scourging of Christ," by Pizzaro.

State Gasoline Tax Returns $1,525,806

Receipts from taxable gasoline for the month of October amounted to $1,525,806, according to Tax Commissioner Henry F. Long, who reported that a total of 70,860,200 gallons were consumed. This compared with a consumption of 48,-380,878 gallons for October, 1930.

Petition Denied

A petition of John Chiasson for a permit to deal in second hand articles at Watertown st., Newton, was denied last night by the board of aldermen.

FIRST NATIONAL STORES

We sell the waste and save you the cost!

One of the reasons why you can buy meat of such high quality at such low prices in your First National Store is our wasteless method of meat handling. The cutting of meat involves waste, which ordinarily must be included in the price you pay. But the cost of waste is not included in the price you pay for First National Blue Ribbon meats. Our meat is cut by skilled experts in our modern meat plant. The waste is accumulated and sold in large quantities—to save you the cost.

NEXT MONDAY WILL BE THE FIRST MEETING OF the Parents' League, that exclusive group of ladies who are interested in the character and conduct of the younger set in their debutante year particularly and at all times naturally.

PRISCILLA PRINCE

* * *

Mrs. Alexander S. Grant has sent out invitations to the tea and the invitation reads that Mrs. Vivian Pomeroy, wife of the Rev. Vivian Pomeroy of the First Parish Church of Milton (Unitarian), and the Rev. Angus Dunne, professor at the Episcopal Theological School in Cambridge, will speak to the members of the league on the religious education of children. Tickets may be obtained from Mrs. Roger I. Lee of 288 Walnut st., Brookline.

* * *

Another worthy and unique organization, The Needlewoman's Friend Society, is meeting today at the Copley-Plaza. In all Episcopal churches there is a needlewoman's friend and the heads of all of these guilds are gathering for their annual meeting. In a quiet way, these splendid organizations do a vast amount of good and mean comfort for many women who have to earn an income in the home.

WE WENT TO A TEA YESTERDAY afternoon at Mrs. Charles Proctor's at 297 Commonwealth ave. in aid of some charity—there are so many coming thick and fast these days it IS hard to remember which is which—and saw the attractive daughters of Mrs. John Palfrey serving at the tea-tables, Sarah and Mianne. They are going to dance in the cabaret for the Florence Crittenton Home tomorrow evening at the Ritz.

CORDIAL INVITATION HAS come from Mrs. Follen Cabot to view her rice paper flowers in the Louis XIV Room of the Women's Republican Club on the 18th. Mrs. Cabot was one of THE Blakes—we have mentioned them before—and is the very attractive sponsor of the Whitney Hall dances where everyone has a good time. They are for sub-debbies.

WE HEAR THAT HUGH BIGELOW, twin brother of Albert, is sailing to join the honeymooners in Germany. He will join the Americans in the league hockey games over there and for the first time in his life will play against his brother. Albert and Hugh were the two best hockey players Harvard has ever had—well, if not the best, tell me who was better.

IT WON'T BE LONG NOW before the Boston Morning Musicales will be extending their welcome to their old and new subscribers for the coming season. The opening will take place on Dec. 15, with Claudia Muzio as guest artist and we will go if we have to hire a wheel chair. She was our favorite of all of the stars in the Grand Opera group last winter, beautiful, dramatic with a superb voice. The Imperial Ballroom of the Hotel Statler will be crowded to the doors. We hear there are a few double seats still available. Don't miss her.

Mrs. Cox presided at the first meeting yesterday.

Parents Plan Gala Chilton Club Event

Mr. and Mrs. Walter C. Bailey of Cambridge have planned a dinner-dance in honor of their debutante daughter, Miss Ruth Bailey, on Wednesday, December 2, at the Chilton Club. This will be the first affair given for her and will be quite a gala one.

Miss Mary Byrd, of Richmond, Va., will be a house guest of the Baileys for some time, receiving with Miss Ruth at the dance.

Miss Byrd is the daughter of the former Governor and Mrs. Byrd of Virginia and a niece of Rear Admiral Richard E. Byrd. She and her sister, Miss Alice Byrd, both attended the Beaver Country Day School here, and the latter spent part of her debutante year in Boston. Miss Mary has quite a reputation for her splendid drawings of horses, and has even illustrated a book written on that subject.

Bromfield St. Fire

Fire caused damage estimated at $2000 in Lesilede cosmetic shop at 14 Bromfield st. early today. The blaze was discovered by a passing patrolman.

Society Notes

MRS. S. WARREN STURGIS of Groton is chairman of a large group of sponsors for Hans Wiener, the viennese dancer, in his first Boston recital of the season. This will take place a week from this evening, Tuesday, the 24th, in the Repertory Theater.

MR. AND MRS. E. PREBLE MOTLEY are making a short stay in New York, where they are registered at the Weylin. The George P. Sturgises (Dr.) have also been there, staying at the Berkshire, though they have left for Milton. Mrs. Sturgis is the former Harriet Morse.

WE HEARD THAT MRS. C. CAMPBELL (Peggy Bent) and her husband are in town for a few days, before they take a short trip to the West Indies. They have been on a motor trip for the first part of their wedding trip, and will continue in a day or two.

T. J. Hurley Better

Resting comfortably after a "fairly good" night, Street Commissioner Thomas J. Hurley was reported improved today at Wisthrop Community Hospital, weather he was taken Sunday when stricken ill.

Miss Dexter's Home Scene of Charity Sale

Miss Rose L. Dexter will open her home at 400 Beacon st. on Friday, the 20th, for a sale of handmade articles, for the benefit of the International Students' Exchange. The work consists of beautifully made Armenian, Bulgarian, Chinese, Cypress, Greek, Italian, Moroccan, Philippine, Russian, and Turkish embroideries, tooled leather, pottery, toys and hand woven and colored silks.

A group of sponsors are listed on the invitations which have already gone out, and included are Mrs. Arthur G. Rotch, Mrs. C. Douglas Mercer, Mrs. Willis S. Shepard, Mrs. George A. Strong, Mrs. Henry B. Humphrey, Mrs. Nichols P. T. Burke, Mrs. J. Lincoln Dearing, Mrs. John L. Grandin, Mrs. Henry H. Perry, the Misses Frances G. Curtis, Frances C. Sturgis, M. Fur Trimming Coat Feature

By ANN ARDEN

FOR THOSE whose problem it is to buy one winter coat and call it a season, there are fashion points to be observed.

* * *

IN THE first place the fur that is used for trimming is perhaps the most important feature. There are lots of it on the collars and cuffs this season, and it serves to make the coat look luxurious and warm.

* * *

A COAT which would enhance the possibilities of any number of frocks from luncheon time until late in the evening is the model pictured, of nubby wool in a rich brown shade, semi-fitted, and buttoned on a diagonal line to the side, showing the fascinatingly intricate seaming of the season. The large shawl collar is of that flat-terer, blue fox, while swirling circular sections of the fur are set on the fitted sleeves between wrist and elbow. The hat is a softly draped brown felt beret.

* * *

NO ONE is going to be asked to carry miniature purses this season. Quite the contrary. The latest designs in handbags have spaciousness for their first characteristic.

ANN ARDEN will answer questions concerning clothes, social customs or fashions generally. Address your questions to the Boston Evening American or the Boston Sunday Advertiser or to Station WAAB.

Amtorg Reduces Its Forces in New York

New York, Nov. 17 (AP)—The Amtorg Trading Corp., official purchasing and selling agency of the Soviet, has given up one-third of its office space here and reducted its personnel by more than half.

Curtailment of business between the United States and Russia, it was explained, necessitated the action. The corporation reported that during the first 10 months this year it placed orders totaling $49,400,200, compared with $102,800,000 in the corresponding period in 1930.

NEW PUZZLE GAME: FIND THE BANKER AND THE THINKER

By GILBERT SELDES

BACK IN 1915 I WAS WORKING for a newspaper which its enemies called "black Republican" in politics, and, growing tired of writing editorials out of my own head, I collected about fifty statements made by prominent people, chiefly about the war, which was then still a private European war, and printed them under the general title of "Bunk." (Or it may have been "Rot.") It was successful in many ways, but I was severely reprimanded by readers for having dared to include under the objectionable title quotations from a President and from an ex-President of the United States. My critics did not affirm or deny the stupidity of the statements; they insisted that the dignity of the Presidential office was above attack. Obviously my mistake lay in telling who had said what.

Answers to Questions

I have today two quotations, and I do not think that either is bunk. One is directly opposed to the other; one is from a great, successful banker; the other from a pure social theorist, who, so far as I know, has never had any practical experience. And the trick is to decide which said which.

1. The question was whether any governmental agency could prevent depressions. The answer was: "I don't think so. A man only lives so many years, and his experience only lasts with him so many years. New generations succeed, and they will make the same blunders. . . I think you are looking for a superman. There isn't any. Once in so many years we are going to have hard times."

2. The same question. The answer was: "Periodic trade depressions are no more natural to a healthy society than periodic breakdowns are natural to a healthy man. Breakdowns in health are warnings to a man to mend his ways. If he pays no attention to the repeated warnings one comes at last which proves fatal. It is the same with society. Our recurring trade depressions are warnings to society to face the facts and mend its ways. If we continue to disregard them we may be assured that one, in the end, will prove fatal, and who can say that the present one is not the last?"

I give the answers in order to set another riddle. The first speaker is Albert Henry Wiggin, of the Chase National Bank; the second is Arthur J. Penty, one of the founders of theoretical system called Guild Socialism in England. Perhaps it wasn't so hard to guess. But the other riddle I cannot answer myself. It is: Did the practical man speak like a theorist, and did the theorist speak like a practical man, or vice versa?

Guilds and Socialism

I heard a great deal about Guild Socialism in England during 1916 and 1917. With Penty, its philosopher, stood G. D. H. Cole, the economist, who has made a larger reputation both here and in England as a writer of detective stories, and a group of younger men who seemed to me more hard-headed than the run of radicals. The basic idea, as they explained it to me, was the organization of each industry as a self-government unit, with government reduced to an agency which kept a balance between transportation, mining, agriculture, etc. From the name one gathered that the medieval guilds were the ideal system, and in Penty's new article (The New Criterion for October) he goes back to the ancient guilds for his principle of price-fixing. Because they could fix prices the guilds of the middle ages not only fixed the total amount of production but imposed conditions of labor. In effect, by insisting upon apprenticeship and long periods of training they checked over-supply of labor as well as over-production.

Being a theorist, Penty is quite willing to map out a system by which machinery will be used exclusively for the benefit of humanity, with none of its miseries, and adds calmly: "The enforcement of these regulations would. . . abolish 90 per cent of our machinery, and to 10 per cent there could be no objection . . . We should certainly be better off spiritually, and I do not hesitate to say we should be better off materially, though it is not so easily proved, for machinery today is not, in the main, engaged in the production of wealth, but of ilth."

Now, when I quoted Penty the first time, I pretended that you might not be able to say whether he was a theorist or a practical man. The last quotation, of course, is from a pure theorist. Abolish 90 per cent of our machines! We cry out, "How preposterous!"

Five Points

But here is the little surprise, and it is not a pleasant one. Penty says that if machinery were properly regulated 90 per cent would be abolished, whether we like the idea or no. (It merely happens he likes it.) And what regulations does he propose? With one exception, exactly the regulations which practical men are insisting upon. Here they are:

1—Machinery should not be allowed to turn men into robots.

2—It should not be allowed to create economical disorders like unemployment.

3—It should not be used where it conflicts with the aims of the crafts and arts.

4—It should not be allowed to multiply commodities beyond the point at which natural demand is satisfied.

5—It should not be allowed to trespass seriously upon the world's supply of irreplaceable material.

That is all. You recognize Number 3 as a little stranger in this economic gathering, but the other four are the more important. By natural demand Penty means demand which is not artificially created by high-powered salesmanship, and there is argument about degree there. But altogether this program of the theorist is being outlined independently by industrialists and bankers. And the theorist is only one, so far, who has said that if put into action it would destroy the machine. Perhaps he says it because he hopes it.

DREISER FACES PRISON FIGHT

Pineville, Ky., Nov. 17 (INS)—Efforts to return Theodore Dreiser and John Dos Passos to Kentucky for trial on charges of criminal syndicalism will be launched without delay, it was announced today by Commonwealth Attorney Breck.

The prosecutor's declaration followed indictment at Middleboro yesterday of the two writers and eight members of their party who came here to investigate mine labor conditions.

Breck said he would take immediate steps to extradite Dreiser, Dos Passos and Marie Pergain. Charles Rumford Walker, an author, his wife, Samuel Ornitz and Celle Kuhn.

Dreiser and Miss Pergain were named in a county grand jury indictment last week, charging improper conduct in a Pineville hotel.

The syndicalism true bills carry penalties of not more than 21 years in prison, a fine of not more than $10,000, or both.

In New York Dreiser and the others were hopeful Governor Roosevelt would heed their appeal that he prevent their extradition.

Vicki Baum's Boys to Be "Nice Americans"

New York, Nov. 17 (AP)—Vicki Baum, German playwright, who sold her harp to buy a cradle for one of her two sons, is going back to Germany to get them.

She wants them to be educated in America so they will grow up to be "two nice American boys."

COAL MEN MAY LIMIT OUTPUT

Pittsburgh, Nov. 17 (AP)—Leaders of the nation's bituminous coal industry, fighting to protect a capital investment of $2,500,000,000, centered their attention today on proposals for an interstate compact to regulate and prorate production.

More than 1000 fuel industrialists, economists and technologists, here from 15 countries at the third international conference on bituminous coal, heard speakers advocate with almost virtual unanimity that the governors of the major coal-producing states lose no time in conferring with a view to agreeing on a program of curtailed production apportioned among the various states.

Faced with the realization that since 1918 bituminous production in the United States has decreased from 580,000,000 tons to 400,000,000 tons, the conference adopted a resolution regarded as the initial step toward possible mitigation of the troubles.

Among leaders there was expressed a general opinion that the industry eventually would find its salvation in a proration measure such as has been adopted by the oil operators.

Baby Paralysis Case at Wells College

Auburn, N. Y., Nov. 17 (INS)—Infantile paralysis today had claimed one victim at Wells College.

Kathryn Harman, 18, Trenton, N. J., died from the disease.

Actor Breaks a Leg Showing How Other Leg Is Working

Hollywood, Cal., Nov. 17 (AP)—For several weeks Lloyd Hamilton, film comedian, was in a Hollywood hospital, his left leg broken as the result of a traffic mishap. He was released a few days ago to hobble about on crutches.

Last night he visited his actor friend, Rex Lease, and, on departing, undertook to demonstrate to Lease how he could walk. He started for his automobile. The crutches collapsed and the actor fell, breaking his right leg. He was returned to the hospital.

Auto Kills Salem Woman

Salem, Nov. 17—Hit by an automobile, Miss Elizabeth D. Brady, 50, of 12 Briggs st., died in an ambulance on the way to the hospital.

BIG PROFIT FOR UNION'S FOE

New York, Nov. 17 (AP)—Peter De Vito, described by the United States attorney as the biggest strike breaker in New York, has been acquitted of making illegal deductions on his income tax return.

He was freed in Federal court by a jury which heard the Government charge that De Vito has used unwarranted "gifts and business expenses" on his 1929 tax return to bring a gross income of $500,000 down to a net of $142,275, when the net should have been $315,571.

During the trial vouchers were offered to show that the Standard Oil Company of New York paid De Vito $300,000. The American Can Company paid him $150,000 and N. T. Sweezey's Son and Company paid him $34,000.

THE VOICE OF Broadway

By Louis Sobol

Down Memory Lane!

(With Billy Minsky, or the sad, sad tale of a burlesque impresario who was once a newspaperman.)

On Grand st. at the age of 10, when that thoroughfare was the Fifth ave. of New York, with such firms as Lord & Taylor, Arnold Constable and others. My father, Louis Minsky, one of the big-time merchants of the day.

Aspiring to be either a doctor or a lawyer, but beginning as a messenger boy for a brokerage house at 71 Broadway. Graduating to telephone boy at the New York Stock Exchange.

Joining the office force of Henry M. Goldfogle, later Congressman, later President of the Board of Tax Commissioners. I became his secretary at Washington when only 17 years old. Impressed at Washington with the power of the press, I speeded my way to a position on a newspaper by getting a prominent journalist's son appointed to West Point. Herbert Bayard Swope gave me a job on the Morning World in 1907. Seeing my brothers get college degrees—Herbert, A. B. and LL. B at Columbia, and Morton, A. B. at New York University. I had to be content with the degree of G. E. (Gutter Education).

My first assignment on the Morning World was to obtain expressions of opinion pro and con on the inscription "In God We Trust," which was eliminated from the American currency. The first one I thought of was J. P. Morgan, father of the present J. P. I hustled down to the Morgan house, told of my mission to the stern special officer, who, with a cynical smile, stated that Mr. Morgan saw newspaper men by appointment once a week. I tried to impress him with the importance of my assignment, but that did not get me any further than his position near the entrance and exit, the latter of which was the one he ordered me to take. I decided to stick as close to the banking house as it was possible without being told to move on. Nearby was a newsboy whom I took into my confidence and asked the usual time of Morgan's arrival at the bank. Shortly after a big gray mare hitched to a closed cab slowly trotted down Nassau st. It was the old gent. As he stepped out of the cab I placed my arm under his and I could feel a nervous tremble from the tall form of J. P. Morgan. I told him of my mission and he replied, "All right, young man, come along with me." Taken into one of the glass partitioned offices, Mr. Morgan placed his silk hat into a wire basket and told me to take a seat. He excused himself for a few minutes, but the minutes turned into hours until my patience was exhausted. I left the office and again was led by the cynical officer, who told me of my nerve in terms quite censorable. Told Wurz, Wurz McGlaughlin of my experience, who took me by the hand to Col. Van Hamm, then managing editor, and was told to repeat my story. The Colonel packed his mouth with his handkerchief. I imagine he was laughing at me.

Working with Winnie Sheehan, now head of Fox Films, on the Whitmore murder case, where the body was found in a Paterson swamp. Solving the case by tracing the label on an Oppenheim Collins coat. By good luck, on a snowy night, I ran into the house of the victim after three days on a list of 500 names which I copied at the Brooklyn store of Oppenheim Collins. But I gave the credit to a highly paid crime expert specially engaged by the World.

I was the only newspaper man present at the marriage of Consuelo Vanderbilt and Count Szechenyi, from which newspapermen were barred. I got into the house disguised as a messenger boy. The gang—20 of them—carried me on their shoulders to the Plaza Hotel after the wedding and almost mobbed me to get the story of what happened inside the barred doors.

Finding Taft's coat and hat under the press table at Cooper Union the first time he ran for President, when he thought they had been stolen. Meeting him later and reminding him of the incident, he said to me, "Why did you never give them back to me?"

The promises my father made to me to get me out of the newspaper business—glittering future, great wealth, etc. My first experience in my father's building business, getting on the job at 7:30 on the lower East Side and being handed a trowel to knock mortar off old brick, when for years I had never been out of evening clothes as society expert on the Morning World.

Designing and superintending the erection of the National Theater and the National Winter Garden at 24 ave. and Houston st., which my father built with Max D. Steuer, of Bank of United States fame.

When the building was opened the downstairy theater was easily rented, but the National Winter Garden on the roof was left vacant. I volunteered to run the National Winter Garden, although I had no experience in the theatrical business.

Opening the National Winter Garden, closed two weeks ago, as a motion picture theater, making it a second run theater, playing pictures which had previously run as first runs at the Strand on Broadway.

I got Al Woods, who had the New York State rights, to give me "Civilization" for the National Winter Garden at $1400 a week flat rental. Woods thought he had gypped me, but I opened both the National Theater and the National Winter Garden and made an overwhelming gross.

I made the National Winter Garden a first run house for Famous Players, playing such stars as Douglas Fairbanks, Mary Pickford and Charlie Chaplin. I ran "Tillie's Punctured Romance," with Chaplin and Marie Dressler, 24 times a day. We were a bit groggy counting the money.

My first meeting with Lee Shubert (in my opinion the greatest showman in the country). I came up the aisle and, finding him at the newel post in the old Winter Garden on 50th st. and Broadway, he said to me: "Look out, Minsky. Don't let me catch you using any of this stuff in your show at the National Winter Garden." My reply: "Too late. I used it all last week."

Going to the old Apollo Theater on 125th st., the late Jules Hurtig, of Hurtig and Seamon, said, "You won't last four weeks." Four years later I bought the Hurtig and Seamon lease for $101,000 and took over their theater. Still operating.

Earl Carroll once remarked to one of his lieutenants, which was later relayed to me, "When you touch Minsky you touch gold." I hope he's right.

After Marcus Loew came on the East Side as competition on 14th st. I went after E. F. Albee, king of vaudeville, for a franchise. I broke past his guards and saw him personally, although he was supposed to be more inaccessible than the President of the United States. Played Belle Baker for $25 per week and then brought her back for $500 a week. Played Van and Schenck for $40 a week and Solly Ward for $50. Played Jack Norworth and Ann Pennington. How I got Harry Green and his partner for $45 a week. Lou Forman, now at the Palace, was my orchestra leader at $17 a week.

My break into burlesque. Keith took over the Jefferson on 14th st. Too much competition in vaudeville. I expanded a one-hour tabloid girl act into a two-and-a-half-hours continuous show. Banner years at the National Winter Garden—1926-7-8 and 9. Carriage trade that started the natives. In the audience Otto H. Kahn, Condo Nast, Frank Crowninshield, Peter Arno, Earl Carroll, the Standard Oil Pratts, Princes Obolenski, George Jean Nathan, a frequent visitor; Norman Bel Geddes and Tammany Young on a pass.

My moves to the Park Theater at 59th st. and Broadway, where I beat all records, including that of 28 weeks for "The Wizard of Oz," getting Alan Dale, critic of the N. Y. American, to say, "All tired business men should see the Minsky show at the Park Theater."

My ambition to have a house on Broadway. I took my partner, Joe Weinstock, to the lawyer's office to conclude negotiations for the purchase of the lease on the Republican Theater from Arthur Hammerstein. Joe trembled a bit at signing, but when me it was just a bit of the old routine. Writing passes gave me that care-free swing with the pen. Mourners were around to tell us that we had gone balmy and that burlesque would not make the grade on Broadway. It seems that I guessed right.

Then the Central Theater was added to the string of New York houses. We're doing well there, thank you.

"ONCE IN A LIFETIME" FUNNIEST PLAY IN YEARS

Satire on Hollywood Life Acclaimed by Premiere Audience at Majestic

By NICHOLAS YOUNG

So this is Hollywood! When Mr. Flo Ziegfeld, a year ago, told me that the best comedy he had seen in 10 years was "Once In a Lifetime" I was inclined to season his remark with a sprinkling of salt. Then it occurred to me that he was honestly an impartial observer, for he had nothing to with the play or its production, and, to make his endorsement more convincing, the comedy was serving its time on an opposition circuit.

* * *

The Ziegfeldian eulogium was amply sustained at the Majestic last evening when this Moss Hart and George S. Kaufman brilliantly illuminated satire on what goes on behind the scenes in Hollywood fairly lifted a staid Bostonese audience out of its first night seats. As Mr. Ziegfeld is already on record, this reviewer can only supplement the writhed and squirmed in peroxide, though scientific, disorder.

Jean Dixon

Ziegfeld's remarks as to its primal qualities by gently insisting that also it be funniest play the starved theater goer in these regions has had to stir his emotions since "Little Accident." The authors of "Once In a Lifetime" have done more than write a popular comedy; they have jabbed the pins of satire under the skin of one of the nation's greatest industries. And in the process they have left you with aching sides and a hungry desire for another order of the same thing.

* * *

There was nothing new in placing Hollywood once more under fire. This time, however, the sniping was done with laughing gas; surely it was carried on in the interest of good, upright entertainment. It passed from comedy to burlesque, from burlesque to romance, and finally closed the day's proceedings with some rather fancy drama that belonged to any branch of the theater you care to put it. In the meantime you have been served well; you had been amused to the point of rattling about in your seat and fervently hoping for a breathing space between laughs. Incidentally you had seen the art of making talking pictures turned into a hip, hip, hurrah performance that out-rivalled the famous Gaudsmith Brothers' "Superba" in the business of having countless studio attaches appear and disappear through as many convenient doors. The Glogauer Studio was the industry's last word in gilded appointment; also it

* * *

It's story was simple, but the manoeuvring was fiendish. As vaudeville team, sunk to pretty nearly its last square meal, crashed the Hollywood gates with a proposition to teach the silent stars of yesterday how to read lines like the Barrymores. It was fair game and, on the face of things, promised success. By blundering rather than skill, was the day won and fortune assured. A company of musical comedy proportions rambled through the scenes, there were too many actors to count, to say nothing of remembering any delicate touches that might be recorded. Hugh O'Donnell, as an Indian nut eating, small time vaudevillian who finally became the colony's most masterful director, never gave you a dull moment. You loved him for his stupidity. Jean Dixon was the girl in the case and turned in a finished performance. She was a delicious contrast to the stumbling O'Donnell. Grant Mills was the enthusiastic third member of this team.

* * *

The adventures of these three players were enough to keep any play on its feet, but there were other characterizations, satirically drawn and flawlessly executed. That, for example, of Robert Barrat, the playwright who had drawn six months' salary and could never find an assignment, and that of Ruthelma Stevens, haughty secretary, who presided over the studio reception room.

* * *

Messrs. Hart and Kaufman started out to have a lot of fun with Hollywood and their aim was excellent. They packed away at tender spots; they turned motion picture making into a joke that lasted for three hours. Even if it lacked that faith in representation which is always an author's license, it's audience kept right on laughing.

Stage Who's Who

Guy Robertson, appearing in the new musical play, "Marching By," at the Shubert, was not slated for a theatrical career, despite the fact that his parents are well known stage players. Guy was sent to Lehigh College for a civil engineering course, but, succumbing to the stage's lure, abandoned his studies and became a stock actor in Denver. Musical critics noticed his excellent voice and persuaded him to devote his talents to musical comedy. After doing his "bit" in the World War, he entered the field of operetta and has appeared in such successes as "Maytime," "Rose Marie," "Wildflower," and "Nina Rosa," in which he was seen in Boston last season.

Hinda Wassau Howard Star

There is another Columbia Circuit star at the Old Howard this week in the person of Hinda Wassau. She is known as the platinum beauty. Miss Wassau is with the "Hindu Belles." The comedy is presented by Jack Rosen and Roy Kinslow. Rossmond May, Frances Knight and Dorothy DeHaven contribute to the merriment. Maurice Baer, Bert Saunders and Tom Day are clever.

In addition the Howard comes to the front with a bill of vaudeville merit. The Bon Hair Troupe are European gymnasts. Krugel and Robles amuse in a lively singing and talking act. The Three Gobs are airdans.

The pictures include Constance Bennett in "Sin Takes a Holiday" and Ben Lyon and Raquel Torres in "Aloha." "Two Minutes to Go" is the Knute Rockne series offering.

Tomorrow night there will be a midnight performance, the entire proceeds of which will be given to the Boston Unemployment Fund. Friday night there will be the usual midnight performance.

Reporter Gave Dreyfus Facts

Ernest Smith, the only survivor of the British journalists, who reported the Dreyfus case in 1894, co-operated in the production of the picture, "The Dreyfus Case," now being shown at the Park.

Smith possesses a remarkable collection of snapshots of the principals, which he secured at the time of the historic court martial. He also has exact data of all that happened and all this was placed at the disposal of the director-in-chief. It is interesting to know that many facts uncovered by Smith's records had escaped the observation of Dreyfus, and the famed martyr learned for the first time from Smith many incidents that he never knew. Smith practically reconstructed the whole story and it is due to his notation of detail that the characters in the film drama bear a striking resemblance to the originals.

'Vagabond' Feature at Fine Arts

By HARLEIGH SCHULTZ

You will fall in love with "The Immortal Vagabond," the Fine Arts screen feature. It is the antithesis of the hardboiled, wisecracker pictures out of Hollywood. It is as sweet as a flower—its story, its music, its acting. In some of its camera work it shows the difference between a movie and a motion picture. It has class in every detail. The title made us think we were going to see Gustav Frohlich another Francois Villon tale, but no! One beholds the panoramic spread of the Alps, folk dances, picturesque costumes, then the glory of old Vienna.

It is a charming background for the sentiment of the theme—young composer loving the village postmaster's daughter, father disapproving and preferring a wealthy farmer; the hero off to the big city for a career, his triumph, the bitterness when he learns his sweetheart is become the ploughman's bride, the father having burned the composer's letters to her; vagabond years for the hero, and then his return when he hears his old home town is unveiling a monument to him, believing him dead.

The production has great merit. Throughout it breathes sincerity, and holds the interest, and is vastly pleasing. It is delightful to see and hear. Best of the cast is Gustav Frohlich, whom you may remember for his good work in the great picture, "Metropolis," and now appearing in his first talkie. Made in Germany, "The Immortal Vagabond" has had its original dialogue changed into English.

The picture leaves a fine taste in one's cinematic mouth—a taste for more!

Scollay Bill Is Full of Merit

Any one of four acts might be picked to headline the Scollay vaudeville this week, Steve Freda and Johnny Palace, with Freda playing guitar and Palace leading the singing, are topnotch and their humor is quite original and has a punch.

Harland Dixon, musical comedy star, has a clever imitation and offers outstanding dance entertainment, with Peggy Cornell for a partner.

Julia Gerity, blues singer who has been held over for a second week, continues as a smash hit with the audience, answering several curtain calls. Josephine Harmon and Georgia Sands in "Hitting the High Spots" provide the same type of entertainment that made them a feature in Earl Carroll's Vanities.

The Snappy Steppers are six female and one male specialty dancer who do just about every variety of modern stage dancing and in a very pleasing manner. Law and Ruth Darrow, with Billy Howard in "Absurdities," make a strong finish. Page and Clare are a couple of wire artists.

Waldron's Casino

In the burlesque which opened yesterday at Waldron's Casino, the "queens" are headed by Gertrude Saunders. Mc-Clain is a close second. Helen Forrest and Jane Vitale are stars. There is new comedy talent, including I. B. Hamp, Harry Feldman, Leo DeVos, beside the old favorites, Cress Hillary and George Brennan. Vaudeville and talking pictures complete the bill. This is the show that will be given at midnight Friday for the benefit of the Boston unemployment fund.

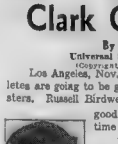
Jim Thorpe's Life Will Be Put on Screen With Clark Gable in Lead

By LOUELLA O. PARSONS
Universal Service Motion Picture Editor
(Copyright, 1931, by Universal Service, Inc.)

Los Angeles, Nov. 17—Thank goodness our American athletes are going to be glorified. We are sick and tired of gangsters. Russell Birdwell, newspaper man and author, had the good sense to realize now is the psychological time for something new.



Louella O. Parsons

He therefore wrote a stirring tale on the life of Jim Thorpe, world famous athlete and Olympic champion. In fact, in describing the story to me Thorpe is called "the athlete of all time."

Who, then, at Metro-Goldwyn-Mayer will play the lead in this drama? The answer given me is Clark Gable. When Mr. Thorpe's life reaches the screen it will be under the title of "The Red Son of Carlisle." Thorpe is one of the most colorful Indians who ever leaped into the headlines. He comes from Oklahoma and not only in that State is he a hero but all over the country.

The Samuel Goldwyns will spend their annual vacation in New York this year. They leave next week, but the journey this year is more business than pleasure. "Arrowsmith" opens at the Gaiety Theater and Sam is to be there to see that his favorite pictures makes the proper debut. He says he is prouder of "Arrowsmith" than any picture he has ever produced. Now just one more thing. I happen to know that Sam took over the production worries of United Artists as a personal favor to Joseph Schenck. He has always preferred to be merely responsible for his own productions, but because of his long friendship for Mr. Schenck he agreed to take charge. I believe when he goes to New York he will ask for a release from these duties so he can concentrate on his own productions.

I don't know why everybody in Hollywood got the impression that Lil Dagover was saying goodbye forever to Hollywood. She leaves shortly to return to her native Germany but everyone seemed to think that she would not be coming our way again, that she would not do a Greta Garbo-Marlene Dietrich-Elissa Landi and remain here. Jack Warner corrects that erroneous idea by saying that Miss Dagover is due here in February to make another picture for Warner Brothers. The story department is now hunting for a vehicle. Her picture is said to be all that anyone hoped for and even more.

"Who is Shirley Grey?" asked someone the other day. Well, Shirley Grey is the gal who played in stock in Oakland and was brought to Hollywood by Samuel Goldwyn. Since then she has been doing mighty well for herself. Her latest assignment is in "Air Eagles," a Larry Darmour number which Phil Whitman will direct. Lloyd Hughes and Matty Kemp are in the cast, as announced by us before. Again I say, is there interest in production news?

Traveling here and there we want to comment on the makeup worn by John Barrymore at the M-G-M luncheon. It was one of the best disguises we have ever seen. Everyone asked the name of the bearded gentleman with a swarthy complexion in a blue shirt. No one knew. Finally Conrad Nagel introduced him and he was John Barrymore. He fooled everyone completely, for not one person at the table where he sat recognized him. He came off the set where he had been making scenes for "Arsene Lupin."

The Fox Company has purchased the film rights to "The Silent Witness." That is interesting news

Inasmuch as Lionel Atwill who gives such a sterling performance on the stage is here in town. I hear from an inside source that Winfield Sheehan is interested in Mr. Atwill, and in all probability will sign him to bring to the screen the same role he created on the stage. Certainly never before has there been a better chance for experienced actors who are no longer in the callow youth stage. Some of our greatest successes have been won by owis Stone, Wallace Beery, Lionel Barrymore and George Arliss. Marcel Varnel and Robert Lafty Hough have been assigned co-direct "The Silent Witness."

Snapshots of Hollywood

EVELYN BRENT and HARRY EDWARDS took a bow last week for having their third wedding anniversary. MRS. IRVING THALBERG in Spanish tie suit with hat to match, dodging a few autograph hunters at the Beverly Hills Brown Derby. RALPH SPENCE and SID GRAUMAN with heads together, consuming corned beef and cabbage at SAM HOLAND'S corner. AL WERK receiving congratulations on the arrival of a son. HELEN MACK and BILLY BAKEWELL that way about each other. JULANNE JOHNSTONE and CHARLES BARON dancing the rhumba at the Roosevelt Hotel and keeping up their reputation of being two of the best ballroom dancers. TOM MIX, guest of honor in the Blossom Room. DANNY DANKER, soap magnate, escorting a beautiful dark-haired young woman to the theater. MRS. JACK WARNER being given a surprise luncheon at the Embassy on her birthday. That's all today. See you tomorrow!

NEW CURE FOR INSANITY SEEN

New Haven, Ct., Nov. 17 (INS)—Hopeful of a chemical cure for the functional types of insanity was held out today in a preliminary report on experiments now being made on 46 patients in the insane hospital at Willard, N. Y.

Two physicians, working under stimulus of Prof. Wilder D. Bancroft of Cornell University, have found that these patients, all suffering from functional insanity, exhibit a direct relation between the type of their insanity and the condition of the colloids in their nerve cells.

In other words, they confirm Dr Bancroft's belief, asserted early this year, that the functional types of insanity are due to the coagulation (puckering) of nerve cells or to a running thin of the albumen-like substance in the same cells.

BIG INCOMES TO BEAR BRUNT OF TAX INCREASE

Washington, Nov. 17 (INS)—"Increase taxes and slash appropriations."

This economic slogan rang through the Capitol today as Republican and Democratic leaders declared in favor of greater levies to balance the national budget and its expected $2,000,000,000 deficit.

The tax increase probably will be limited to the higher brackets of income taxes, the inheritance tax, a gift tax and possibly adoption of a modified sales tax on luxuries.

INCREASE NECESSARY

The administration may attempt to reduce exemptions in the several brackets of the income taxes, in order to increase the number of taxpayers, but little sympathy has developed for this plan among returning members of Congress.

The attitude of Republican leaders was expressed by Senator Simeon D Fess of Ohio, the Republican national chairman, who said:

"The budget must be balanced even if we are compelled to take drastic measures as was done in England. One line of effort is drastic reductions which are being made to reduce the outlay. The other must be increase of revenue."

DEMAND GIFT TAX

Senators Watson of Indiana, Republican floor leader in the Senate, and Smoot (R.) of Utah, head of the Senate Finance Committee, agreed with Fess that income taxes in the higher brackets would be increased. They also expressed anticipation of an increase in inheritance taxes.

The insurgents meanwhile, aided by Democrats, will insist on a gift tax if inheritance taxes are increased, in order to prevent evasion of the estate tax.

The sales tax has found some unexpected champions on Capitol Hill, but the belief prevails it will be defeated unless limited to luxuries.

WOMAN LEADS MOB IN ATTACK

New York Nov. 17 (AP)—A mob of 500 men, led by a woman, charged down early today upon two policemen guarding an East 13th st. restaurant, scene of recent disorders.

One officer was knocked down and kicked by members of the mob said to be Communists.

The woman leader was seized by a policeman and thrust into a taxicab, only to be pulled out from the other side of the cab by her followers.

Police fired several shots into the air before the mob dispersed.

"Bluebeard" Defense Wins Point on Jury

Clarksburg, W. Va., Nov. 17 (AP)—Hardy F. Powers, held as the quintuple slayer of Quiet Dell, today won a partial victory in his fight for a change of venue.

Judge John C. Southern set Saturday to hear testimony in support of a petition by defense counsel asking that Powers' trial, scheduled for this city December 7, be removed to another county. Defense counsel contends Powers cannot receive a fair trial here because of what he termed inflamed public sentiment.

Home Bank Approval Cheering to Hoover

Washington, Nov. 17 (AP)—President Hoover expressed pleasure today at the support for his proposal to establish a system of home loan discount banks. He said:

"There had been a continued flood of favorable telegrams coming from almost every town and section."

"It is phenomenal," he said, "that it has received such extraordinary and universal support."

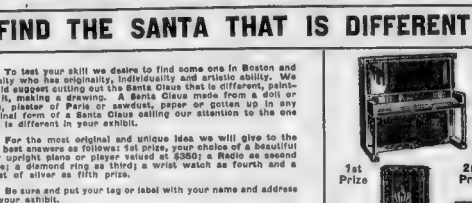
The domestic help problem is solved by taking a kitchenette apartment, and the best are advertised daily in the For Rent columns.

Britain Is Off Gold Basis Indefinitely

London, Nov. 17 (AP)—Neville Chamberlain, chancellor of the exchequer, indicated in the House of Commons today the British government does not contemplate an early return to the gold standard.

In answer to a question, he said: "There are a number of important conditions, some of which are not subject to our control, which must be satisfied before stabilization of sterling in terms of gold can be contemplated.

TEST YOUR SKILL $500 IN PRIZES TEST YOUR SKILL



FIND THE SANTA THAT IS DIFFERENT

To test your skill we desire to find some one in Boston and vicinity who has originality, individuality and artistic ability. We would suggest cutting out the Santa Claus that is different, painting it, making a drawing. A Santa Claus made from a doll or rags, plaster of Paris or sawdust, paper or gotten up in any original form of a Santa Claus calling our attention to the one that is different in your exhibit.

For the most original and unique idea we will give to the five best answers as follows: 1st prize, your choice of a beautiful new upright piano or player valued at $350; a Radio as second prize; a diamond ring as third; a wrist watch as fourth and a chest of silver as fifth prize.

Be sure and put your tag or label with your name and address on your exhibit.

We will have three competent judges to decide who the winners are. This contest closes Monday noon, Nov. 30th. Mail your answers or bring them to our store in person. In case of a tie prize alike and of the same value will be awarded to each of the tieing contestants. The judges will award these prizes Wednesday, December 2nd. You can be at our store if you wish. However, it will be unnecessary as you will be notified by mail in case you win. No answers accepted after Monday, Nov. 30th. One week from December 2nd (the awarding of the prizes) you may call and get your exhibit of the Santa Claus if you desire, or we will give them to some child hospital with your permission.

A souvenir will be presented to all participants in this contest.

OIL FARM FIGHT IS BALKED BY LACK OF HALL

Inability to obtain use of the auditorium in City Hall, Revere, for a mass meeting in protest against the big oil farm, which has received the approval of State Fire Marshal John V. Reth, angered leaders of the fight against the project today.

The City Hall auditorium is let for whist parties and other affairs each night this week and the early part of next week, the leaders were informed by one of Mayor Canasso's secretaries.

As a result, a public meeting will take place this evening in the rooms of the Revere Real Estate and Taxpayers' Association at Walden and Beach sts., where slightly over 300 can be accommodated.

ASK ELY INTERVENTION.

After arrangements for this meeting Rep Thomas F Carroll left for the State House with Attorneys Wigderson and J Wallace Mahoney to see Gov. Ely, to ask his intervention.

Fire Marshal Reth's term expires soon and the governor will be asked not to reappoint him. Furthermore the governor will be asked to hold up the fire marshal's hearing on a proposed Saugus oil farm until a new marshal is appointed.

Farms at Chelsea and Saugus as well as Revere, would create a hazardous situation, according to the Revere leaders.

"It's too bad the citizens of Revere cannot get a public hall when they want to gather for a protest meeting on such a proposition as this" said Attorney Wigderson.

"We want to get the people working together on this, so that we can have active support of all citizens when we carry our fight to the courts and launch our referendum against this oil farm."

BUTLER AGAINST EDUCATION SEAT

New York, Nov 17 (INS) Politics and bigotry would endanger success of a federal department on education, Dr. Nicholas Murray Butler, president of Columbia University, asserted today.

The national advisory committee on education, appointed by President Hoover, reported two days ago it favored creation of such a department, headed by a secretary of education who would sit in the cabinet without legal powers.

Such a secretary, Butler said, would, in a sense, have to be a political officer, as most likely he would be of the same political faith as the President who appointed him.

Gest Sobs in Front of White House as He Plans Revival

Washington, Nov. 17—Morris Gest, theatrical producer, sat on the running board of his automobile in front of the White House and wept as he revealed his plans for a revival of "The Miracle" for the benefit of the unemployed.

He had just finished a long talk with the President and Mrs. Hoover, who have promised to attend the opening performance, which he thinks will be in Baltimore.

Lady Diana Manners, who played the Madonna in the original cast, has consented to come to the United States at her own expense and contribute her services. Lillian Gleason, one of Mrs. Hoover's former Girl Scouts, will play the role of the nun.

Dog Escapes Death by Going Into Exile

Battle Creek, Nov. 17 (AP)—Rosie, a German shepherd dog, has escaped a death sentence by going into exile. He was under $200 bonds pending appeal from a court order for his destruction on a charge of viciousness, but the case has been dropped.

His owner informed the court that he had sent Rosie away, and everybody is now satisfied.

Valentine 'Massacre' Closed as Unsolved

Chicago, Nov. 17 (AP)—A noncommittal "finis" has been written at the bottom of the coroner's report of the "St. Valentine Day massacre," in which seven members of the "Bugs" Moran gang met death.

After 33 months' investigation, a jury decided that the bloodiest chapter in Chicago's gang warfare was written with machine guns in the hands of "persons unknown."

Los Angeles, Nov. 17 (AP)—Ira B. Acres' father-in-law may sit in Ira's barber shop to watch the cash register, but he must dress like an employe.

Ira objected to a court order obtained by his wife for a watchdog for the cash drawer on the ground that prospective patrons would think the father-in-law was "next" and would not come in.

Ship's Whole Crew Admit Rum Guilt

Philadelphia, Nov. 17 (AP)—Capt. John Iverson and 26 members of the crew of the freighter Commercial Quaker were under bond today charged with having landed a $70,000 liquor cargo at Chester, Pa., last Wednesday.

Federal agents made the arrests last night in a raid on the steamer at its pier. With the exception of the second mate Eugene Curzot, the crew admitted their guilt, authorities said.

Two Strike Leaders Face Deportation

Two Communists, arrested in Lawrence during the recent textile strike, were brought to Boston today by federal authorities as deportable aliens. They are Fred G. Biscoonkapp, 54, of New York, and Ivan Krascevich, 48, of Brooklyn.

They will be arraigned in federal court here on telegraphic warrants from Washington as the first step in proceedings seeking to return them to Germany and Lithuania respectively.

EDUCATION SPLIT SHOWS ANOTHER HOOVER BOARD HAS GONE WRONG

By ROBERT E. ROGERS

ROBERT E. ROGERS

MR. HOOVER'S COMMISSIONS seem to have a habit of contradicting themselves. The contradictions of the Wickersham report were probably due more to White House revision and interpretation than to the report itself, which was decently consistent. The report of the National Advisory Committee on Education is more puzzling. From the first report of it in the newspapers, it looks to be playing both ends against the middle, trying to carry water on both shoulders, straddling the issue in a way not uncommon in reports by large committees.

The report recommends two things; first, that the Federal Government must stop controlling state education by means of special appropriations for special purposes, to be spent by the states according to Federal specifications; second, that, instead, there shall be a secretary of education, managing a Federal department, but without control of state education. His functions shall be research, investigation, and advice.

N. E. for Local Control

This recommendation is obviously an attempt to please both factions in our educational debate. The one group views with alarm and disgust the steady, insidious extension of Federal influence and power in every branch of government, especially in education. It especially objects to federal grants for educational purposes, which, although they are controlled from Washington, are actually paid for the richer, more civilized states for the benefit of the poorer and more backward.

This group also objects to having educational notions which have originated in one section of the country foisted upon the schools of other sections to which they may not be suited. New England, for instance, objects violently to the extravagant empiricism of the west. It believes in local control, traditional policies, and a theory of education which grows naturally out of the needs and habits of the community, and which is not imposed from above by groups of experts who have, like as not, evolved it out of their inner consciousness.

On the other hand there is a group of professional public school educators, officers in sectional and national associations, officers in allied and associated organizatons—who are all for Federal control. They object to what they call the anarchy of American education. Their ideal is that of the French minister of education in the well-known story: *"It is now 10:20 o'clock. At this moment every child between the ages of ten and eleven is reading from page 13½ of such and such a text."* That may be a bit exaggerated, but that is the general idea. And, of course, no one can deny the extraordinary efficiency of the French educational system—provided we have any teachers capable of carrying it out.

Who Must Pay the Bill

This group wants a secretary in the cabinet, a federal department, federal appropriations and, as a result, federal control. It is not necessary to believe that here is merely a selfish and political appetite for more jobs, a fat pay-roll, more "pork" for the home sector. But disinterested and idealistic as this group may be, there is no doubt that in the long run such a policy means power—power dependent on appropriations.

The Advisory Council which has just reported seems to believe that both these groups can be satisfied, that these two contradictory points of view can be reconciled. With all due respect to the able educators and laymen on the committee, I doubt it. A Federal department which restricts itself to research and advice sounds pretty, but it also sounds unlikely. The pressure upon the most idealistic Secretary of Education to make his department powerful, the source of jobs and appropriations and local patronage, will be almost irresistable. The drift towards Federal centralization seems almost too strong to be halted. The mass attraction of existing centralization seems too great to be overcome. Human nature, in politics or out of it, tends to make an official without power—desirous of power. If he is not, his subordinates are, and the organizations that put him into power, and the theorists who want a chance to try out their theories in practice, if possible on a large scale.

On the other hand, there is no doubt that we in Massachusetts are too ignorant and complaisant about educational conditions as they exist in the backward parts of the United States. If these backward states have no vision, have no interest, or have no money (or believe they haven't), is there anything to be done but let the United States step in, organize the school systems of these backward states, finance them, and control them? Perhaps not—but—remember!—all this will be done at the expense of the taxpayers of the wealthy, high-civilized industrial states that already support efficient and expensive school systems.

It's in Sheep's Clothes Now

Once more, obviously, we are up against the flat contradiction involved in the basic idea of a federal government, one made up of sovereign states. Constitutionally, they are sovereign. Practically, they are being stripped of most of their sovereign power. It is possible that the experiences of the past dozen years have so disgusted our people that we are in for a strong reaction against centralization, a swing back to the practice, as well as the belief, of state's rights.

But even the Democratic party, once in office, becomes interested in extending federal power. No Hamiltonian Republican was more effective in extending federal power than was Mr. Wilson. The impetus of the system already existing is very hard to slow up.

I wish the Advisory Committee had come out flat-footed for either strong Federal centralization or for strict state sovereignty. Then we should have had a clear-cut issue to argue about and, perhaps, vote upon. But the present recommendations, however tolerant and idealistic in their intent, will turn out in practice to be slick and insidious in their result. Once a Federal department of education is established there is no power (not even the power of state sovereignty) that can stop its inexorable drift towards bureaucratic power over state education, depending on appropriations and patronage. That may be a very good thing for American education as a whole. But the American people ought to know it under its true name and appearance. At present it is disguised, dressed up, appearing to be something other than it is. The Advisory Committee, trying to represent both parties, has a matter of fact betrayed one of them.

CRIMSON RAPS 'FALSE ECONOMY' AT HARVARD

NEW FIRE BOAT SPOUTS SEVEN LINES IN TEST

Boston's newest fireboat, the Mathew J. Boyle, was given its preliminary official tests today when it cruised about the harbor with its seven streams spouting water to a height of 200 feet.

The Mathew J. Boyle, which will replace the old Engine 44, was constructed at Lawley's shipyards, Neponset, and is the first of three new boats which will be placed in service.

Capable of pumping 12,000 gallons a minute, the new boat, due to its oil burning, steam-driven pumps, can remain in service for 48 hours without stop for refueling.

Two-way radio communication will be maintained between the new fire-fighter and fire headquarters. A 14-foot pumping tender, part of the equipment of the Boyle, will make it possible to fight fires under piers and similar structures.

Fire Commissioner Edward F. McLaughlin, Chief Henry A. Fox, Edward E. Williamson, superintendent of maintainance, and John D. McDonough, master of marine service, of the fire department, were aboard the vessel during the tests.

Shipping in the harbor gave the new boat a vociferous welcome as it made its maiden appearance.

HELM'S GREAT AID TO NEEDY IS EXTOLLED

Mayor Curley lauded Dr. E. J. Helm, director of Morgan Memorial, today for his work with that organization for 3 6years.

Mayor Curley inspected the plant and then addressed members of the Junior League and clubwomen at a tea given in the auditorium. The mayor's visit to the Morgan Memorial, 87 Shawmut ave., was part of the "Goodwill Bag and Bundle" week being sponsored by the organization.

The move has also been endorsed by Gov. Ely, college heads, clergy and the judiciary.

Dr. Helm, director of Morgan Memorial, is appealing to all to give a bundle of cast-offs to the organization. The clothing will be restored, thus giving work to approximately 500 persons.

Tomorrow is set aside as Judiciary day with Atty.Gen. Joseph E. Warner as principal speaker. Police, court attaches, women's clubs and other organizations have been invited to inspect the plant.

Daniel L. Marsh, president of Boston University, will be the principal speaker on Thursday, which has been designated as "Educational Day." School and college heads have been invited to inspect the plant in the afternoon and to attend a Syrian supper at 6 p.m. This will be followed by a free concert by the M. I. T. musical clubs.

Mrs. Ely, wife of the Governor will be hostess at a tea Friday afternoon. Bishop Henry Knox Sherrill will officiate at Friday morning services.

Saturday is "Young America" day and will be devoted to Boy Scouts, Girl Scouts and children of the Morgan Memorial Settlement.

STARS IN NEWTON PLAY

MISS HARRIS — MISS TYLER

Miss Rosalind Harris and Miss Josephine Tyler, two of the talented young women who will take leading roles in "Lilies of the Field," first play of the Newton Dramatic Club's present season. The play will be given tomorrow night at the Newton Center Woman's Club.

BEAMS OF GOLD, NO MONEY FOR VENTILATORS

"False economy" at Harvard, which provides "gold-encrusted beams" for one building and leaves the ventilating system in another idle for lack of funds, is vigorously assailed today in an editorial in the Harvard Crimson.

The editorial, which sees Harvard, "the richest university in the country," in the paradoxical position of "money, money everywhere, nor any cent to spend," declares "it is time to ask why" the university is reduced to such a plight.

The plaint is inspired by the recent remark of the Yale Alumni Weekly that "Yale is singularly like a poor man who has been given a house to live in and has difficulty in paying the grocer."

TREE OF HARVARD

"The comment is equally true of Harvard," declares the Crimson.

"With one of the finest college libraries in the country, Harvard has no money to operate its ventilating system in the reading room.

"With gold-encrusted beams in Adams House, it cannot afford to provide rooms enough in Dunster House for tutors.

"Every month has seen additions to Harvard's skyline, and every new building has increased the expenses of maintenance without providing a way to meet them."

The Crimson attributes this paradox to two causes.

TO TWO CAUSES

"One, it says, "is the natural desire of donors to see their gift take permanent and tangible form, as in a building, and their natural reluctance to sink money in the bottomless pool of unattached funds.

"The other important factor that has been overlooked is the lack of proportion shown in apportioning money within a given fund. It is bad planning of this sort that decks house libraries lavishly with Oriental rugs, while it scrimps on accommodations for the tutors who are so essential to the full working of the house plan."

POOR GET $671 FROM RODEO

The special fund of the public welfare department for the purchase of shoes and warm clothing for the poor of Boston during the coming winter was increased by $857 today when checks totaling that amount were received from officials of Boston Garden and D. A. Schulte Co.

A check for 25 per cent of the receipts of the rodeo at Boston Garden last Friday was received by Mayor Curley today. It amounted to $671. Two checks for 1413.16 each were received from the Schulte Co. One represented 5 per cent of the total sales in their Boston stores one day recently and the other was a personal donation of D. A. Schulte, head of the corporation.

PRIZE FOR TUNE AT 'BURIAL'

The Boston school boy or girl who suggests the most appropriate musical composition to be played at the burial of "General Depression," between the halves of the Holy Cross-Boston College football game in Harvard Stadium on Thanksgiving Day will be given tickets for the game by Simon E. Hecht, chairman of the overseers of the public welfare.

Profits derived from the game are to be used for shoes and clothing for Boston's poor.

Massed bands of Boston College and Holy Cross are to play during the burial exercises. Mayor Curley will appear in the capacity of chief mourner.

It was originally suggested that Schubert's "March Militaire" be played but the mayor decided that was too much of a compliment to hard times.

Injunction in Stock Redemption Case

A temporary injunction restraining the Kidder Peabody Acceptance Corp. from redeeming any shares of Class B preferred stock, until further order of the court, was issued today by Judge James B. Carroll of the Supreme Court.

This action was taken in response to application by certain holders of Class A preferred stock, who claimed that redemption of the Class B shares would result in an impairment of capital as against the Class A stockholders.

DRAMATIC CLUB TO STAGE PLAY

The first production of the winter season of the Newton Dramatic Club will be given tomorrow night at the Newton Center Woman's Club.

The play, "Lilies of the Field," in which the heroine goes Victorian and appears in a succession of beautiful period gowns, is directed by Mrs. Everett W. Varney. Leading roles, the daughters, will be portrayed by the Misses Rosalind Harris and Josephine Tyler.

FIRING SQUAD AT BURNS FUNERAL

A military funeral was given ex-Patrolman William H. Burns, of 26 Arlington st., Brighton, following a high mass of requiem in St. Columbkille's Church today.

The body of the police officer who retired last month after 35 years of service in the Boston police department was accompanied by a detail of police from Division 21, and members of the Allston Post, Veterans of Foreign Wars.

A firing squad fired three volleys over his grave.

DISTRIBUTION OF 1932 AUTO PLATES WILL START TOMORROW

OWNERS URGED TO FILE EARLY APPLICATIONS

Plates Available for Those Who Call at Pier Will Start at No. 575,001

Distribution of 1932 automobile number plates over the counter at Commonwealth Pier will start tomorrow, Registrar Morgan T. Ryan announced today.

In disclosing final plans for registration, Ryan declared that emergency instructions to the first 100 000 registrants as to how to secure reassignment of their numbers are still applicable.

MAIL APPLICATIONS

It is permissable, but not necessary, for this group, he said, to personally take care of the mailing of their applications to the registry on or before Saturday, November 28.

But the insurance companies, agent and brokers, will see to it, he advised, that all applications in the 100,000 class which are left with them on or before November 28 are filed in ample time for the reservation of the numbers.

Owners having reserved numbers or desiring reserved numbers are requested not to bring their applications to the registry but to mail them or let their insurance agents take care of them.

START AT 575,001

Number plates assigned for distribution over the Boston counter tomorrow start at 575,001 and only plates in this series are available for persons going to the pier.

Distribution of plates over the counter at the various branches of the registry will start next Monday. All autoists are urged to attend to their registrations at once.

COBB MAID TELLS OF FATAL QUARREL

Early last Thursday night, Margaret Davis, 18, was discharged from the employ of Mrs. Justin L. Cobb, Jr., at Mansfield. It was while she was preparing to leave with her belongings that she claims to have heard a quarrel between the Cobbs. The roar of gun which followed resulted in the death of Justin L. Cobb, Jr. Miss Davis told of parties at the Cobb home at which many of the young couples of Mansfield were present. (Staff photo.)

CITY CLUB IN FETE TO HEAR BAKER TONIGHT

Mayor Curley on Same Program In Celebration of Silver Anniversary

Former Secretary of War Newton D. Baker came to Boston today to be the leading speaker tonight at the first formal event in the Silver Anniversary Week program of the Boston City Club.

The gala celebration opened yesterday with tournaments in bowling, billiards and various games.

The week of celebration is noteworthy in that it is the first birthday the club has celebrated since it was founded in 1906, when it was opened at 11 Beacon st. It was moved to the present quarters at Somerset st. and Ashburton pl. in 1913.

MAYOR TO SPEAK.

An extensive program for the week has been prepared by club members. Tonight will be anniversary night. The meeting will be held in the club auditorium with accomodations also being reserved in the dining rooms.

Members are invited to bring guests to the meeting tonight and no tickets are required. Tomorrow the tournaments in billiards, bowling and other games will be continued.

On Thursday, Founders' night will be observed. Edward A. Filene, one of the club's founders, will preside. He will introduce Mayor Curley, who will also speak. Tickets are required for this part of the celebration and members are urged to procure them from the civic secretary at once.

The program will be held in the auditorium, but amplifiers in the main dining room will enable those who cannot secure accommodations to hear the speaking program.

FRIDAY LADIES' NIGHT

Friday night has been set apart for the ladies and special plans have been prepared to enable them to participate in the Silver Anniversary celebration. A special dinner is planned for the main dining room at 6 p. m. and following this the club will be open for inspection. There will be dancing from 8 p. m. until midnight in the auditorium.

On Saturday afternoon radio returns of the Harvard-Yale game will be given in the auditorium. Moving pictures will be shown before the game and between the halves. Members will be allowed to bring their boys to this feature, as it will take the place of the Sons of Members' banquet, originally scheduled for Saturday evening.

The Anniversary Week will close next Sunday with a memorial concert in the auditorium. There will be open house that day.

$1000 Fine, Year in Jail in Rum Case

In Somerville court today Edward Ashjian, of Barnard st., Dorchester, was ordered by Judge Sturtevant to pay fines of $1000 and serve sentences aggregating a year in the house of correction. He was found guilty of keeping and exposing, and illegal sale of liquor. Police said it was his second conviction. He appealed.

4 Battle Cruisers Due Here Tomorrow

The cruisers Concord, Trenton, Marblehead and Cincinnati, expected at the Boston navy yard today, will not arrive until tomorrow according to radio advices. They will dock here to give crews shore leave for the Thanksgiving holiday. A fifth, originally assigned to Boston, the Milwaukee, has been diverted to New York.

HEADACHES caused by ACID

ACIDITY haunts its victim like a shadow. No appetite; what you do eat disagrees, causes flatulence and makes you sluggish. Work is an effort. Before night, a headache.

Do you know what is wrong? An acid-soaked system! Too many acid foods. But you need not dig your way out of this difficulty! Take a tablespoonful or two of Phillips' Milk of Magnesia.

From the hour you relieve that acid condition you will feel like another person. Every spoonful of Phillips' Milk of Magnesia will neutralize many times as much acid. Take it when stomach nerves are over-stimulated through worry, or excitement; when everything ferments in your stomach, and waste matter is poisoning the bloodstream or whenever the bowels are clogged.

Phillips' Milk of Magnesia has a gentle, laxative action. It is ever so much better for one than the harsh purgatives that upset the stomach or weaken the bowel muscles. An occasional dose of Phillips' Milk of Magnesia is all that is necessary to avoid those periodical attacks of sluggishness so apt to occur with any person who does not get a great deal of physical exercise.

Phillips' Milk of Magnesia is sold at drug stores everywhere in 25c and 50c bottles. Be sure to say "Phillips'" when you buy. Then you're sure of getting the product that doctors prescribe.

The ideal dentifrice for clean teeth and healthy gums is Phillips' Dental Magnesia, a superior tooth-paste that safeguards against acid-mouth.

ARBUCKLE MADE WILBAR'S AIDE

Atty. George W. Arbuckle, 42, of Sea st. Quincy, former sergeant in the Metropolitan District Police, was appointed today by Dist.-Atty. Winfield M. Wilbar of Norfolk and Plymouth Counties, as an assistant district attorney.

The Quincy attorney, a World War veteran and exalted ruler of the Quincy lodge of Elks, is married and the father of two children.

While a police sergeant he studied law at Northeastern University and received his degree in 1925.

He fills the post vacated by the resignation of Asst. Dist.-Atty. William P. Kelley of East Braintree, who left to devote more time to his private practice. With the departure of Kelley, Asst. Dist.-Atty. John Sullivan was moved up to first assistant.

Girl In 4-Story Fall

Slayer Dart Makes Plea for New Trial

An appeal to the Supreme Court in behalf of Wilfred F. Dart, of Newton, now serving a life sentence for the murder June 13 of Charles Bernard, of Jamaica Plain, in a bootlegger's quarter, was filed today by Atty. Joseph Bryer.

The appeal is based on exceptions taken during Dart's trial two weeks ago.

Driver Held After Hit-Run Accident

Francis H. Crowley, of Glenwood rd., Somerville, was arraigned in Waltham district court yesterday on a charge of leaving the scene of an accident without making himself known and was held for a hearing November 23.

BAKER PASSES UP 'POLITICS'

Newton D. Baker, wartime Secretary of War and one of those mentioned as a Democratic presidential possibility, who arrived in Boston today, met political questions with the reply that he was not politically minded.

"We are incorrigibly politically minded in this country, but I am not," he said, with a smile.

He arrived from Cleveland, his home city, at the Huntington ave. station, coming here for two speeches, one at the Chamber of Commerce this afternoon and the other at the Boston City Club this evening.

From the train he went direct to the home of Edward A. Filene, the merchant, on Otis pl., Beacon Hill, accompanied by Col. Hugh W. Ogden and Thomas J. Feeney, Chamber of Commerce directors, who met him at the station.

"The only thing I have on my mind is what I am going to speak about," he said in response to a volley of questions by reporters about the League of Nations and the prospects of various prominent Democrats for the presidential nomination, including his own prospects.

MAN SEIZED IN SO. END BREAK

Trapped behind a safe in a filling station at East Dedham and Mystic sts., South End, early today, Harold F. Delorey, 37, of Norway st., Back Bay, was arrested by police of the East Dedham st. station.

He will be arraigned in Municipal Court charged with breaking and entering.

Police allege Delorey gained entry to the station by breaking a window in the front door. They claim he then cut the telephone wires and pulled the desk. He was seen entering the building by a patrolman, who called aid from the East Dedham st. station nearby.

Write a Name Here for this Movie Actress .....

WIN $750.00 CASH

Here is a movie actress in need of a name. Give her yours, or any other name you think of, it may mean $750.00 in cash to you.

THIS extraordinary announcement has attracted the attention of representatives of leading magazines and newspapers throughout the country and we are sure it will interest you because your suggestion may be the name wanted. This means you can be richer by $750.00 cash if you mail it to us at once:

This movie actress, whom you have probably seen on the screen of your favorite motion picture theatre, is the beautiful Helen Mann. Like most of the stars, she prefers to use a name other than her own, and we have decided to help her obtain it by giving $750.00 in cash to the person who is quick in sending us the most suitable name.

Now what shall we name this beautiful and coming star? Most any name may win. It may be your very own, a name of a friend or relative, or a coined name made up by you. Just make it easy to pronounce, and easy to remember. But send it right away, or you may be late for the prompt prize.

Take a pen or pencil right now and fill in your suggestion for a name at the top of this announcement, tear it out and mail to us with your name and address. There is absolutely nothing else to do to win this big cash prize of $750.00.

$250.00 EXTRA FOR PROMPTNESS

Bear in mind only one name must be submitted by each contestant. If the name we choose has been submitted by a number of people, everyone submitting that name will receive $500.00, and all winners whose name has been mailed and postmarked before Nov. 22, 1931, will receive an extra $250.00, or $750.00 in all. Send your name at once; be in time for the promptness prize, and you will be notified immediately the approximate time of the prize award. Please remember any name may be the winner, so help this beautiful little Hollywood girl by sending your name today. All entries must be sent to the Publicity Director's office. (C) HMPCO 1931

APPEALS YEAR'S TERM IN AUTO FATALITY

Broken Rim Fit Reserve Officer McLean's Car After Crash in Woburn

Thomas S. McLean, a reserve on Medford police department, was sentenced to one year in the House of Correction in Woburn district court today for hit-and-run driving, in connection with the death of Charles Clark, 80, of Burlington, on October 14.

He appealed and was released in $1000 bail for trial in Superior court. A manslaughter charge was dismissed, and Wilbert A. Larsen, another Medford reserve officer, was freed on a charge of being an accessory.

HEADLIGHT NAILS HIM

Testimony concerning a broken headlight on McLean's automobile caused his conviction. McLean testified that the headlight had been broken for some time before the accident, but Judge Morton decided from police testimony that it was smashed in striking Clark.

A feature of the hearing was the appearance of former Dist.-Atty. Robert T. Bushnell of Middlesex County as counsel for the two accused policemen, and Asst. Dist.-Atty. Frederic A. Crafts, who formerly served under Bushnell, as the prosecutor. Crafts is also an associate justice of Waltham District court.

Thomas Dobbins of Burlington testified to finding Clark's body as an automobile vanished in the fog. Nearby he found a headlight lens and rim

FIT DAMAGED CAR

Woburn police told of receiving the report of the accident and catching in Winn st. for automobiles. They stopped McLean's car because the headlight flickered. The rim and lens were later found to fit this machine.

All the police agreed there were no signs of liquor on either of the accused men.

Several character witnesses were present, including Medford police officials, but Judge Morton said he would not hear them, as he took it for granted the men were of good character or they would not be on the police force.

Meeting to Protest Anti-Jewish Riots

A mass meeting will be held by the Boston district, Federation of Polish Jews in America, this evening, at the Temple Mishkan Tefila, Seaver st., Roxbury, in protest against the anti-Jewish riots that have been going on in Poland during the past 10 days in which hundreds of Jews have been injured and thousands of dollars of property destroyed.

Fair and Warmer Weather on Way

Fair and warmer tonight was the forecast made by the Boston weather man today, but he spoiled it by predicting another cloudy day tomorrow. There is a warm wave coming from the Midwest, bringing with it unsettled weather.

Hopes for a fair, snappy weekend center in a cool, high-pressure area now centering about the Rocky Mountains.

HEAVY VOTING IN NINE CITIES

Heavy early morning voting marked several of the primary elections being held in nine Massachusetts cities today.

This was particularly true of Newburyport, where Mayor Andrew J. ("Bossy") Gillis predicted that the women voters would place his name at the top of the ticket, and in Haverhill, where a local fight over control and management of the three hospitals there was the center of interest.

"BOSSY" IS CONFIDENT

Voting in Peabody was very light during the early hours.

Five other candidates are battling the fiery mayor of Newburyport. A total of four will be nominated.

The vote in Malden was light because of the fact that there were no ward contests in four of the seven wards of the city.

Other primaries are being held in Brockton, Lawrence, Westfield, Gardner and Taunton.

In Malden, Mayor William Hastings seeks a third term. He is opposed by Ernest Butler, former chairman of the school committee and now chairman of the Malden Forum; Rep. Burt Dewar, former Alderman Frank E. Simpson and Harry Senders.

The Newburyport campaign has been lively, with Mayor Gillis fighting for re-election. Others seeking one of the two non-partisan nominations are former Councilman Gayden Morrill, President Eugene Twomey of the City Council, Edward M. Hoyt, John F. Leary and Henry Kipp.

EIGHT SEEK MAYORALTY

In Brockton Mayor Harold B. Rent, seeking re-election, has Alderman Horace Baker and Mrs. Florence Bartlett for opponents in the Republican primary. Rep. John Lyons, former Mayor William L. Gleason, former Alderman William H. Powers, former Alderman Andrew T. Clancy and John C. Handrecken are the five Democratic candidates.

Eight candidates are in the field for two nonpartisan nominations for the Lawrence mayoralty following the decision of Mayor Michael H. Landers not to seek re-election. They are former Congressman Robert S. Maloney, former Senator Richard A. Gibbons, former Mayor William P. White, former Alderman Michael M. Garvey, Daniel H. Kelleher, Patrick O'Connell, J. Herve Couture, and Samuel Bramhall, Communist agitator.

AWARDS GO TO TWO FOR TIPS

their names withheld divided first prize in the Boston Evening American's news tip contest this week, both displaying alertness on big stories.

One prize of $7.50 is awarded for first information on the Attleboro death of Dr. Frederick J. Carley, who was found shot to death at his home.

The second $7.50 goes to the other modest chap for his exclusive story on the slaying of Irene Bamforth by her criminally insane father at Bridgewater State Hospital.

Also split is the second major award of $10, one half going to Capt. M. J. Flaherty of Boston Fish Pier for his tip on rescue of trawler crews, and the other half for a tip on a Berlin, N. H., murder story by a tipster who wishes the name withheld.

Third prize of $5 goes to Dennis O'Hare of 5 Milford st. for his tip on a South Station train crash.

To still another modest tipster who wishes his name withheld, $4 is awarded for a tip and photographs on the heiress missing from Wellesley.

Awards of $2 each are made to George Hatch of 1488 Columbia rd., Dorchester, who sent in a tip on the Northern ex-dock strike riot; Fred M Devlin of 372 Main st., Everett, for a tip on the arrest of the attacker of a Malden probation officer, and Irving Schulman of 121 Chambers st., West End, for tip on the plunge of a man and woman from a West End window.

THEFT AT STATE HOUSE DENIED

Fears that the office of Lieutenant-Governor William S. Youngman in the State House had been looted were dispelled following an investigation by Superintendent of Buildings Fred H. Kimball.

The Lieutenant-Governor found indications that the lock on the filing cabinet had been tampered with and some of the documents appeared to be missing.

Superintendent Kimball started an investigation and reported that in his opinion there had been no breaking of the lock or entering of the filing cabinet itself.

COURT DISBARS ATTORNEY

Alleged misappropriation of funds of the estate of Mrs. Martin J. Shugrue, of Beacon st. widow of a Massachusetts Institute of Technology professor has resulted in the disbarment of Henry W. Beal, Boston attorney.

Decision to disbar Beal a member of the faculty at Boston University Law school, was made by Justice Wilfred D. Gray in Suffolk Superior Court.

A petition to disbar the attorney was filed by the Boston Bar Association last July.

The petition stated that Beal misappropriated $5700.

Safe Pleasant Way To Lose Fat

How would you like to lose 15 pounds of fat in a month and at the same time increase your energy and improve your health?

How would you like to lose a load of unhealthy fat that you don't need and don't want and at the same time feel better than you have for years?

How would you like to lose your double chin and your too prominent hips and at the same time make yourself so attractive that you'll compel admiration?

How would you like to get your weight down to normal and at the same time develop that urge for activity that makes work a pleasure and also gain in ambition and keenness of mind?

Get on the scale today and see how much you weigh. Then get an 85c bottle of Kruschen Salts which will last you for 4 weeks. Take one half teaspoonful in a glass of hot water before breakfast every morning—cut out pastry and fatty meats—go light on potatoes, butter, cream and sugar—and when you have finished the contents of the first bottle weigh yourself again.

Now you will know the pleasant way to lose unsightly fat and you'll also know that the 6 salts of Kruschen have presented you with glorious health. Leading druggists in America over sell 3 times! Return the empty bottle—if not supremely satisfied—money back.

Wonderful results

"I WAS very nervous. I could not stand up under any work. Mother had used Lydia E. Pinkham's Vegetable Compound and said it would help my case.

"I tried it with wonderful results. It quieted my nerves and strengthened me. I have gained weight which I needed.

"Now I can do my work and feel well, thanks to the Vegetable Compound." Mrs. Elmer Shulze, R No. 1, Krakow, Wisconsin.

Dan Wiggin used to deal in horses. But he refused to buy at any price on the owner's say so. He preferred to drive the horse himself and those who came to sell well remember Dan's rule of reasoning—"What this critter's got and what he lacks will all show up on the straightaway between here and the Four Corners."

Dan Wiggin has gone, and dealing in horses is next-door to a lost art.

But the straightaway is still there—a smooth, tempting stretch of macadam. And the straightaway plus Dan's rule of reasoning is about the surest way to judge a motor fuel.

Try Jenney Gasoline on that basis—"What its got will all show up between here and the Four Corners."

ALL WOMAN NEEDS TO BECOME JEALOUS IS IMAGINATION

By HELEN ROWLAND

MAY MAY LAUGH or growl at woman's foolish feminine weaknesses; but if she lost them all, he would cease to find her interesting.

* * *

A woman doesn't have to have a good reason for being jealous —all she needs is a good imagination.

* * *

Once a woman has permitted a man to think that she is in love with him, one might as well try to unscramble an egg as to attempt to get that notion out of his consciousness.

* * *

It is all right to coddle your husband a little; but when you start picking up his things and waiting on him as though he were a prima donna, you are simply running him for his next wife.

* * *

Marriage may be full of problems, heartaches and surprises, these hectic days, but you must admit that there are very few dull moments in it.

* * *

A man is not old, when his arteries begin to harden and his knee-kicks lose their flexibility—but, when his emotions become so petrified that he can't even IMAGINE himself in love.

* * *

An old-fashioned woman is one who remembers the time when there were lots of tiny ifs between the first glance and the first kiss.

* * *

A woman can escape a lot of arguments and heap a lot of friends, if she can just manage to look blank and protest that she doesn't "understand politics."

* * *

Every word a woman says in a curtain lecture GOES—goes in one ear and out of the other!

A really "thoughtful wife" is one who buys a rug to match her husband's cigarette ashes.

Education and Cleanliness Rout Typhus

By Dr. R. S. COPELAND

TYPHUS fever is a disease associated with filth and unhygienic surroundings. It is easy to understand why this disease was so prevalent in the days of poor sanitation and unspeakable living conditions.

Somebody has said, "the history of typhus is the history of human wretchedness." This is a true statement. As civilization and education have spread over the earth, this disease has greatly decreased.

Typhus fever is often confused with typhoid fever. But the diseases are quite different and run different courses.

As in typhoid, there is constant fever which lasts about two weeks. A reddish rash appears on the skin, from the third to the fifth day. It differs from typhoid fever in that it rarely results in complications. However, really serious cases of typhus fever are occasionally seen.

The prevention of the disease is largely a matter of personal cleanliness. It is also a problem related to the economic welfare. Dark, crowded unsanitary homes are favorable to infection with typhus fever.

The general management of typhus fever is very similar to that of typhoid fever. It consists essentially of good nursing, proper food, and isolation of the patient.

It is very important that the patient be removed from actual contact with other people, so that the disease will not be spread. Where the temperature is mild and the climate suitable, it is best to treat these patients in the open air.

Most Impolite Hostess

By MRS. BEECKMAN.

DEAR MRS. BEECKMAN

Is it proper and good manners, when one is calling on a neighbor, for her to greet you (after you get in the house) with "Well, Mrs. So and So, what can I do for you this afternoon?" Then I had to say that I just came to see her for a few minutes. Since then I have been quite troubled over it, and have thought perhaps it was a polite way to tell me not to come again. Maybe I am all wrong and that it is perfectly proper, so will you kindly tell me if I am right or wrong?

This was indeed a most extraordinary thing for your hostess to say, and apparently she is quite unused to having friends come to see her in the casual, friendly way in which you came. It certainly wasn't a polite way of telling you not to come again, but if I were you, I shouldn't be thrilled over the prospects of going to see her again.

Wedding Announcement

DEAR MRS. BEECKMAN:

I am going to be married soon. We are expecting to send out engagement or wedding announcements to our friends and relatives. Which is correct? When are they to be sent?

ELINOR.

Between these two, there is no choice as far as correctness goes—for engagement announcements, the formal kind, I mean are decidedly incorrect.

Wedding announcements are in excellent taste, and are sent to those who have not been invited to the wedding. They are formal, engraved, and are ordered some time before the wedding, so that they may be all ready to be sent out directly after the ceremony has been performed.

The Beauty Box

IF YOU love a talcum rub after the daily bath, there's a new way of getting the powder distributed. It is a powder atomizer and a grand affair it is, too. No waste then, getting powder over the bath room rug, spilling it on the washbowl. Perfume makers are producing talcums that are scented with the same essences as their toilet waters.

Only a pretty woman can display arms. They must be extra nice ears at that. The organ of hearing is a strictly utilitarian mechanism, contributing not at all to the sum total of pulchritude. If they show, they should be powdered carefully, touched lightly with rouge. Young persons with outstanding ears can flatten them to the head by strapping down with adhesive tape at night.

Rollo Grabs Kiss From Venice

Continued from Yesterday.

"I SIMPLY can't understand you these days, darling," Lois [illegible] "Do you remember how hard I used to work on your prospects?"

"Yes," said Venice. "The cocoon is metamorphoding. Is that the word?"

"It's a swell word, whether it's the right one or not. Walk! I tell Jerry. He informed me the other day that you're the most intriguing looking of the batch of females that came out our year."

Venice quiet gravely reflected that her appearance had in no way changed. It was curious how a little notice in gossipy columns gleaned you notice in many. Superficial, really, and stupid. Like a flock of sheep. Where one found the pastures green the others followed to graze. She knew no genuine satisfaction for the laurels she was attaining only a secret scorn for the donors of favors.

At dinner much to her discomfort Ernest Price voiced her hidden doubts and she felt it necessary to defend what she didn't actually believe.

"Venice is going to the Yale-Princeton game with Roland Wainwright," Nolly told him.

"It ought to be a good game," he remarked.

"I didn't mean that," protested Nolly. "I was thinking of that handsome, dashing young man picking Venice."

"She's too good for him."

"Why?" asked Venice defensively.

"He's a paper doll. Prettily drawn, cut from good expensive paper."

"You're always bitter about society's gods," Venice could not resist sparring.

"And you're always bitter about your lonely self."

"What other self," asked Nolly, intensely interested at this duel of words.

"The grave, shy self Venice is doing her best to smother."

Nolly gazing at his wide, solemn eyes behind their glasses, liked him but wondered how any one could be in love with him. Like consorting with a vivisectionist.

"Never mind, Venice," he said kindly. "You can be honest with me one of these days."

She blushed. He was uncanny.

Mr. and Mrs. Wainwright drove with Venice and Rollo to the game. Venice was glad. The conversation was desultory and unimpaired but being four-sided it saved her the mental effort of keeping the faun in his raccoon coat amused.

It was an exciting game More than the actual football. Venice enjoyed the human wave, wave on wave up the tiers of the bowl All at once the whole ocean would rise and fall with a mighty scream. Cries hung heavy as something tangible on the air. Down on the gridiron one of the teams made formations, scattered, stopped, huddled. Some one lay flat on the ground, limp and inert, and was carried out to cheers that raised his name on high.

Back in New York around mid night they stopped at the Wainwrights' for a delicious supper awaiting them in the panelled, spacious dining room. Then Rollo took her home.

Before her own front door he attempted to kiss her. She felt cool and impartial and not as if she was a part of the scene at [illegible]

"Please," she protested, drawing back against the door.

"Don't be silly, Venice. I think you're the most wonderful girl I've ever known."

"I hate penny thrills."

"Why should it be a penny thrill?" His forth mind keen. "Oh, no," she laughed, and turned to unlock the door.

"Are you one of these prudes?" he demanded irritably.

"I don't know what I am,' she answered, quite honestly. She was a bit bothered about what she should do. She must save him in attendance, but she wasn't going to hold out imitation bait. She had succeeded in wresting her hand loose from his and had opened the door. She stepped inside, holding it wide. "It's been a perfect day, Rollo. Thank you ever so much. Next time come to dinner with me and we'll try to make me out."

He laughed suddenly

"You're a dame sight too intricate for me" he said and took a quiet step towards her. She was in his arms and his mouth was against hers. She did not struggle, remained cool and limp and indifferent. When he let her go his face was faintly chastened

"It was hardly worth even a penny. I'm sorry you did that, Rollo."

"I'm sorry too," he said surprisingly enough. "No one enjoys a chilled dish."

"And no one enjoys being referred to as something to eat," she retorted. She gently closed the door.

A few days later she went to

To half pint of water add one ounce of bayrum, a small box of Barbo Compound [illegible] one-fourth ounce of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Apply to the hair twice a week until the desired shade is obtained. It imparts color to streaked, faded or gray hair and makes it soft and glossy. Since will not color the scalp, is not sticky or greasy, and does not rub off.

CHANEL EVENING FROCK

Sheer White Lace Used Effectively

SKETCHED IN PARIS

Sheer white lace is used effectively in this Chanel evening frock, an intriguing model with quaint, puffed sleeves and a double peplum. The bow in back suggests a bustle. The bodice inspiration is clearly "Basque" in the manner of drawing in the waistline fullness over and at the back of the hips. The neckline is rather high in front and is rounding in line.

Goodbye to Old Spain, For Senoritas Are Voting

By WINIFRED BLACK

THEYRE voting in Spain—the senoritas and the senoras.

Conchita and Consuella, and Manuela—I can hardly believe it, can you?

Good-bye to the mantilla. Farewell to the fan.

And, oh, those delightful high combs carved in tortoise-shell and set with silver, they'll have to go, too.

And all the entrancing little high-heeled slippers—dear, dear, they can't wear them to the polls,

see Nolly and tell her all about the game. Her description was glowing and exciting. It held all the joyous elements she would have liked it to hold, none of which she had actually been able to feel. Afterwards she walked home across the Park.

Ahead of her, for at least a quarter of a mile, a young man hurried who gradually attracted her interest, first with his attentions to a squirrel, later with his solicitude for a small boy who had fallen down and finally by the grace of his profile that she glimpsed. It was Drake Farrelly.

She felt sure. She broke into a little run until she was near enough to fear that he would hear her hurrying footsteps. Then she walked as quietly and as quickly as she could. Her heart was thumping. She felt a fool and very excited

The Art of Cooking Bacon

By MARTHA LEE.

"YOU CAN throw that stuff out as far as I'm concerned!" ann the man of the house a nose took an angle of 45 degrees as he sniffed at the stripe of bacon that flanked his morning EGG.

And really he couldn't be blamed, for the bacon was charred in the middle and greasily soft at the ends. All of which was SOME ago before my good Betty who-helps-me-at-home had learned the art of perfect bacon baking.

Today she arranges the bacon in over-lapping layers in a baking pan and bakes it in a moderately hot oven, pouring off the accumulated fat once or twice during the process. Which produces bacon so deliciously tender and crisp that it can be eaten from the fingers. Or she places it in rows in a cold heavy aluminum frying pan, sets it over a low heat and cooks it very slowly to a delicate brown.

Of course there is bacon and bacon, and some bacon just won't cook beautifully, no matter how careful you are, but when you purchase rasher bacon, put out by a reputable company, you are pretty sure to be getting the finest, sweetest, sugar-cured bacon that the market affords. It's because of this delicious sugar-cure that we must be careful to place the slices in a cold skillet over low heat, since sugar burns readily.

While the fresh tomatoes are still with us, do try cutting them in halves crosswise, sprinkling with a little salt, pepper and sugar and arranging them in a buttered pan. On the tomato halves arrange two or three slices of bacon and place in a hot oven or under a broiler until the bacon is crisp.

Another time try creamed potatoes to which bits of crisp bacon have been added. Make the ordinary cream sauce, using bacon drippings for the shortening, and add to the sauce one cup of finely chopped cooked bacon and 2 cups of diced potatoes, together with a tablespoon of minced parsley and a ½ teaspoon of minced green pepper, and ½ tablespoon of minced celery. Cover and reheat over hot water or a low flame. Sprinkle with paprika and serve very hot.

Faithfully yours,

Martha Lee

Her First Love, Girl Writes

By BEATRICE FAIRFAX

DEAR MISS FAIRFAX

I met a young man two weeks ago. He is three years older than I. I never had that feeling of love for anyone before. The man takes a drink occasionally. I've heard he is crazy about me. He told me it would never do for us to go together often. I asked why, and he said he thought too much of me. I've had several dates with him. Please advise me whether to keep company with him or not.

WORRIED.

Dear Worried: Why sign yourself "Worried" when you seem to be getting along swimmingly. The only fault you have found, that demands watchfulness is his drinking. Never go out with him when he has been drinking.

Daily True Story

A Woman's Intuition

"AND SO JERRY, laugh all you want to, but a woman with brains can be as good a detective as any man might ever dream to be, particularly"—and her voice took on a metallic tone that Jerry Barlough didn't believe could possibly come from such lips—"a man who is too bull-headed to make the best of his opportunities."

Barlough was in charge of the special intelligence unit whose assignment just then happened to be running down and bracketing up the bootlegging ring that had been playing ducks and drakes with all the law enforcement agencies from Maine to the Carolinas.

He'd found himself up against a far cleverer group than his unit, made up as it was of sleuthing agencies of the whole eastern department, had ever crossed swords with in all of Jerry Barlough's 10 years of work.

He'd said as much to June Hackley this drizzly night, when he called at her apartment. He was engaged to June and he didn't think he was violating even the tight-lipped code of the special units when he talked over his problems with her.

But like all men, he'd snickered openly when she'd said that all detective agencies and detectives need most was a woman's head to do original thinking. That had put the metal into June's voice

EQUIPPED WITH RADIOS

"But, sweetheart," Jerry told her, "this is a purely scientific proposition. These fellows have 'mother-ships' almost as big as liners. These ships load in Nova Scotia, and in the Bahamas. They follow regularly charted courses, far enough out to be beyond the jurisdiction of our government. They keep well outside the 13-mile limit.

"On shore they have radio sending stations. The mother ships, of course, are equipped with radio. They send messages in, coded of course, that tell when and where the speedboats are to meet with the big ships.

"Our code men have deciphered those messages. At least we're sure we have their code. Yet when we concentrate the coast guard at the points where the meetings are to be held we never find the booze boats there. Of course, there's some link that's missing in our chain, some code proposition probably that tells the rum-runners what signals really call for a rendezvous and which signals are just a blind to throw us off the track."

"Then," cut in June, "why don't your code expert pick up that secret stop-or-go sign?"

"If your feminine intuition is so developed," Jerry answered testily, "why don't you pick up that signal for us?"

For a second or two their glances locked.

"You've got your chance," Barlough told her, sharply. "We're listening in tonight, to try all over again for the loose end of the mysterious thread. You've an invited guest."

Barry, the radio man, hooked up his set with a loud speaker, so that the incoming pickup might be heard by all in the room.

JUNE GOES HOME

June, Barry and Barlough sat through an hour of the incessant chatter of the wires. Then, from a ten-meter reception set there came a sharp, crackling sound that seemed to become a whine, almost a shriek. It lasted perhaps ten seconds and then died away as suddenly as it had started.

"More of that static," Barry muttered, and swore softly to himself.

"Funny, too," Barlough told the girl. "Every night, about the same time, the same kind of a sound on the same wave."

June's brow furrowed in a frown.

"Do your dictaphone records show these freak sounds for each night you've received them?" she asked at length, and Jerry nodded.

"Can I have those records, and a dictaphone man, to work out something I have in mind?"

And again, with some obvious condescension, Barlough told her that she might. For twenty minutes the girl was in close conversation with Malloy, the man in charge of the transcribing machines. Then she insisted on going home."

Twenty-four hours later she was at the intelligence unit station again. As time drew near for the weird, air sounds she'd spent into the dictaphone room. She was back with Barry and Barlough when the sounds actually cut through the air.

Then she went quickly again to the other room. She came out with a record in her hand, took up a stenographic pad and paper and slipped back to the dictaphone room. When Barlough moved to follow her she laughingly closed the door in his face.

REMINDS JERRY OF PROMISE

Within ten minutes she was out again and laid before him two typewritten sheets of paper.

"I'm not a code expert," she told him, "but there's a lot of dots and dashes. See if they mean anything."

Barlough took the sheet, gazed at it and then went to the room where the decoding men were hunched over their desks. Perhaps an hour went by. Then the chief of the code crew ran back to Barlough, stopped him the result of application of the code keys to the message. After that all was bedlam. Barlough leaped to a telephone. He barked staccato orders. Outside fast automobiles roared away into the night, loaded with men.

But when he asked June how she got the message, she just held up a finger.

"Let's see if we're right," she told him.

HOW IT WAS DONE

Just how right she was showed when the raiders came back hours later on. Four bottles of speedboats had been surprised in the act of taking cargo from the mother ships, or when they sought to land those cargoes to waiting trucks on the shore. More than a hundred prisoners had been netted by the raiders. There was only an estimate of the amount of liquor seized.

"The biggest thing of the year," Jerry's lieutenants told him jubilantly.

Then the girl caught Jerry's eye and nodded. He went to her side and there was contrition in his voice when he asked her to explain

"You see," she told him, gently, "I'm a stenographer. I take endless thousands of words dictation from a dictaphone. Sometimes I've had the gearing go wrong and the words, the spoken words run together into a sort of a whine. I geared up a receiving dictaphone to six times normal speed when the freak sounds came on the air. It was just a hunch. But when I reduced the receiving set to normal speed it dissolved that whining sound into dots and dashes. It was all absurdly simple after the hunch that gave me the idea. You'll find, I'll bet a hat, that the senders of that series of strange sounds had some system to speed up their sending, and that the receivers unscrambled the noise just as I did."

When, in due course of time, promotion to division chief came to Jerry Barlough, with enough addition pay to make an immediate wedding both possible and imperative from his point of view, he solemnly pledged the new Mrs. Barlough never, never, never to again doubt the value of woman's intuition and woman's constructive thought.

BRUINS OPEN GARDEN ICE SEASON WITH FALCONS

BOSTON EVENING AMERICAN SPORTS

FANNING

By GEORGE UNDERWOOD

Lifting Ice Lid. ↑ *Schaaf Vs. Dorval.*
Bruins Backward. | *Charity Sockfest.*
Falcons Feared. ↓ *Bit of Football.*

HAIL! HAIL! THE GANG'S ALL HERE!

Hail! Hail! The Gang's all here! Your gang, my gang, our gang, The Bruins! Boston's entry in the Hockey Derby is straining on the leash and frothing at the mouth in eagerness and anxiety to get at the Detroit Falcons in the opening game of the season in the Boston Garden, tonight. The Bruins—Georgie Owen, who has supplanted Fred Hitchman as captain; Hitch himself, Eddie Shore, Cooney Weiland, Dit Clapper, Tiny Thompson and all the old Gang, save Dutch Gainor, who has gone over to the enemy, the Rangers, led by Art Ross, the Kid himself, and strengthened by five new members, who will make their home debut in Boston livery, tonight. The new comers include Bill Touhey from Ottawa, Yank Boyd of the Cubs, Alex Cook, brother of Bun and Bill of the Rangers and the two Jerwas, Joe of the Rangers and Frank from the wild and woolly northwest. When the shots start popping tonight only your old pal Red Beattie will not be on the firing line. It will be a few days yet before Red's broken leg is strong enough to enable him to don steel blades, grab a shillelah and get in there and mix it up with the rest of the b'ys.

The Bruins know they are not going to attend any meeting of the Tuesday Evening Sewing Circle. No Sire-e-e Bob! Not by the proverbial jugful! The Rosemen, largely because of the breakdown in the antiquated ice appartus at the Arena, their ante-season practice ground, are two to three weeks behind the other teams. Art Ross is so gloomy he hints the Bruins are not likely to strike their best playing gait before Christmas. The Falcons have a nifty outfit on the ice this year, including Ebby Goodfellow, the league's high scorer, who the Bruins thought so much of Prexy Adams offered a cool $50,000 for, and Hec Kilrea, ex-Ottawa, who most of those who know their hockey onions will tell you is the best wing in the league. The Falcons have an outfit worthy of meeting the Bruins at their best on even terms. Art Ross, wiping a Gil Dobian tear from his eye, says the Bruins will not be at their best for weeks to come.

The loss of the Montreal opening game with Sprague Cleghorn's Maroons apparently has Ross engulfed with gloom. But if Ross showed any public optimism the gang would ask for the smelling salts. The only time Art ever publicly opined the Bruins would win is that time in Montreal he espied a team of white horses drawing a load of hay and made all the boys get out, pull a wisp of hay and stuff it in their shirts, regardless of the itch. Such a good omen would make even a Scotchman optimistic. Art's forbears, you know, came from the north bank o' the Clyde. The Falcons after losing the opener to the Americans last Thursday struck their gait and beat the Rangers last Sunday night. They'll be out to make it 2 and 1, tonight. But with the Bruins seeking to get into the victory column the team from Henry Ford's town is going to have its troubles. The Falcons never have beaten the Bruins on home ice. Don't forget that, Clarice—don't forget that! If the Falcons should win tonight there will be nothing left for Art Ross to do but send the whole blamed outfit out in search of another team of white horses pulling a load of hay.

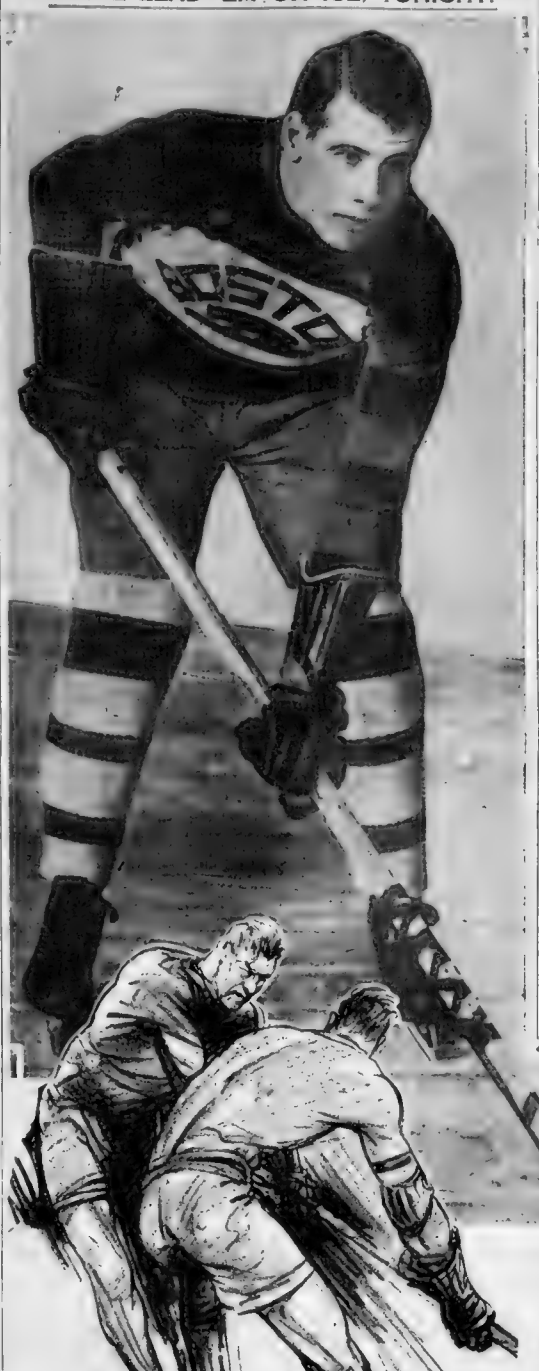
While you're howling your heads off in the Garden tonight, fellow fans and sister fannies, don't forget you're all coming back to the same place on Thursday night to howl even louder and more raucously over Ernie Schaaf and Jack Dorval. .Wow! What a fight that's going to be—Wrentham Dynamiter vs. Allegheny Woodsman for the Xmas Basket Fund! A charity card at Charity prices—$1, $2 and $3. You never saw a Xmas Basket Fund bout that did not warm the cockles of your heart. There never was a Xmas Basket Fund show in which the patrons were not given a real run for their money. The BOSTON EVENING AMERICAN does not "sell" any shoddy goods. You all will get the real fistic goods in the Boston Garden on Thursday night and you will see a fight that will be talked about for weeks to come. You're going to see a great fight and see it knowing that part of every dollar taken in at the boxoffice will go to give somebody's poor, unfortunate, suffering mother, father, sister, brother or child a Merry Xmas. The BOSTON EVENING AMERICAN'S Xmas Basket Fund is a tried and true charity. It is needed this year more than ever. .All together, boys, get together and put it over in the good old fashioned way!

Paul Bowser, who thought so much of the Xmas Basket Fund boxing show that he voluntarily refrained from staging the usual Thursday night wrestling show at the Arena, is helping out at another benefit, tonight. Paul is bringing a flock of wrestlers to the annual benefit and smoker of the North Cambridge K. of C. in St. John's School Hall. Eddie Casey and Joe McKenney are going to give football talks and Jack Sharkey, Ernie Schaaf, Jack Gagnon, Tom Kirby and other well known boxers all are going to help out. They have a flock of radio and vaudeville stars to furnish additional entertainment and Mayor Russell of Cambridge expects Governor Ely and Mayor Curley to enjoy the festivities along with him. Tonight will be a big night in K. of C. circles.

The second guessers say the Harvard-Holy Cross game ran true to score comparison form . . . Harvard beat Dartmouth by a lone point and Dartmouth beat Holy Cross . . . Harvard, therefore, figured to beat the Crusaders . . . Harvard beat Army by a lone point. Yale tied Army and Dartmouth. On score comparison Harvard should beat Yale by a close score . . . But how are you going to figure score comparisons when Columbia beats Dartmouth, Cornell wallops Columbia and then Dartmouth beats Cornell? . . . Harvard has a strong team and the country's greatest coach . . . Save Crickard and possibly Barry Wood Harvard has no "great" player . . . But it has a team of good players welded together into a perfect machine by a master football mechanic.

The President's Committee on Mobilization of Relief Resources meets at the Bankers Club, New York, today and several big additional sports features for the unemployed are likely to be announced . . . Too bad Harvard and Tulane or Tennessee couldn't meet in a post season game here in Boston with winner to meet Notre Dame in New York or Chicago! . . . Up here in this neck of the woods you don't hear about Gene McEver but down in Tennessee they think he's the greatest ever . . . Two years ago when McEver was a sophomore Tennessee was unbeaten . . . Last year McEver was kept out of the game through injuries and Tennessee's string was broken . . . But this year Gene is back in harness and Tennessee hasn't lost a game . . . Wonder if the football officials wear woolens under their linen knickers? . . . Bill Grimes says he gets chilly watching them! . . .

HE'LL LEAD 'EM ON ICE, TONIGHT!



It's your old pal GEORGE OWEN and he's in the same old defense position on the Bruins, but in the new role of captain. The Rosemen's new chieftain will lead the Bruins against the Detroit Falcons in the opening hockey battle of the season in the Boston Garden, tonight. Behind the former Harvard football, baseball and hockey star is the same old Bruin team supplemented by a flock of aspiring newcomers. The Garden officials expect a capacity crowd to see the lifting of the ice lid

NEW TIMING SYSTEM FOR OLYMPICS

Kansas City, Nov. 17 (AP)—A two-eyed motion picture camera will backstop the work of human timers at the 1932 Olympic games in Los Angeles.

One eye records the movements of a stop watch and the other catches the finish of the races. An electrical attachment on the starter's gun sets the watch in motion

In case of a dispute, the film can be projected and the race reviewed with the watch showing on the screen the time each competitor finished.

Gustavus T. Kirby, New York lawyer, and chairman of the advisory committee of the I. C. A. A. A., who developed the device, described it at the 42d annual convention of the Amateur Athletic Union in session here.

He obtained permission to use it from J. S. Edstrom of Stockholm Sweden, head of the International Amateur Athletic Federation, in charge of Olympic track and field competition

The camera will be used only experimentally at the 1932 games, however. If it is successful, Kirby said, it will be adopted to time many major championships

Oris Great Player, Says Coach Kerr

Colgate University, Hamilton, N. Y., Nov. 17 (INS)—Coach Andy Kerr said today: Johnny Orsi, captain of Colgate, is the greatest end I have ever coached and the greatest wingman and leader I have ever seen on a football field

I have coached all-American players and have seen performances turned in by the country's best gridiron men for the past 9 years

Orsi's playing against Syracuse on Saturday was a great piece of work and was the caliber of playing that he has shown while playing every game this season, as well as for the past three years. If I have ever coached an all-American Johnny Orsi is one."

A. Leetch meets Gusti tonight at the 20th Century room in another match of this tourney, which consistes Friday night.

The Daily Dozen

If President Hoover really wishes to abolish the army and the navy, he might give the job to the Notre Dame football team

But even then, the League of Nations would demand that the Irish team be disbanded, or reduced to seven players.

"Police break up riot at football game." "Fighters thrown out of ring."—Headlines. Draw your own conclusions.

Eddie Casey may be a great football coach, but he ain't no psychologist, as the boys around Harvard sq. luncheons remark. With the Yale game only five days away, he hasn't issued a statement saying that his team is crippled.

Only one of those breaks which happen in football prevented Princeton from having a clean slate this season. Before they really got started or knew what they were doing, the Tigers defeated Amherst

---

One reason for Princeton's failure on the gridiron this fall is the alleged yen on the part of the students for contract bridge. It looks as if the dummies played football between hands.

Short story of a Princeton vs Anycolleges grid battle. A grand slam.

Sing Sing defeated the Ossining naval militia eleven, 33 to 6 Only the guards can hold that team.

If football builds character, instils a spirit of unselfish sacrifice, teaches high ideals and all the other things claimed for it, our prisons will become real institutions of reform.

New words for that old ballad: "Please send my boy to prison, he'll learn the grid game there."

If this prison football business keeps up youngsters who were expelled from the fourth grade will stand as good a chance for fame as wearers of the Phi Beta Kappa keys.

By JOE CASHMAN

Hockey, with all its thrills and spills, comes back to Boston tonight when the Bruins, assisted by the Detroit Falcons, pry the lid off the local National League season at the Boston Garden, starting at 8:30 o'clock.

Few are the sports that have been hit by Old Man Depression and hockey isn't one of them. A full house will watch the Rosemen make their debut.

There will be no special ceremonies. There never have been at Bruins' openings. President Charles F. Adams doesn't believe in added attractions at any time

The Bruins will skate on the ice to the strains of "Paree," their theme song, the referee will drop the puck and the game will be on.

And it should be one of those knock-'em-down and drag-'em-out struggles that make hockey the most popular of winter sports.

The Bruins, champions or contenders for the past four seasons, open at home with the unenviable record of being the only team in the circuit that hasn't a single point to its credit. They have played only one game and lost that by a score of 4 to 3 to the Maroons in Montreal last Saturday night.

SHARKEY GO FOR DORVAL IF HE BEATS SCHAAF

TITLE FIGHT AT STAKE ON THURSDAY

Jack Dorval has signed to battle Jack Sharkey for the American heavyweight championship in the event he crashes through with a victory over Ernie Schaaf, Wrentham Tiger, in their 10-round bout at the Boston Garden on Thursday night.

The contracts were signed at the office of Matchmaker Billy Ames at the Garden. Dorval has agreed to box Sharkey for 12½ per cent of the receipts which will permit the Garden to offer Sharkey the champion's percentage of 37½ per cent.

When it was suggested to Dorval that to get the Sharkey match he must first lick Schaaf Thursday night, he predicted he would stop Ernie.

"Schaaf is a wide open fighter who comes plunging forward trying to win by a knockout," said Dorval. "I shall get Ernie off balance and nail him on the jaw with my right. There will be 214 pounds behind the sock, and I'll wager it will bring Schaaf down.

"They say Schaaf has never been knocked off his feet. He will have his first experience of kissing the canvas Thursday night.

"I have won 22 bouts without meeting a defeat. I don't intend to permit Schaaf to stop my smash for a shot at Max Schmeling. If I wallop Ernie, I'll then get ready for the Sharkey bout.

"I'll admit Sharkey is a great fighter, but so am I. His forearm glare won't bother me in the least."

Dorval Winds Up Hard Training Today

Dorval is down to 214 pounds and in the best condition of his career. He will finish his strenuous training at Joe Beston's Gym in Quincy, today.

Jack will take things easy tomorrow so that he will be in the best possible condition when he swings into action against Schaaf. Schaaf will also wind up his heavy training today. He is working at Schaaf's and Buckley's Gym on Cambridge st. The gym has been jammed each day with fans eager to see Schaaf in action.

Thursday's Go Major Bout for Ernie

Thursday night's bout will be Schaaf's first major effort in Boston since he became one of the most talked of heavyweights in the world. Ernie has gained international prominence when he stopped Victorio Campolo in New York.

Schaaf promises to show the same knockout punch that crushed Campolo, Maloney, Daniels and other sturdy heavyweights who blocked his path in his rush to fistic fame.

There has been a tremendous rush for tickets at the Boston Garden. Boxing fans are eager to see Schaaf and Dorval and are elated over the fact that this great attraction is being offered at $1, $2 and $3.

Cubs Make Local Bow Against New Haven

The Bruins Cubs will make their bow before a Boston Garden audience Saturday, night when they entertain the New Haven Eagles in the Canadian-American League series.

New color has been added to the Cubs' forces. The team got away to a bad start against the Indians in Springfield last Saturday night but the league leaders have a two weeks' practice edge on the Cubs.

The Cubs will present a new starting line against the Eagles with Eddie Burke and Lloyd Klein on the wings and Red Conn in center, Attacking against Manager Eddie Dwyer will be Paul Runge, Bob Taylor, Davis Downie, Joe McGoldrick and Alex Sutherland.

Assisting Yip Foster and Jack Pratt on the Cubs defense are Johnny Housner, the Pacific Coast giant, and Myles Lane, former Dartmouth sport ace.

One of the features of the Cubs-New Haven battle will be the appearance of Eddie Jeremiah in the Eagle forward line and Myles Lane in the Cub defense. Both were outstanding players at Dartmouth.

Other prominent players in the New Haven lineup are Duke Dutkowski, Frank Carson, Doggie Kuhn, former Truro, N. S., Bearcat and Eddie Convey.

CURFEW FOR N. Y. AMATEURS

New York, Nov. 17 (INS)—An 11 o'clock curfew, the latest in amateur boxing, will go into effect when the pre-Olympic bouts are held at Madison Square Garden next Monday and Wednesday nights, Martin A. Klein, president of the Metropolitan Association of the A. A. U., has announced that the newest ruling will become effective at Monday night's shows.

A curfew is something of a novelty in amateur boxing, but long deemed as a necessary precaution since the ruling is rescinded for other reasons, the time of six and eight hour amateur boxing shows will be passed. In the past, amateur boxing shows have lasted until 2 o'clock in the morning at the Garden.

It is generally believed that the curfew will earn note the practice of keeping the contest boxers waiting three and four hours before entering the ring for their second bout on the same night.

HARVARD HIGH HAT, IS CHARGE

New Haven, Ct., Nov. 17 (INS)—Harvard's disbarment of Ted Husing from radio announcing in the Harvard stadium only aggravated the situation, the Yale Daily News said editorially today.

Only a few would have remembered the word "putrid" had the affair been ignored, said the News, but every newspaper reader for the past week has had his attention drawn to it because of the Husing ban.

"'Putrid' as a term applied to anything Capt. Barry Wood does is certainly not merited," the News added.

Yale alumni discussed the affair in letters to the paper. One accused Harvard of "high hat superiority" and objected that Yale was deprived of a good announcer for Saturday's game.

Pres. Hickey Storm Center of Meeting

Chicago, Nov. 17 (AP)—President Thomas J. Hickey of the American Association, today faced what seems to be an annual campaign to unseat him, but apparently with the advantage on his side.

Club owners of the association, one of the three AA circuits, were in Chicago for the annual meeting and the big item on the business schedule concerned Hickey's tenure of office. The Hickey forces claimed four votes as certain, which would be sufficient to keep him in the office he has held for 18 years.

Schmeling to Show Here December 14

New York, Nov. 17 (AP)—Max Schmeling has arranged another exhibition tour of the country to put himself in condition for his expected heavyweight title defense against Mickey Walker in Los Angeles February 22.

The German slugger will open his tour at Boston December 14 and went up on January 16 at Oakland, Cal. He will carry two sparring partners with him on the trip and will box two rounds against each man in 23 cities.

Templeton Near Death at Stanford

Stanford University, Nov. 17—Robert "Dink" Templeton, famed track coach of Stanford University, is in a critical condition at his home here. Templeton is suffering from an internal disorder, and attending physicians state that if his condition becomes any worse they will hold no hope for his recovery.

Salem and Malden Are School Standouts

By GEORGE W. GRIMM

As the football sun is sinking two school teams loom up above all the rest, namely Salem high and Malden.

Both of these elevens are undefeated, with the former team not having been scored on. Malden had one tie game with Melrose.

But to offset this tie game it has defeated the strong Everett clan which tied Salem high. Malden has but one game left to play, tackling its arch rival, Medford, on Thanksgiving Day.

The Blue and Gold will be favored, but the Medford boys have turned in quite a few upsets especially on Turkey Day mornings. The Witch City eleven has two tartans left to pile on their schedule—Newburyport goes to Salem next Saturday with a team that has not been defeated, although it was tied by Lynn Classical.

The other game is with Beverly. With Bodger Carroll at the helm Beverly has come along with leaps and bounds, and has only lost one game this season, to Haverhill.

Salem-Malden Game Suggested

If Salem is able to make the jump over these two clubs and Malden defeats Medford, it would make a big attraction to have these two teams get together and battle it out for charity. Bill Broderick, the Salem mentor, and Mayor Bates have given their permission for such a game, and have been trying to get in touch with the Malden authorities.

The only comparison we can make between the two teams is the game that they both played Lynn English. Salem easily defeated the latter 19-0, while Malden had a tough struggle only winning out by intercepting two forward passes for touchdowns.

On the other hand Salem did not score against Everett, while the Blue and Gold pushed over two touchdowns.

Parquette, Salem quarterback, might raise havoc with the Malden team, as this boy shoots forward passes well. The only game in which his aerial game did not click was at Everett.

Warren McGuirk's eleven, with the exception of Warren Mulrey, is very weak on the defense for forwards, although it has quite a passing game.

Malden has the heavier line, but Salem offsets this with a fast charging forward wall that would give the Malden backfield in fast and snifty and blocks very well, and might do a job on the Salem ends.

BRUINS OPEN WITH FALCONS

Continued From Page 17

records, but neither does he want them holding up the rest of the circuit, and he has instructed them to "shoot the works" against the Falcons in an effort to get out of the cellar this evening.

The visitors, who have won one and lost one in two starts, have two big incentives to win. One is to stay out of the basement, a section of which they will occupy if they lose, and the other is to gain the honor of being the first Detroit team to ever halt the Bruins on Boston Ice. Manager Jack Adams has brought some fine teams here, but none of them ever succeeded in even tieing the Rose men.

Both teams will introduce several new players to local fans. Bill Touhey, star forward from Ottawa, will start at left wing on the Bruins first line, Yank Boyd, from the Tigers, and Frank Jerwa and Alex Cook, Western rookies, will see wing action on the third line, and Joe Jerwa, secured from the Rangers in exchange for Dutch Gainor, will sub on defense.

Falcons Strengthened by Ex-Senators

The Falcons picked up three Senators when Ottawa lost its franchises and this trio, Hec Kilrea, one of the league's highest scoring wings, Alex Smith, crack defense man, and Alex Connell, veteran goalie, who will start tonight, is expected to carry the Detroit entry into the championship playoffs for the first time, this season.

The veteran Bruins, Barry, Clapper, Weiland, Oliver, Galbraith, Shore, Owen, Hitchman and Thompson, will also be there, of course, as will the familiar Falcons, Goodfellow, Cooper, Noble, Hay, Cox, Lewis, Pilmore, Ayton, Sorrell, Young and McInenly.

Sing Sing Inmates Get Another 'Shot' at Cops

Ossining, N. Y., Nov. 17 (AP)—The police of Port Jervis, N. Y., want a whack at the Sing Sing prison football team, and will get it next Sunday.

The prison team, with a 33-0 victory last Sunday over the Ossining militiamen, accepted the challenge quickly yesterday.

There are only eight active members of the Port Jervis police department, but they intend to round out a complete team by calling out the reserves—special deputies and the like.

FULLER LOSES TO CALLAHAN IN FAST GO

Jack Conway Picks Another Winner

Jack Conway batted out another winning selection when Andy Callahan defeated Sammy Fuller in a stirring ring battle.

"Callahan and Fuller proved that local ring heroes seldom disappoint the fans," said Jack. "Now pull up a chair close to the ring and take a peek at Schaaf and Dorval. What a scrap this one should be."

Conway's 1931 record follows:

W	L	P. C.
68	6	.918

By RINGSIDE

Andy Callahan of Lawrence punched his way to a decision over Sammy Fuller in a furious 12-round bout at an Argonne A. A. show at the Arena.

It was one of the greatest lightweight battles ever staged in this city, and gave Old Man Boxing a big boom.

Callahan won the honors during the last part of the tussle when he tossed caution to the winds, smashed his way to close quarters and scored with hard, crashing blows to the head and body.

Fuller showed his courage by putting up a fine battle despite the fact that early in the bout he sustained a chipped bone in his right wrist. Dr. Arthur Sargent and Carl S. Jarvaid attended Fuller after the bout.

Fuller, although badly handicapped by the injured wrist from the first round on, gave a remarkable account of himself. Sammy relied chiefly upon his famous left hook, which he whizzed to the head with good effect.

For six rounds there was little to choose between the lightweight rivals. They set a terrific pace and tossed punches with reckless abandon.

Beginning with the seventh round, the fast pace began to tell on the rival warriors. Fuller slowed down a little bit more than did Callahan. Handicapped by his injured right duke, Sammy was unable to take the chances he had taken earlier in the battle. Callahan took the lead away from him and crashed some hefty left-hand socks to the head and body.

Fuller's Rally Fails to Win Out

Fuller made a desperate rally in the 12th round, but Callahan's margin was too great for him to overcome.

It was the kind of scrap that could stand a repeat. If Callahan and Fuller meet again, it will be as welterweights. Callahan made 135 pounds, but was obliged to go through a frightful ordeal in the training camp to do so. Andy will now build up to battle Lou Brouillard.

Fuller weighed 134½ pounds, but Sammy is also getting heavy.

It was announced that Judges William McMinimen and Johnny Glacken voted for Callahan, while Referee Johnny Martin cast his ballot for Fuller.

In the eight-round semifinal Werter Arcelli defeated George Salvadore of New Bedford.

Dick Lopes of Watertown stopped Leo Salvas of Littleton, N. H. in five heats. A right to the jaw did the trick.

Bishop Impressive as He Wins by K. O.

Mickey Bishop of Stoughton looked impressive when he chilled Joe Venuti of this city in two heats. He first dropped Venuti for a count of nine with a short right to the jaw, and then flattened him with a terrific right to the chin.

Joe Dow of Lawrence won the decision over Jimmy Valentine of the North End in four sessions.

Paul Dazero of New York outscored Vincent Trescott of Cambridge in four frames.

The show drew a gate of $4100.

It was announced that there would be a testimonial to the late Jack Sheehan at the Arena on Nov. 30.

Wildcats in Need of Replacements

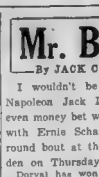
Durham, N. H., Nov. 17—Coach Cowell called off football practice at New Hampshire yesterday. Cowell and his assistants are coaching with finding replacements for the starting Wildcat lineup against Brown.

Mr. Boston

By JACK CONWAY

I wouldn't be surprised if Napoleon Jack Dorval is an even money bet when he clashes with Ernie Schaaf in a 10-round bout at the Boston Garden on Thursday night.

Dorval has won 22 bouts in a row. When a heavyweight boxer gets into a wild winning stride, he is mighty difficult to beat.



Mr. Boston

Dorval is down to 214 pounds which means he is in the best condition of his career.

I find that Bobby Goldman, Charley Turner, Jack Kearns and other good judges of prize men believe Dorval will win.

Any bird as big as Dorval is liable to lick anybody. Jack is six feet three and a half inches tall, weighs 214 pounds and has a reach of 77 inches. Neither Schaaf nor anybody else can laugh that off.

Paul Bowser won't stage any wrestling bouts Thursday night. He didn't wish to conflict with the Schaaf-Dorval bouts, which is being staged for the Christmas Basket Fund of the Boston Evening American. Give Paul a great big hand.

Billy Ames arranged a bang-up semifinal for the Schaaf-Dorval bout when he signed the hard hitting Jack McCarthy of Roxbury to collide with Leo Mitchell of California, in an eight-round tussle. McCarthy recently defeated Harry Allen at the Arena in a slashing battle.

Mitchell was first brought to the front by Jack Kearns. The latter has always considered Mitchell one of the most promising welterweights in the country. Mitchell will give McCarthy a severe test.

I have been tipped that Dorval has been practicing on a short right hand punch to the chin at his training quarters at Quincy. Jack will try to knock Schaaf out with this sock.

Those $1 Customers

I am glad to see that Dick Dunn, general manager of the Garden, and the Christmas Basket committee have set aside 3000 seats for the $1 customers. The 50c tickets are now on sale, and we give the boys who carry the fight week after week an opportunity to see the big punches fly Thursday night.

And there are 7000 seats at $2. All of which is giving the fight fans a break at the biggest boxing show of the year. The top price is only $3.

Alex MacLean looks for a punching duel when Schaaf and Dorval swing into action. Alex says Schaaf will be there trying to win and was too great for him to overcome.

It was the kind of scrap that could stand a repeat. If Callahan and Fuller meet again, it will be as welterweights. Callahan made 135 pounds, but was obliged to go through a frightful ordeal in the training camp to do so. Andy will now build up to battle Lou Brouillard.

Fuller weighed 134½ pounds, but Sammy is also getting heavy.

It was announced that Judges William McMinimen and Johnny Glacken voted for Callahan, while Referee Johnny Martin cast his ballot for Fuller.

In the eight-round semifinal Werter Arcelli defeated George Salvadore of New Bedford.

Dick Lopes of Watertown stopped Leo Salvas of Littleton, N. H. in five heats. A right to the jaw did the trick.

Bishop Impressive as He Wins by K. O.

Mickey Bishop of Stoughton looked impressive when he chilled Joe Venuti of this city in two heats. He first dropped Venuti for a count of nine with a short right to the jaw, and then flattened him with a terrific right to the chin.

Joe Dow of Lawrence won the decision over Jimmy Valentine of the North End in four sessions.

Paul Dazero of New York outscored Vincent Trescott of Cambridge in four frames.

The show drew a gate of $4100.

It was announced that there would be a testimonial to the late Jack Sheehan at the Arena on Nov. 30.

LAYOFF MAY HURT ELI

CRIMSON HAS BATTLE EDGE ON BLUE

By BILL GRIMES

A year ago when the 1931 Yale schedule was released showing that the Elis would wind up the season with Princeton, instead of the Crimson, the authorities at Harvard, following their usual custom, refused to comment on the change.

The Elis have been the favorites in the last three Harvard games but they lost them all. Naturally, they were disappointed, and in order to break the Crimson's run of victories, Yale decided not only, to soften up the schedule but to meet Harvard prior to tackling Princeton.

For three or four years, Yale has made the fatal mistake of bringing the team to its peak about mid-season.

Had Yale played Harvard on the dated it met Dartmouth in '28, '29 and '30, there is no question but that the old arrangements would still be in vogue, for the caliber of football the Elis displayed against the Big Green would have beaten Harvard handily.

Yale has found the going tough this season. Before the season was well underway, the University of Georgia came up and slapped Eli down for the third consecutive time.

Then, after Harvard had softened up Army, Yale was unable to get better than a draw with West Point. But the worst feature of the entire Yale season was the Dartmouth game. The Elis should have won by two or three touchdowns, but Dartmouth came back after trailing 33 to 10 and tied up the ball game.

Long Layoff May Weaken Yale Team

Since that wild affair with Dartmouth, Yale has played one game, St. John's of Annapolis, an exceptionally weak opponent from whom the Elis received absolutely no benefit. Last week Yale was unable to get better than a draw with West Point. But the worst feature of the entire Yale season was the Dartmouth game. The Elis should have won by two or three touchdowns, but Dartmouth came back after trailing 33 to 10 and tied up the ball game.

With a three-week layoff, will Yale be able to come back before meeting Harvard in the Stadium on Saturday?

Yale has adopted the Notre Dame system of play this season. Because Yale beat Chicago, one of the weakest teams in the Big Ten, it was hailed as a great football club.

It was reported that Yale had mastered the Notre Dame style of play to perfection. Possibly, this was true against Chicago, but it did not look any more like a Rockne club against Dartmouth than the ordinary small college teams which have taken over the Notre Dame system. It did not have any rhythm in the shift and was guilty of pointing on many plays.

Harvard Scouted Yale All Season

Harvard has scouted Yale in every game this season. The best available men have been in the Yale bowl weekly watching the Elis in action. And, unlike Harvard, Yale has been shooting the works from almost the start of the season.

Jim Brady, a former Notre Dame quarterback, who is a second team coach at Harvard, has seen most of Yale's games this fall. Brady has as clear a conception of Notre Dame plays as any player that ever worked under "Rock."

With Brady has been Jimmie Knox, Arthur Sampson, Ben Tickner and Eskie Clark. Such a capable army of scouts cannot miss anything of importance.

Rumors are current that Yale will pull some new stuff against the Crimson in the Stadium. There is little ground for worry in this direction for Yale has its hands full trying to master the assignments of the plays it has been using all year and little time to acquaint itself with any new attacks.

Harvard has been through a long, tough schedule and came through without a blemish. Yale was set back by Georgia and tied by Army and Dartmouth. The Crimson, due to its string of victories, will carry more confidence into Saturday's encounter than it has had in many years.

And, even if Yale should come back and display a big measure of strength, Harvard still has an ace in the hole in Head Coach Eddie Casey, who has been a star for many years, one of the keenest students of the game.

Bouts Last Night

By the Associated Press.

New York—Al Singer, New York, outpointed Johnny Gallo, Yonkers, N. Y. (10); Ray Neyman, Chicago, outpointed Mihaly Gelb, Hungary, draw (10); Lolo Angel Torres, Porto Rico, outpointed Al Palladino, New York (8); Steve Wilanski, Syracuse, N. Y., stopped Frankie Schaefer, New York (2).

Pittsburgh—Charlie Fields, Los Angeles, and Jimmy Belmont, Pittsburgh, drew (10).

Charleston, S. C.—Wildcat Music Tufts, Cuba, stopped Ted Sontag, Miami, Fla., (6).

Boston—Andy Callahan, Lawrence, Mass., outpointed Jimmy Fuller, Boston (15).

Paris—Attila Spala, defeated Phaklo Gerard, New York, foul (7).

Wheeling, W. Va.—Battling Utley, Ensore, Pa., outpointed Eddie Kilderman, Cleveland (10); Al Gregory, Akron, outpointed Harry Morris, Weirton (6); Young Terry, Akron, outpointed Tony Quinto, McKeesport (6).

Andersen, Ind.—Peter Mike, Southampton, L. I., outpointed Jack Kay, Denmark (10); Frankie Gerrie, Indianapolis, outpointed Bruce Smith, Terre Haute, Ind. (10).

SPORTS REEL

Notre Dame ace on bench! It worries most schools to lose a great back on the eve of a big game, but the Irish aren't bothered much by the injury to George Melinkovich which will keep him out of the U. of Southern California game Saturday. Anderson has developed so many fine backs that one more or less doesn't matter much. (Int'l Photos)

Oh the Blue isn't blue any more, for little Albie Booth is back in uniform and practicing for the Harvard game. Albie has never played on an Eli eleven which beat the Crimson, so he hopes to wind up with a blaze of glory this Saturday. But Yale has rested for several weeks and may be stale after that long letdown.

ELI SUBS GET CHANCE

New Haven, Nov. 17—Eli subs were tried out at left guard, centre, left half, right half and fullback in Monday practice.

Center is the most uncertain of the six lineup, but chances favor Ben Betner.

Capt. Albie Booth took part in his first drill since the game with St. John's College, but he was a left half only two or three minutes and little time is to acquaint itself with any new attacks.

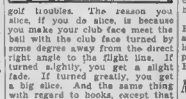
Harvard has been through a long, tough schedule and came through without a blemish. Yale was set back by Georgia and tied by Army and Dartmouth. The Crimson, due to its string of victories, will carry more confidence into Saturday's encounter than it has had in many years.

And, even if Yale should come back and display a big measure of strength, Harvard still has an ace in the hole in Head Coach Eddie Casey, who has been a star for many years, one of the keenest students of the game.

GOOD GOLF

By CHESTER HORTON
"Golf's Greatest Teacher"

As a golfer you look, for aiding correction, to your grip, your stance and to other mechanical factors which, I now am convinced because of the engineering tests I made with Mr. John G. Jordan, have little to do with aiming. They may be contributory but it is not at bottom the reason for there



CLUBFACE OUT OF LINE

golf troubles. The reason you slice, if you do slice, is because you make your club face meet the ball with the club face turned by some degree away from the direct perpendicular to the flight line. If turned slightly, you get a slight fade. If turned greatly, you get a big slice. And the same thing with regard to hooks, except that your club face is turned the other way, the heel of the club out of line with the toe. It is not that you drag your club across the ball at all; you don't have time enough to drag it, as we now know. No matter how you swing, and regardless of your style, or form, rhythm or lack of rhythm, the ball will fly straight if the club face is turned absolutely square to the direction line at the instant it meets the ball. Hence, for a straight ball, quit thinking about cures and think of having the club face square at the instant of impact.

ELECTION OF OFFICERS OF P.G.A. TODAY

Election of officers for the Professional Golfers of America is slated for today when the 46 delegates to the convention meet at the Hotel Statler.

The annual meeting was opened by the 46 delegates, representing 23 of the 24 districts.

The first sessions were given over to reports. Important action starts after the election of officers.

The session promises to be most important. In the preliminary reports there appears to be plenty of opportunity for discussion.

The membership committee reported an increase of 22½ per cent to 1390 members.

The new golf ball and the U. S. G. A.'s attempt to establish a ball to meet the approval of the golf-playing public came in for discussion.

President Charles W. Hall presided. Among the officers were the Hon. President Alex Pirie; Vice Presidents W. H. Way of Cleveland, Harold Sampson of San Francisco, Jack Shea of Salem, Tom Boyd of Staten Island; J. B. Mackie of New York, treasurer; Wille Ogg of Worcester, chairman of the ways and means committee; George Saigent of Columbus, O., chairman of the membership committee, and Elmer Burns, Peoria, Ill., chairman of the merchandising committee.

JUMBOS STUDY GRID MOVIES

Slow motion pictures of the Harvard-Dartmouth game are being studied by the Jumbo squad this week for some of the formations are similar to Tufts formations. Coach Bob Abbott of the Jayvees explains the plays as they occur, and the reels are stopped at various points for thorough examination.

Great gains will be taken on snapping back this week with Capt. Vic Knapman and John Parkhurst, centers, sending the ball to the backfield men over the head guards, fumbling has bothered the men considerably.

Don Cochrane and Vin Raikus, guard and tackle respectively, are leading treated for minor injuries received in the Bowdoin game Saturday, when the Jumbos successfully defended their four-year record of no losses on home territory. Both boys are expected to be sole to play in Saturday's game against the Massachusetts Sisters in Amherst.

Plans are being made by Tower Cross, the senior honorary society, for a rousing sendoff for the final game of the season when Tufts will make a record of four victories, two losses and one tie for the year.

This afternoon the varsity will scrimmage with the second team trying out interference combinations as played by Harvard and Dartmouth.

Amherst, Nov. 17—A short workout was given Mass. State gridmen to prepare for their meeting with Tufts here Saturday.

The M. S. C. team sustained no injuries in the Wagner game.

Freddy Wells, regular quarterback is rounding into shape and the team should be at full strength for the final game.

PERES HOST TO NEEDHAM BOYS

At Weston, tripe threat of the Pere Marquette football team, will have his Needham High football squad as his guest at the 12th annual football game between the Peres and the Fitton A. C. Sunday at Graves Field.

The Fittons wound up their preliminary season Sunday by defeating the Quincy Trojans. Maidy Sayles, former Harvard star, scored three touchdowns against the Quincy boys.

The Peres have done well this season, defeating seven rival clubs as the opposition scored only two points.

The Fittons are a good defensive club. Only three times this season has a rival succeeded in scoring.

In the game that season, the Fittons have rolled up 170 points as against 18 for their opponents. They have one of the finest forward passers in sempiro football, Fatt Elkins, former Indian star.

Maccabee Bouts at Garden Tomorrow

The Maccabee-Jewish Olympic boxing tryouts will show the best Jewish amateur boxers in New England in the 118, 126, 135 pound and light heavyweight divisions at the Boston Arena tomorrow night.

Four classes are confined solely to Jewish boxers and in addition the best amateurs in the 135 and 160 lbs. class and heavyweight will be seen in action.

Proceeds from this tournament will be used to defray the expenses of New England athletes to the Jewish Olympic games in Palestine next March.

DEMOCRATS TO DEMAND RULE OF MAJORITY

By LOUIS SEIBOLD

This is the first of a series of articles describing the workings of the two-thirds rule in the Democratic national convention and the attempt that will be made at the next convention to abrogate it.

New York, Nov. 17 (US)—A definite move to remodel some of the undemocratic machinery of the Democratic party is certain to be made in the presidential convention next summer.

It will be in the form of a resolution to repeal the two-thirds rule which governs and sometimes defeats the selection of a candidate favored by the majority.

PROMOTES DISCORD

The five reasons which will be advanced for the substitution of majority for two-thirds vote are:

1—The two-thirds rule defeats the popular choice for Presidential nominee.

2—It promotes factional discord and engenders personal feuds.

3—It discriminates against the Democratic doctrine of fair play.

4—It encourages undemocratic dictation and arbitrary control through deals and combinations.

5—Because it makes the name of "Democratic" a misnomer, as a century the Democratic party has compiled successful presidential candidates to obtain two-thirds of the votes in a nominating convention.

Throughout the history the Democratic party has persistently disclaimed its confidence in the rule of the majority.

CHANGE OPPOSED

In marked contrast to its proposal for supporting this cardinal Democratic principle, the presidential party organization presumably intends to select its next presidential candidate under the archaic and obsolete two-thirds rule—unless it is changed.

No earnest effort has ever been made to modernize the machinery by which Democratic presidential candidates are chosen. It is more than likely that one will be organized before and during the deliberations of the nominating convention.

Powerful state bosses controlling important blocks of delegates are believed to have already effected a combination to prevent any candidate from obtaining the necessary two thirds vote unless he measures up to their demands and those of their financial allies. Under the two-thirds system, the prospects for the success of this venture are decidedly favorable.

OPPOSED AT START

The undemocratic two-thirds rule was first proposed by General Romulus Saunders to the nominating convention which met on May 20, 1835. As originally framed it read:

"That two-thirds of the whole number of votes given be required for a nomination and all questions connected therewith."

Its supporters defended it against its opponents by declaring that a majority on this basis would carry more "moral weight" another reason was that it would curb the strength in the convention of the "Non-Democratic States."

(In tomorrow's article Mr. Seibold will tell how the two-thirds rule has defeated the popular will on several occasions in Democratic national conventions.)

All Star Hour Through Hub Stations

By N. F. T.

Stage folk parade before microphones tonight at 11 p. m. when the most elaborate program ever arranged in this city goes out on the air waves.

CREDIT THE COMMITTEE

Stations WAAB, WBZ, WNAC, WEEI and affiliated Yankee Network outlets will transmit the gala feature in collaboration with the Boston theatrical interests. Details and presentations of the broadcast have been negotiated by the special radio committee appointed by officials of the New England Allied Theater organization. Ray (RKO) Stoney, Jack (Publix) Saef and Jack (Loew) Granara have been busy fellows.

* * *

Broadcasting chieftains have responded in a like co-operative manner to complete the magnanimous moving spirit that prevails. It is all for the purpose of adding to Mayor Curley's fund for the relief of Boston unemployed this winter.

* * *

Mayor Curley himself as well as Governor Ely will also take their microphone turns during the program, which, according to present indications, should run into well known wee hours.

VOLUNTARY TALENT

Artists taking part without cost include well known tenor, Peter Higgins, vaudeville's laugh provoking Session, Murphy, Earl Nelson, Jack Rose and Boyd Senter, Peg La Centra, Ranny Weeks, The Geospers (Jack Shannon and Marie Stoddard), Eddie Dunn, Emery Jack Beaumont, Jean (Ladies and Gentlemen) Malin, Edward Jardon, Allan Redmond, Zelda Bentley, Eddie Dean and orchestra, Fox Fur Trappers, Francis Cronin, Arthur and Morton Wetzel, Wilma Sisters, Polly Willis, Chet Gaylord, Arthur Brown, those harmony Tenstones with Ed Widdess, Arthur Eades and Linus Travers.

* * *

Many more are volunteering talent to round out the big air show. The best broadcast ever heard hereabouts will doubtless result.

* * *

Earlier (9:30) tonight, ear cuppers will hear Frank Ryan giving the first hockey description Boston has had on the air in four years through WAAB.

BRICKBATZ AND BORATS.

Last night WBZ at 7:45 brought another "Pickle and Horace" country store bit of rural music and hick humor . . . These two will most likely get a regular berth Monday at that time . . . Everbody seems to uphold Ted Husing in his recent words against Harvard. This "colyum" still thinks his attitude was uncalled for and out of order . . . Chet Gaylord brings a new partner to WNAC mikes tonight (8 p. m.) in the person of guitarist Ed Widdess . . . Micky Alpert is pepped up no little about a new radio deal on foot. The theme song slipped to him by one of his radio well wishers . . . Early morning listeners seem to be as many listeners as evening periods of current happenings . . . Which is unusual . . . Where are these candy folks who came into Boston, worked out two or three program times on the second station and wound up by going off the air altogether, blaming radio more or less? They might just as well have saved their money for all the impression made. Experienced station men who know their business couldn't tell them anything about radio—not on your life! . . . Barnes and Tright . . . Eddie Sandman coming home to Boston (WNAC) from CBS, New York . . . What's happened? . . . Gilroy slated for the Harvard-Yale game description is good news.

* * *

Those who enjoy an interesting talker should dial in Bruce Barton (WEEI) next Monday night at 8:30.

MUST AMERICA AWAIT FOREIGN REVIVAL?

By B. C. FORBES

MUCH—PERHAPS TOO MUCH—attention is being paid by American financial interests to events abroad.

Many talk as if the United States couldn't possibly enjoy any measure of recovery until grave foreign troubles have been settled. That notion is not warranted.

The probability is that this country will be able to make substantial progress before European clouds have passed.

If America never had enjoyed prosperity when there was any cloud on the European horizon, we would have experienced mighty little prosperity since our birth.

Of course, rip-snorting prosperity is unlikely to be witnessed here until most of the rest of the world has become distinctly more stabilized. But meanwhile we can, and probably will, advance far toward normal before foreign unsettlement completely disappears —if it ever does.

Anxious Eyes on Germany

Admittedly, the world has worries aplenty.

Germany is once again the critically sore spot. American bankers tumbled over one another in their fight for the "privilege" of lending to Germany and to Germans the savings of American investors. Competition to furnish German loans, public, corporate, municipal, etc., rushed to ridiculous extremes.

Our bankers, who should have been very much more careful, apparently didn't stop to analyze just how Germany was going to meet all her public and private borrowings after the torrent of outside money dried up. Everything looked superficially rosy so long as American investors were induced to pump into Germany far more money than she was paying out in reparations and all other forms combined.

Conditions in Germany today are parlous. She has several hundreds of millions of short-term obligations which she hasn't met and which she, perhaps entirely sincerely, declares she is unable to meet. Therefore her ability to borrow more, her credit, has been blasted. Her financial position has been sorely aggravated by industrial depression, unemployment, political uncertainty and other adverse influences common to the greater part of the world at this moment.

French Find Hoarding Costly

France heretofore has been uncompromising. She has been riding a very high horse. She has amassed almost three billion dollars of gold and has heretofore experienced distinctly less depression than most countries.

But indications increase that France is finding it advisable to get off her proud perch. Unemployment and depression are now reaching her. She finds that it is terribly costly to hoard such gigantic mountains of idle gold. Easier in the year she rebuked Britain regarding tariff concessions, and now finds that Britain is getting ready to hit back effectively. France has discovered that President Hoover does not intend to take the lead next time in rescuing ermany but has put that responsibility up to those more directly and seriously concerned.

Moreover, France can hardly feel elated over the attitude she has aroused in the principal nations. Nor is it thinkable that she will willingly court precipitating a major upheaval in Germany.

All in all, there is at least an even chance that somehow or other, Germany's dire emergencies will be amicably met.

Manchurian Situation Puzzle

Britain has taken on a new lease of life.

It is at least permissible to hope that the present visit to Washington of Italy's foreign minister will be productive of beneficial results.

What of Manchuria? There the world is confronted with a bewilderingly tangled skein. Chinese, Russian, Japanese railway and economic interests are extraordinarily intertwined. The overshadowing fact is, however, that Japan's population multiplies so rapidly that she simply must find outlets for her overflow; and Manchuria offers the most attractive possibilities. What the upshot will be, no human being can foretell.

Yes, the world has its woes. But they promise gradually to become fewer and lighter rather than heavier and more numerous. Our own country, notwithstanding its heartbreaking unemployment, appears to have overcome the worst of its difficulties, and there is no reason for becoming obsessed with the defeatist attitude that genuine progress cannot be made here until something approaching the millennium has dawned throughout the rest of the world.

Financial News, Stocks, Bonds and Comment

SPECTATOR

Says:

The stock market in Wall Street is certainly proving itself to be temperamental in character. It was but a short time ago, comparatively, that bulls seized upon the slightest indication of improvement in commodities as sufficient reason to start up prices of sliding stocks. Yesterday, when wheat soared briskly after a fairly protracted period of decline, the market paid virtually no heed, preferring to pay closer attention to the weakness in silver.

Bond Market

Still the situation is not quite as bad as the movements of the market tell of night riders. The bond market, for example, refuses to pay much attention to the gyrations on stocks, and while showing a somewhat easier tone of late has lost less than a point in the past week. This is of more than average significance throughout the various ups and downs which the stock market has experienced this year bonds have been unduly sensitive to such fluctuations.

If however, the comparative stability which senior securities are currently displaying is to be taken to indicate the slow return of investment confidence, then surely the groundwork is being laid for sustained betterment in stocks, whether or not such improvement is immediately forthcoming.

Market Outlook

What has the market in store? Well, that is a difficult question. By all the rules, a rally is long overdue in view of the fact that stocks have declined successively for six sessions. Still, if the bears continue to capitalize the unfavorable situations and hammer the rail group on prospects for impending dividend reductions it will be difficult to attract a following on any recovery.

The most advisable course is to give one's eyes an extra rub. It is more than likely that the slogan of "no go the rails so goes the market" still holds sway.

National Assn. of Cotton Manufacturers, of which Irving Southworth, agent of the Pacific mills at Lawrence, is president, has obtained action from the U. S. Department of Agriculture. Recently the association issued a report showing the grade and staple of cotton used by American mills. These will be issued by the U. S. Department of Agriculture in order to show the growers the kinds and quantities of cotton used by the mills in each section and thus aid in giving the mills an adequate supply for their requirements.

Our basic automotive industry operates under tremendous handicaps. Most of us are familiar with the various forms of tax levies, disguised though they may be, but few realize what handicaps are imposed by non-uniform traffic regulations.

• • •

Dr. Julius Klein, former Harvard instructor, still a resident of classic Cambridge though he is assistant secretary of commerce, points to the example of a resident of the District of Columbia, driving the slightly over 400 miles to New York, thoroughly familiar with D. C. traffic regulations and obeying them throughout his trip. Such a driver says Dr Klein, would be risking jail by picketing no less than 289 times.

• • •

If the automotive industry is to have its fair chance of leading us back to prosperity, as many economists have lately suggested, it should certainly be helped by the lifting of unnecessary burdens, both as to taxes and driving regulations of conflicting kinds.

Japan, India Bonds Are Firm in London

London, Nov. 17 (AP)—Firmness in Japanese and Indian bonds was the feature of the Stock Exchange today. The session was dull otherwise with prices registering an absence of support or any stimulating influence. Foreign exchange improved slightly, the pound touching $3.79

Trading in Paris was extremely dull.

STOCKS HIGHER IN WALL ST. DEALINGS

New York, Nov. 17—After six successive sessions of receding prices, the pivotal shares in Wall St. today rallied, with inspiration furnished by strength in wheat.

The market was under pressure during the first hour, but selling was checked soon after the opening of the Chicago grain pit, and the list began to rally. Trading quickened on the advance.

LOSSES REGAINED

Early losses, ranging from 1 to 3 points, especially in the rails, were generally regained.

Shares finally showing net advances of 1 to 2 points included U. S. Steel, American Telephone, American, Consolidated Gas, General Motors, Electric Auto Lite, United Aircraft, National Biscuit, Borden, Sears Kennecott, American Smelting, International Harvester, Standard of California, New York Central, Southern Pacific, Atchison, American Can, Eastman and 44 others.

The share market had ignored the resumption of the advance in wheat yesterday, but, as the rise continued for the second day, Wall Street was apparently impressed.

Bullish demonstrations appeared in some of the motor shares. General motors was presumably bought in connection with its introduction of new models, and Electric Auto-Lite in connection with reports of increasing activity in connection with the requirements for new models of motor makers which it serves.

OILS ARE FIRMED

The petroleum group also firmed up for a time. The preliminary report of crude oil production for last week indicated a negligible gain and gasoline prices have continued to harden in various parts of the country.

The good support accorded German and Japanese bonds tended to quiet uneasiness over the central European financial situation and the continued military clashes in Manchuria. It was suggested in some quarters that improvement in Japanese bonds and exchange may reflect reports that Great Britain is favoring the Japanese point of view in the Manchurian situation.

October new passenger car registrations may run considerably above earlier estimates, it is indicated in reports from 23 states, say R. L. Polk & Co., estimates. The last week on basis of returns from eight states places the total between 88,000 and 93,000 units, but additional reports now justify an estimate that sales will reach 101,000.

Sees Probability of Newsprint Merger

Montreal dispatch says merger of Canadian newsprint organizations is likely to go through, although it will take considerable time. Heads of five leading companies have been meeting under chairmanship of Sir Henry Beatty, president of Canadian Pacific Railway, and with active support of major banking interests. Heads of Canadian International Paper Co. to be anxious around which new organization would be built. Planned to bring into consolidation Abitibi Paper & Power Co., Consolidated Paper Corp., Laurence Paper Corp., Price Bros. and Minnesota & Ontario Paper Co.

Columbian Carbon Net Is $1,406,015

Columbian Carbon Co. reports for nine months ended September 30 net of $1,406,015 after taxes, depreciation, depletion and minority interests, equivalent to $2.61 a share on 538,420 no-par shares, against $2,038,455 or $4.09 a share on 498,505 shares in nine months of 1930.

Net for quarter ended September 30 was $546,283 after charges and taxes, equal to $1.01 a share on 538,420 shares, against $299,231 or 55 cents a share on 539,045 shares the preceding quarter and $445,274 or 89 cents a share on 498,505 shares in third quarter of 1930.

Silver Lower in New York Trading

New York, Nov. 17 (INS)—The silver market continued reaction-ary on the National Metal Exchange today, with various futures recording further declines of from 25 to 105 points, one of yesterday's maximum losses of 200 points. Trading was quiet, with initial sales amounting to 225,000 ounces.

Offerings were again reported as coming from speculative sources, principally from India and the Far East, but today heightened was evidenced on the recessions.

Favorable Trade Balance Is Seen

Washington, Nov. 17 (AP)—The American favorable trade balance in October amounted to $36,000,000.

Commerce Department, preliminary figures today disclosed, of exports of $205,000,000 and imports of $169,000,000.

The favorable balance for that month trebled that of the preceding month when exports were $180,231,000 and imports $170,868,000.

COOL COOS

By TED COOK

(Copyright, 1931, for the Boston Evening American.)

School textbooks, says Professor Hendrick Irving, are dull, out-of-date and do not supply a wide-awake, modern child with the things he would like to know.

In fact, you can search through textbooks and not even find out the first names of the four Marx brothers.

LESS SAID ABOUT IT THE BETTER DEPT.

(Los Angeles Paper)

Plans of the sheriff's office to fingerprint two empty pint bottles, with a view to possibly ascertaining the identity of the burglars who robbed the Malibu beach cabin of City Jailer John L. Shand over the week-end, were dropped today when Mr. Shand said he believed such detective work would be futile.

Q. AND A. DEPARTMENT

Dear Kindly Aunt Bella—I'm afraid I'm going to flunk my economics course. Can you think of anything I might do to favorably impress the professor?
—Co-ed.

Ans.—Yes.
—Aunt (Ph. D.) Bella.

Governor Murray of Oklahoma suggests that if all the women in China put four-inch ruffles on the bottom of their dresses, they would soon use up the surplus cotton.

And if we put four-inch ruffles on the bottoms of the dresses of all the women in America, they'd soon use up the surplus sateens.

LULLABYE

"Hygienic development of the emotions, instinctive desires and innate tendencies are at least as important as the acquisition of knowledge if the child is to find success and happiness in life."—Dr. Leon W. Goldrich, director of New York Bureau of Child Guidance.

Cry awhile, baby, mother will note
Just how hygienically you can emote—
When you are sleeping, mother is sad.
When you go nuts, dear, mother is glad!
Listen to mother—later in life
You will be married—you'll be a wife
Then, precious darling, it's up to you
To artfully manage to hullabaloo—
You must have nerves that are bound up real tight
And let yourself go like a flash—dynamite!

There's Much Work to Do If Congress Saves Navy

The Chief of Naval Operations, Admiral Pratt, has made a startling admission.

"It is not intended," says he, "to build the Navy up to treaty strength during the life of the London treaty," and he voices the opinion that the FUTURE STRENGTH OF THE NAVY WILL NOT BE THAT FIXED IN THE LONDON TREATY.

Why, then, was the London Naval Conference held at all?

What were we doing in sending to London a mission, headed by Secretary of State Stimson, and including, in addition to the foremost experts of the Navy Department, statesmen of the standing and importance of Senator Reed of Pennsylvania, the late Senator Dwight W. Morrow, and Senator Robinson, leader of the Democratic minority in the Senate?

What was there to justify this mission in remaining in London for two months, in continuous consultation with the Prime Ministers of England and France and the plenipotentiaries of Japan and Italy?

What did the President mean by his expressions of gratification at our great diplomatic achievement, in reaching an agreement with our leading naval rivals, which established our naval strength on a basis that was INFERIOR TO NONE?

And why was the result of this elaborate international conference embodied in the solemn form of a treaty and its ratification by the Senate of the United States asked and obtained?

APPARENTLY THIS WAS ALL CHILD'S PLAY. IT MEANT NOTHING.

Admiral Pratt, who occupies, for a brief while, a purely administrative and subordinate position in the Navy Department, makes the cool and unabashed announcement that ***"not only have we FAILED to maintain our fleet upon the agreed ratios for which we contended so earnestly, but that we HAVE NO INTENTION OF DOING SO."***

The country would like to hear from other naval officers, who are not so closely tied up as the Chief of Naval Operations, with the present Washington administration.

We cannot believe that the American navy is completely given over to a policy of scuttle.

In fact, some naval officials, while refusing to be quoted, admit that parity between the United States and Great Britain, as fixed in the London treaty, is not now possible during the life of the agreement.

And they point out that, however lightly President Hoover and his Chief of Naval Operations may regard the London agreement, JAPAN IS PRACTICALLY AT FULL STRENGTH NOW IN ALL CLASSES OF SHIPS.

Verily, there is work—good work, pressing and patriotic work—to be done by the Congress which is soon to assemble.

THERE IS NO TIME TO BE LOST.

Hail, Boston City Club!

Twenty-five Years of Splendid Service

All hail the Boston City Club on its 25th anniversary.

Only yesterday, it seems, was the Boston City Club launched under the aegis of Edward A. Filene, the late James J. Storrow, Samuel J. Elder and a handful of progressive spirits genuinely interested in the civic welfare of Boston.

Today it enjoys a magnificent club building, nearly 7000 members and the reputation of being one of the finest clubs of its kind in the world.

There is no other similar organization in this country more profoundly respected.

Because it has had the courage to waive partisan politics, because it has remained fundamentally democratic in the best sense of the word and because it has provided a gathering place where men of moderate means could assemble to hear the major topics of civic and national life discussed by real authorities, it has commanded the affection of its members and the admiration of the city as a whole.

Three Presidents of the United States have thought well enough of its importance in the community to grace it with their presence. The guest speakers attracted to it have been among the foremost in national affairs, in arts and the sciences.

The Boston City Club is an example of the fact that if you set your head in the right direction and are motivated by a fine purpose you will achieve your objective.

The people of Boston, without distinction and without restraint, sincerely hope that the next twenty-five years of the Boston City Club will be as fruitful as its first quarter of a century.

Amenities in the Air

For good diction over the radio a young announcer has been awarded a medal by the American Academy of Arts and Letters. Hamlin Garland, in bestowing it, said:

"His pleasing voice, his taste in the use of it . . . won my applause. In my opinion his speech combines the best of English English and the best of American English."

Mr. Garland himself, born in Wisconsin of Maine parentage, who was brought up in Iowa, taught school in Illinois, farmed in Dakota and lectured in Boston and is a fine example of the American man of letters, is noted for his exquisite English. But how many have heard his voice?

The voice of the radio announcer is heard daily by fifty million Americans.

One trembles to think of the harm a misplaced accent or a slip of grammar might do to this vastest audience in all human history.

If a good announcer deserves a medal, what should be done to the one who shovels the syntax higgledy-piggledy into the mix?

The Plotters

How pleasing it would be to the plotters if Uncle Sam would heed the request of China for American soldiers to guard the Manchurian railway against the Japs!

What merriment there would be in the halls of the League of Nations!

Repeatedly the Hearst newspapers have warned the country that impoverished nations overseas want United States MONEY and United States MEN to pull their chestnuts out of the fire.

Manchuria is aflame, the whole Far East smoulders; the League plotters will do all the TALKING and try to induce trusting Uncle Sam, his MEN and his MONEY to do the ACTING.

Sam will be wise if he MINDS HIS OWN BUSINESS and STAYS OUT.

New York Day by Day

The "Mouthpiece"

NEW YORK, Nov. 17—Few books have caught the Broadway fancy so pronouncedly as Gene Fowler's recent "The Great Mouthpiece." It is the biography of the underworld's most notorious legal trickster, William J. Fallon. To the White Way he was the official ambassador without portfolio.

Celebrated crooks are walking the streets today as the result of his masterful, but not too commendatory talents. Threaded among his list of clients were such names as Nickey Arnstein, Arnold Rothstein, Betty Inch, Dapper Dan Collins and Phil Kastel.

Big Bill Fallon was one of those queer geniuses with shining fistfuls of technical tricks. With the disarming naivete of a rosy-cheeked schoolboy, he made sedate courts and caribou-faced lawyers often look ridiculous. Against overwhelming evidence, he could always hang a jury.

Born of a rich, aristocratic family and headed for the priesthood, he suddenly switched to law, became an honor student at Fordham, and after graduation the most resourceful and successful criminal lawyer in his particular field. In ten years he received more than $1,500,000 in fees.

His descent was as quick as his rise—a fallen meteor, hunted by the law, an outcast from his family and decent society, and stone broke.

Gifted superlatively, had he chosen a path other than the primrose it is likely he might have been gracing a high court bench. Yet he preferred, with impish and often unscrupulous audacity, to shear the courts of their boredom and make clowns of the learned.

He spent huge fees riotously as soon as they came in. He was the playboy of the grills and cabarets. He professed to love a devoted wife and consorted with a vaudeville actress at the same time. In him was a fusion of cupidity and poetry—a fantasy of biology that science can never explain.

* * *

Bill Fallon in his day was one of Broadway's best dressed roysterers. The first and only time I ever saw him was in Billy La Hiff's Tavern, surrounded by a light-hearted crowd which the late Jimmy Hussey invited me to join. His was the voice of an actor and his every remark took on the finish of an Otis Skinner curtain speech. He was not drinking or smoking that night and was in rare forensic form. Sometimes he would go for weeks without a drop of liquor or a puff of tobacco. His own saying that day almost prophetically: "Humanity shortly will be at war with its own limitations. The leaders, now in the stirrups, will be unhorsed. They are thinking too much of supply and not enough of demand." That was six years ago.

* * *

While Fallon patronized the most expensive tailors, boot and hat makers, he never patronized laundries. When his linen became soiled, he tossed it away or gave it to the elevator boy, purchasing fresh crops as needed. In a like manner he bought only one pair of shoes at a time and never had them shined. After his tragic death I once heard a hard boiled patron at Lindy's add up Fallon's career with more accuracy than pages of high-flown verbiage. He said: "It was tough to see a guy like that short-change himself."

* * *

There is another Sir Galahad, now unleashed in the Broadway current, who sports silk socks, wearing them only once, donning a fresh pair each morning and evening. The discards are tossed in the ash can. The legend goes he was reared in the Arkansas hills and was barefoot until 19, when he donned his first pair of shoes. During all those sockless years he dreamed of the time he could wear silk hose. And when it came, he made it hum. E. Berry Wall, when he was making a sartorial splash in New York, is said to have had 500 pairs of sox, changing thrice daily.

* * *

And from the Riviera stylists report short-jacketed Eton suits the business for fashionable beach hounds. It all suggests ship stewards on a holiday. Somehow I'd like to see Gilbert Miller in an Eton suit.

* * *

"I am a down-town stenographer," writes Esther A., "and was working late the other evening. Upon leaving my office building I saw you sauntering slowly by Trinity graveyard. What in the world were you doing there?"

Listen, World!

By Elsie Robinson

Bitterness and Wisdom

YOU'RE SORE.

Sore at a lot of things.

Sore because these are hard times and you're not getting the breaks. Somebody Higher Up has surely done you dirt!

Sore because your family doesn't appreciate you . . . because your friends fail you . . . because your enemy has put something over on you.

Sore! All smoked up with bitterness and self-pity, resentment and hate—and every day your Mad List grows longer.

I don't blame you. I've been that way myself. Still am! But once upon a time I found the remedy for sore-heads, Stranger. I found it in this line by Nietzsche.

"GROWTH IN WISDOM MAY BE EXACTLY MEASURED BY DECREASE IN BITTERNESS."

In other words—the wiser you are, the less you'll hate, the less you'll be mad. If you were truly 100 per cent wise, you wouldn't be mad at all!

Don't believe it? Stop and think about it.

You CAN'T hate a man if you understand him. For if you really understand that man, you will no longer see him as a deliberate fiend, a liar, a coward, a crook. You will see him as he sees himself. You will see him in his hidden weakness and confusion and fear, hunger and shame. You will see the hurts in him which have made him want to hurt you. You will see his secret dreams and prayers and his futile rebellions.

And something will happen to you when you see that. You will become interested . . . become involved in that man's problem. You will stop thinking of him as your enemy. You will begin thinking of him as a fellow man. You will be amazed to find that his dreams and rebellions are like your dreams and rebellions—that he has suffered and been ashamed as you have suffered and been ashamed.

And suddenly you'll feel very close as though you were his brother. You'll want to tell him you understand. You'll want to help him—

You'll be like two men, lost in a great forest, suddenly finding each other—with all the old feuds forgotten in that wonder of discovery.

Yet, only a little while ago you were bitter enemies—And now you are brothers! How could such a miracle happen. It happened because you grew WISE—because you found UNDERSTANDING.

As wisdom grows—bitterness decreases. If you want to get rid of bitterness, GET WISE.

And that goes for more than the bitterness you feel against people—it goes, too, for the hate and suspicion and resentment you're feeling against conditions. So easy to think that you're in the grip of a malign conspiracy! But you're not! You're simply in the grip of stupidity.

The Powers-That-Be aren't group of arch fiends—devilishly clever and cruel—plotting to rob common folk like you and me of a small hope and happiness. The Powers-That-Be are simply saps like ourselves—well intentioned but befuddled saps. Men are willing to do the decent, sensible thing, but don't know how to get going. Understand that and you'll eliminate your bitterness—which is far worse for you than any amount of hard times.

For bitterness buys you nothing but grief. It doesn't punish the other fellow but it does poison you. It robs you of any advantage you may have—gives the other fellow all the breaks. Bitterness will always bind and blind you. Only wisdom will set you free. If for no other reason than your own personal profit, cut out bitterness. Get wise!

Just Folks

The Busy Life

The busy life is happier far
Than that of idleness and ease;
Though sweet the joys of comfort are
They swiftly lose their power to please.
A goal to gain; a task to do;
Some useful purpose while we live,
Whether the skies be gray or blue,
Hold thrills that nothing else can give.

For what has comfort to bestow
To equal that high sense of pride
Of those who suffer many a blow
Refusing to be thrust aside?
Beset by all the odds of doubt
And fearing much but braving all,
Men choose to work their problems out
And earn their glory, great or small.

And what has pleasure to compare
With that delight of doing things,
That sense of satisfaction rare
Which every hard achievement brings?
Though weariness may cause a sigh
And heavy may the burdens be,
When the dark days have all gone by
The sweeter is the victory.

The Jeering of Dreiser

By Claude G. Bowers

THE OTHER DAY we commented on the fact that after the bankers and professional economists had been commended for "taking the world's problems away from the politicians," the politicians are now being asked to solve the complicated problems of the day. We are not alone in the observation. In his address at Chicago the German Ambassador to America said:

"While at the outset the political unrest was chiefly attributed to economic reasons, and it was believed that only economic measures could prevent further political and social difficulties, the reverse opinion seems to prevail now. Whereas at first the political leaders hoped for some kind of economic miracle, the economists and businessmen now call for help from the political leaders."

Of course, that was inevitable. Statesmen worth while will avail themselves of the suggestions and advice of bankers and economists but in the end will act upon their own judgment. It was Ramsay MacDonald in the Commons who recently said that his Government was always glad to have the suggestions of the bankers but that the decision would always be made by the Government, acting for the whole people.

In Sympathy With Dreiser

We must confess to complete sympathy with Theodore Dreiser's indignation concerning conditions in Harlan County, Kentucky. We are unable to join in the jeering. He has rendered a distinct service in giving a publicity to the savage and incredible proceedings in that quarter which has been strangely lacking. The spirit animating the dignitaries of the law down there speaks, trumpet-toned, in the observation of the district attorney that had he been Governor he would have stationed soldiers on the borders to keep the Dreiser party out.

The novelist gives us a horrible picture. Children of the miners are starving—dying from starvation. When the union men opened a soup house to prevent starvation it was dynamited. This did not interest the officers of the law. Twelve miners have been killed; but no indictments have been asked. A union organizer's car was dynamited; but no indictment was sought.

We all know of the deputy sheriffs who were shot but not of the miners who have been killed.

When things like these have gone on the representatives of the press have always been instructed to move on; and in West Virginia twenty years ago they were beaten up if they refused. In Harlan County, Kentucky, it appears that two reporters for papers were shot —but there have been no indictments.

In West Virginia twenty years ago newspaper men penetrated to the scene of unspeakable outrages disguised; we know, because they stopped at Senator Kern's office on the way for letters, which we gave.

A News Event of Importance

We have a vivid recollection of how Kern became interested in the West Virginia reign of terror. He found, by chance, on the market page of a Washington paper, in small print, six lines to the effect that Mother Jones, beloved by millions of miners, was about to be tried by a one-horse court-martial. This amazed him. He knew that the trial by drum-head court-martial of an old woman idolized by millions was a news event of importance; and here were six lines buried in a remote quarter of the paper.

It was at that time that we had a forerunner of the dynamiting of the free soup houses in Harlan County, when an armored car was fitted up in railroad shops in Richmond and "officials" and railroad men, safe within the speeding car, shot up the tented community where the women and children of the miners were living after their eviction from company houses.

Impossible to Get Indictments

Twenty years ago it was impossible to get indictments for the mere murder of the miners and their families. That was the time that the thugs of the company's private army stood on the banks of a stream, with guns pointed, and made Mother Jones hold her skirts above her knees and wade in the water. She was then a very old woman. In those halcyon days of savagery these thugs of the private army, sanctioned by the State, were wont to swoop down into mine villages, terrorize the women, and loot their meagre cupboards.

The head of the gunmen brigade, permitted by organized society, was peculiarly savage, and one day, after he and some of the gang had pushed into the hut of an Italian woman who was an expectant mother and left, neighbor women went in and found the woman writhing in agony on the floor, pointing to her stomach and moaning: "I don't hear my baby calling me now."

They had kicked her in the stomach. She died—murdered. There was no indictment; scarcely any publicity at all.

Senator Kern Led the Fight

In those days there were Theodore Dreisers to brave the fury of the gang by going into the terror-stricken region. One of these was the gallant wife of Fremont Older, the great journalist and liberal of the Pacific Coast. She wrote a series of articles which appeared, as we recall, in The Outlook. She was not bludgeoned, but she was denounced as a "Red," and her distinguished husband came in for a deluge of abuse.

It all seemed so impossible to us then; that such conditions could exist in America seemed impossible. It seemed so unthinkable that the agencies of power remote from the scene of the trouble should have been so keenly interested in the suppression of the facts.

We recall the astonishment of Kern when he was kept busy at the long distance telephone listening to the appeal of some railroad executives and men high in the field of finance. Some day a life-long friend in very high financial circles called him on the phone to beg him to drop the investigation he was trying to force by a resolution.

"I'll see you in hell first."

With that the Senator hung up the receiver and then told me of the conversation. He went into the Senate and in one of the most bitter battles ever waged in the chamber forced his resolution through.

The fight against the investigation was led by a Senator who previously had been a Federal judge, and it later developed that he had been a stockholder in the mines when he sat in judgment on the bench.

Private Armies Still Going Strong

On the Senatorial investigating committee was a Senator whose heart was better than his head and who had a weakness for liquor. He was plied with liquor and he made a spectacle of himself. The public heard more about that than about the findings of the committee, which were startling enough—and nothing came of it.

That was twenty years ago, and it appears these things still go on. The Wagner committee recently had something to say about the private armies in the coal fields of Pennsylvania—but they are still going strong.

We know little about the merits of the controversy in Kentucky; but we do know that it is scarcely when no indictments follow the murder of miners; and we do know that it is infamy when children are permitted to starve; and we do know that it is not good for society, for the country, for property that these things should be countenanced under the American flag.

And so we are unable to join in the jeering of Dreiser because he is excited over what he saw. Anyone with a heart would be; anyone with a sense of decency or justice would be. Who wouldn't be?
